

Gorn Limpers! Use "Gets-It" and More!

Corns Come Right Off, Clean and Quick! You Needn't Limp, or Fuss With Your Corns Any More!

What's the use of spoiling a good time for yourself by limping around with these corns? It's one of the easiest things in the world, now, to get rid of them. "Gets-It" does it.

"Those Corns Come Right Off, Clean As a Whistle, by Using 'Gets-It'" has the new way. That's why "Gets-It" has become the corn remedy of America, the biggest selling corn remedy in the world, preferred by millions. Do you remember the toe-eating salve you tried that sticky tape, that toe-bundling bandage, the gouging you've done with knives, razors and scissors? Well, now forget them all. No more fussing, no more pain. Whenever you use simple, easy "Gets-It," the corn is doomed, sure. So is every callus, wart or bunion. Never cut, or use of caluses, it makes them grow that much faster and increases the danger of blood poisoning. No cutting is necessary in using "Gets-It." Use it to-night and end your corny existence. "Gets-It" is sold by all druggists, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.—Advertisement.

What Dyspeptics Should Eat

A Physician's Advice. Indigestion and practically all forms of stomach trouble about nine times out of ten, are due to hyperacidity; therefore stomach sufferers should, whenever possible, eat eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you try a meal of any food or foods which you eat in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any excess acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. I know of nothing better than plain bisurated magnesia as a food corrective and antacid. It has no direct action on the stomach, but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation, it relieves the delicate stomach lining. It does more than could possibly be done by drug or medicine that acts upon the stomach lining rather than the stomach contents. As a physician, I believe in the use of medicine, but never necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with anything but the acid neutralizing action of the acid—cause of all the trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal, take some of the bisurated magnesia, as directed above, and see if I'm not right.—Advertisement.

HARRISBURG WOMEN MIGHT TELL HAIR SECRET

A great many Harrisburg women, who have an abundance of beautiful hair, know about a remarkable hair formula which every woman ought to know about. For a number of years Harrisburg druggists have been continually called upon to mix this formula. Undoubtedly the use of this formula is largely the secret of the beauty and luxuriance of the hair of very many Harrisburg women and men. The formula consists of six ounces of bay rum, two ounces lavender compound, and one-half drachm of menthol crystals. Soak a few drops of perfume. A New York physician and a New York chemist were recently consulted regarding the efficacy of this mixture and they both say they know of nothing better to destroy dandruff, stimulate hair growth, cleanse and invigorate the scalp, stop falling hair, and to make the hair buoy and give it lustre. Any druggist can furnish you the ingredients which you can mix at home or will mix them for you. Apply the mixture at night and morning and rub in with the finger tips.—Advertisement.

A FINE TREATMENT FOR CATARRH

EASY TO MAKE AND COSTS LITTLE. Catarrh is such an insidious disease and has become so prevalent during the past few years that its treatment should be understood by all. Science has fully proved that Catarrh is a constitutional disease and therefore requires a constitutional treatment. Spasmodic inhalers, salines, douches often drive the disease further down the air passages and into the lungs. You have Catarrh or Catarrhal deafness or head-noises, go to your druggist and get one ounce of Parment (double strength). Take this home and add to it 1/2 pint of hot water and 4 ounces of granulated sugar; stir until dissolved, take one tablespoonful 4 times a day. This will often bring quick relief from the distressing head-noises, clogged nostrils should open, breathing become easy and mucus stop dropping into the throat. This treatment has a slight tonic action which makes it especially effective in cases where the blood has become thin and weak. It is easy to make, tastes pleasant and costs little. Every person who wishes to be free from this destructive disease should give this treatment a trial.—Advertisement.

Business Women Plan New Movement at Y. W. C. A. A group of business girls, representing the different professions and occupations of the city, met in the clubroom of the Young Women's Christian Association Monday evening and discussed the organization of a Business Women's Club. The purpose of the club, would be to unite all thinking women in a common sympathy and understanding of their ownness of need and purpose, regardless of profession and occupation, and through the discussion of social and economic problems, to bring them into more sympathetic and intelligent touch with the commercial and industrial system of which they are a part as found in our homes, our business, our city. The club will be a live institution largely educational in scope, enabling business girls and women to equip themselves for broader usefulness in our increasing obligations to society. Sunshine Society Plans Usual Christmas Work

The Roberta Disbrow Lloyd Sunshine Society held a most interesting meeting on Monday at the Y. M. C. A., at which plans were started for the Christmas work which the society does each year among the poor and shut-ins of the city. Members reported new cases of poverty and sickness and committees were appointed to look after that branch of the work.

Letters of gratitude were read by the secretary from parents of children whom the society cared for during the summer. Arrangements were made to engage a teacher to continue the training of two crippled children. One little lad who cannot walk and who, until Sunshine began his education, could not amuse himself in any way, has learned to read, write and draw, and instead of endless days of idleness and gloom he can amuse himself at will and has developed from a moody, uninteresting, backward child to a happy, contented and cheerful one.

Visiting the poor and shut-ins and leaving a word of cheer and an atmosphere of brightness is the chief aim of the Sunshine members. Sewing for different institutions of the city will be continued throughout the winter at the regular meetings.

Skin Sufferers—Read!

We, as old established druggists of this community, wish to recommend to you a product that has given many relief and may mean the end of your agony.
