When President Wilson went to Princeton last Tuesday to vote he was met at the station by a small group of students and professors, but in contrast to his last visit there was no cheering by the students. There are a good many symptoms of the waning Demogratic sentiment.

When a woman winds a towel around her head and calls for a bucket of water it means the beginning of a big day," according to Farm and Fireburgh address he would do well to revise it considerably before he delivers it again. Democratic sentiment.

ELECTION LAW FREAKS

OUT of the ruck and muck of the insistent demand for amendment of the election laws insofar as they relate to the computation culties which have confronted election poards and other authorities have been production and exportation.

of the most serious character. but during the last few years so many that country to buy cheaply the ships placed upon the statute books that it American laws.

believes that every proposal which he merit system, but who were placed submits for the consideration of the there by suspension of the civil service voter is four square and practical in requirements. all its provisions, but practical men who are familiar with the difficulty of balloting realize what has come about who would like to buy a few govern-

through the changes and amendments ment bonds. If Speaker Clark had and drastic legislation of this sort, taken the trouble to specify who had These are out of patience with the been benefited by Democratic legisof the thoughtless masses who so thinks of his notorious Indianapolis often are swayed and influenced by speech.

reality no relation to reform whatever.

Even the courts have not been able to adjust the situation or clear the air. It would, therefore, appear to be the duty of practical and sensible men of all parties to get together before the next session of the Legislature and force such changes and amendments as will give the voter some chance to deposit his ballot in an intelligent way. It ought also to be understood that a form of ballot easily understood should be one of the first changes. Multiplication of political parties and the injection of an alleged nonpartisan scheme into the general mix-up has brought about a condition which is almost intolerable. Ballots are frequently improperly marked, resulting in the disfranchisement of thousands of yoters in that State. Until those of the state with Mozart. He has so few good one-steps.

TELEGRAPH'S PERISCOPE

One of the most striking things noticed as a result of the election in almost every county has been the defective or careless manner in which officers in charge of the election in almost every county has been the defective or careless manner in which officers in charge of the election in almost every county has been the defective or careless manner in which officers in charge of the election in almost every county has been the defective or careless manner in which officers in charge of the election in almost every county has been the defective or careless manner in which officers in charge of the election in almost every county has been the defective or careless manner in which officers in charge of the election in almost every county has been the defective or careless manner in which officers in charge of the election have defective or careless manner in which officers in charge of the election in almost every county has been the defective or careless manner in which officers in charge of the election in almost every county has been the defective or careless manner in which officers in charge of the election in almost every county has been the defective or care Published every evening (except Sunday) at the Tlegraph Building, 216 It ought also to be understood that a Federal Square. FRIENDS OUTLAST MONEY [From the Pittsburgh Dispatch.]

FRIENDS OUTLAST MONEY

[From the Pittsburgh Dispatch.]

"Losing one's money," said a man of fallen fortunes, "is not without its compensating comforts; for instance, in the discovery of one's real friends. When I was rich also or the because I was rich also or the because I was drawn to me because he thought I could help him; but it was easy to tell after I had lost my money. There is this to be said about the man and his money. When a man has made money he hates of give it up. But I have known rich men who proved themselves stalwart staying friends indeed; who gave though the chances of the money ever coming back to them—if they thought of that at all—must have seemed slim. I have had men to whom I owed big debts say to me—and this out of sheer kindliness and friendliness to me—to take away from me a burden: Forget it, old man: don't worry yourself over that We'll just simply cross that off the books and call it square." So my misfortune has revealed to me friends whose real friendliness I might otherwise not have known; and the world seems kinder to me than it did before."

THE CARTOON OF THE DAY

HOW TO CROSS A RAILROAD TRACK

To-day the 10,000,000 negroes of the country are planning to celebrate their half-century of freedom by a number of public expositions and pageants which will demonstrate their advance in education, power, wealth and honor. Within the past two generations some negro has arrived at distinction in nearly every branch of science and art. Because the pageant has become accepted as the best means of conveying truth, and at the same time dejugate the pageant has described by the same time dejugate the same time the same time dejugate the same time dej

Because the pageant has become accepted as the best means of conveying truth, and at the same time developing dramatic and artistic tendencies, the negroes are planning to hold one of these affairs in each of the larger cities during the coming year. These pageants have been arranged under the auspices of the Horizon Guild of New York. The purpose is to stimulate the pride of the colored people in the historical progress of their race and to develop their natural dramatic talent. It is not a money-making venture. Its work is somewhat similar in scope to that of the Drama League of America, except that it is confined entirely to the interpretation of the highest ideals of negro life.

One Thousand in Drama

Its first pageant, "The Star of Ethiopia," has already been successfully presented in New York and Washington. It is a production of artistic and musical value which includes over 1,000 persons in its drama. This portrays the history of the col-

and industrial efficiency of the present generation of colored people.

One of the latest efforts of this society has been the awarding of a medal to the negro who has contributed most conspicuously to the credit of the race in America during the year. The first one was awarded a few months ago to Ernest Everett Just, professor of physiology in the medical school of Howard University, for biological investigations conducted at Woods Hole, Mass., in connection with the United States biological station. Professor Just was an honor

The State From Day to Day

Now that the fun of Hallowe'en has passed and the tenseness of election relaxed, shall we turn our thoughts to the big football games and Thanksgiving turkey, and then to the rushing shopping season which aims at Christmas as its goal?

An interesting sidelight on the connubial joy of a couple in Norristown
is revealed by the death of the husband, who had promised his wife
\$1,000 upon his death if she would
W. desert him in his lifetime. We feel
are justified in deducting that all was not
lears well in that household.

Goodchild has inaugurated a program by which it will be possible for the homeless and dejected wayfarer to procure a "ten-hour nod for a jit-ney." And by adding twenty cents the luxury of a breakfast of beans, soup, coffee, bread and butter is his.

From the editorial columns of the Ohio State Journal we read that the editor's idea of an effeminate man is one who uses shoetrees. Probably the same writer's idea of a masculine woman would be one who brushes her teeth every morning and evening.

A Southern lady the other day stated that she was glad the Republican party was coming back into power, in spite of the fact that she was from the South. Whereupon she was welcomed as one who showed signs of progress and as an indication that her mertality was increasing by leaps and bounds.

Terpsichore received the pink slip at Danville yesterday when the Reading Iron Company, at the instigation of Evangelist Nicholson, forbade the use of the armory of Company F, National Guard, for dance purposes because of a certain dance, the nature of which is not explained.

The defeated candidate for Mayor of Erie, Mr. Williams, spoke as follows with reference to his opponent: "It was a close race, and I want to congratulate Mr. Veit on his victory. He put up a good clean battle all the way through. There is no dishonor in losing against such an opponent." No excuses, no deprecatory remarks. A good loser is a thing of beauty and a joy.

[Continued on Page 7.] a mountain range from Greenwood

southwardly past Mont Alto and on to the Maryland State line with snow-ap-ped peaks over twenty thousand feet above the sea, or higher than any of the great Rocky Mountains.

KISSES HAVE NO STATUS Should Be Taken Quietly, Says Judge, and Kept Out of Court
[From the New York American.]
Judge Joseph B. Handy, of Tompkinsville, Staten Island, has advanced views on the subject of kissing.
In a case brought before him in the courtrooms at Stanktone

courtrooms at Stapleton he remarked that kissing was outside of the law.

courtrooms at Stapleton he remarked it hat kissing was outside of the law.

"Such things go from mouth to mouth, like gossips," he said with a perfectly calm face.

"There are about as many ways of saying 'How do you do?' as there are nationalities." he continued "Some people rub noses instead of pressing lips. Certainly, in my opinion, kissing is more civilized than the other form of affectionate approval.

"Kissing and kisses should never be taken seriously. People who try to turn osculation into an argument are those who have forgotten how to contract the lips.

"Kissing is a form of amusement, especially for the onlooker. For instance, take the case of those lovers of an age gone by:
"Beneath the chestnut tree that sat, He held her hand, she held his hat, He held that kissing was no crime, She held her lips up every time—
I held my breath and wrote this rhyme. "You see, the unimportance of being kissed cannot be overrated, neither can the importance of remaining quiet and holding the breath.

"The only person I ever heard of who wished to pjut a stop to this Twentleth Century habit was a female in Jersey."

JOHN HAY AND LINCOLN

Mr. Shaaber was the tallest man in the last Legislature and could give ex-Speaker Alter a start and beat him.

JOHN HAY AND LINCOLN

Hay was at Gettysburg, together with John W. Forney, Wayne Mac-Veagh and John Russell Young, when Lincoin delivered the brief but now renowned address—the "Four score years ago," etc. But neither the address nor the occasion made very much of an impression on Hay's mind at that time. Evidently he was much more interested in the convivial patriotism of Forder of the convivial patriotism of Forder of the convivial patriotism of the pression of the particle of the convivial patriotism of formed itself in an orphanly sort of way and moved out with very little help from anybody; and after a little he

Ebening Chat

The attorney general's office apthe odd varieties that reach Capitol Hill. Of course, the governor receives numerous communications advising him how to run the State government and giving him pointers on many matters, but the attorney general receives the real ones that mea work. Many folks write for elucidation of legal matters, overlooking the fact that he is not the free lawyer of the State, but the counsellor of the departments and officials of the State departments and officials of the State government. The other day a man wrote to him asking for the corporation laws of Pennsylvania, These laws are scattered through a dozen books and such a thing as a corporation code has been attempted, but none is in existence. The next letter asked for a list of all lawyers in the State and the writer was "peeved" when he was told the State did not keep such things on hand.

The Harrisburg Railways Company is making a good job of the broken paving along its track in Second street north and south of State street. Wooden blocks are placed on both sides of the rail and the sheet asphalt is placed against these blocks, making a solid and smooth surface. Superintendent of Public Works Lynch is one of the most practical of men and it is his plan to put all of the streets in the best possible condition before the first snowfall.

Governor-elect Samuel W. McCall, of Massachusetts, who is known to a number of residents of this city through his visits to the late Congressman Olmsted, is another of the Pennsylvanians by birth to rise to high place. He was born at East Providence, Hamilton township, Franklin county. He was taken to New England when quite young and was educated at Dartmouth, which gave him the degree of doctor of laws and offered him its presidency. Mr. McCall has a pronounced liking for Pennsylvania history and biography and is the author of the life of Thad. Stevens in the American Statesman series. Governor-elect Samuel W. McCall, of

author of the life of Thad. Stevens in the American Statesman series.

Governor Brumbaugh has been presented with a block of wood from the old Blaine homestead at Carlisle. This house, which was occupied by the family for years, was built by Ephraim Blaine, grandfather of the statesman, and stood near the First Presbyterian Church. Church.

John W. Vickerman, the Alleghen active marshal of the big Bible class parade in Pittsburgh just before the election. There were 11,000 men and 1,700 automobiles. Mr. Vickerman had charge of important work in connection with the local option bill on the floor of the House last Spring and will likely be a member of the next House.

While philanthropic white people have contributed liberally to aid the negro in his education and advancement. d.e credit must be given him for what he has done and is doing for himself. Every educated negro knows that in order to raise himself it is necessary to improve his entire race, because in the minds of many white people the ignorant negro is regarded as typical. A strong organization, known as the National Association for the Advancement of Colored people, has chapters in every large city. It publishes a live magazine devoted to general uplift work and is a strong factor in developing the intellectual and industrial efficiency of the present generation of colored people.

One of the latest efforts of this generation of colored people. In floor of the House last Spring and will likely be a member of the next House.

A southern lady, from Baltimore, who has been spending several days in the city, told some very interesting reminiscences to friends relative to the Civil War and the feeling, since eradicated, which then prevailed between the North and the South. She also mentioned the late Daniel Drawbaugh, believed by some to have been the original inventor of the telephone, and a man, she said, was not Drawbaugh at all. He came from a part of Germany where a little town by the name of Traw was situated. His family was named Trawbach, the latter half of which word means stream or brook. The close alliance between the ietters d and t in the German tongue were vidently responsible for the transformation to the name by which the old gentleman and inventor was known in this section. At the time when many northern soldiers were quartered in the present school building in Walnut street near Front, then used as a temporary hospital, this young lady from the South was visiting in town and paid a visit to the soldiers to see if there were not something she could provide. Most of the "boys" wanted tobacco and pipes, but the one man who attracted her attention was a soldier who when discovered to be from North Carolina and who insisted on having some "goo-goo beans," a food about which little is known except in the South.

Representative Mahlon Shaaber, of

Representative Mahlon Shaaber. Representative Manton Shaaber, of Reading, who was here yesterday, paid a visit to the hall of the House, where he sat in the seat he occupied in the last session and looked around a bit. Mr. Shaaber was the tallest man in the last Legislature and could give ex-Speaker Alter a start and beat him.

—Dr. W. M. Roberston, of Warren, has been visiting in Boston.
—David H. McCulloch, who raced in the big flying meet, comes from Newport.
—The Rev. Dr. S. B. Mase, of Greensburg, will go to California.
—Judge M. S. Stephens, of Cambria, is head of Johnstown's organization of Michigan alumni.
—H. S. Williamson is the president of the reorganized Lancaster Chamber of Commerce.

DO YOU KNOW

That Harrisburg shoes are sold in

HISTORIC HARRISRURG Market Square used to be the favor-ite place for tight-rope walkers, danc-ing bears and other amusement purreyors a hundred years ago.

Beaten Before They

Start

Sometimes a contestant in an athletic meet is so poorly prepared or so nervous that he is "beaten before he starts."

How about the shopper who goes forth unprepared as compared with another who knows just where to go and what to get?
