COURAGE NEEDED IN SICK ROOMS

Commissioner Dixon Tells How It Can Help the Patient and the Doctor, Too

Dr. Samuel G. Dixon, State commissioner of health, in one of his talks strongly urges courage in the hospital and the sick room. This is the way he puts it: Every doctor is continually finding

patients who have some serious ailment which has been neglected until the possibilities of cure are greatly reduced or entirely hopeless. Want of courage and not lack of knowledge that there is something radically wrong with them has, in the majority of instances, kept these patients from seeking a physician's aid. This is one of many instances that might be cited to show how essential courage is to health. It is want of moral courage, in many instances, which leads a man who is perfectly well to take alcoholic stimulants and breaking him down physically and often mentally, to continue to drink. Then again every physician meets in his practice men and women who get in a blue funk over the most trivial ailment. Often enough these people worry themselves until they arrive at a state of mental and physical depression which makes them ready prey for disease. Unquestionably there are many dangers to health which we must meet every day of our lives. It is well to know of these things in order that we may form the habit of avoiding as many of them as possible but to be ever fearful, thinking of and cringing from danger will not aid us to avoid it.

Extraordinary Sale of Spectacles and Eye Glasses

- Ladies' fur lined gloves \$4.00, \$5.00
- Ladies' fur lined gauntlets, \$6.00

And You Wake Up With Beautifully Curly Hair

(Town Tattler) This is a secret that will, I know, be appreciated by my lady who dislikes the tedious and "nervous" task of twisting her locks around a heated iron, perhaps singeing the hair, butting of the ends, and blistering fingers or scalp in the operation. From any druggist procure a few ounces of pure liquid silymerine and at night pour a little onto a clean tooth brush and draw this down the full length of the hair. A simple thing to do, but remarkably effective as will be apparent in the morning. The hair will have a wonderfully soft, curly curl, much more natural looking, glossier and livelier in appearance than where a waving iron has been used. Silymerine doesn't make the hair sticky or greasy, and there will be no trouble doing it up in any desired style.—Olga Ormsbee.—Advertisement.

AGRICULTURE IS TO COME NEXT

Reorganization of Department Will Be Discussed at State College Today

GOVERNOR SPEAKING

Trustees Want Coal Tax

The whole scheme of reorganization of the Department of Agriculture will be set out to-day at a conference to be held at State College between Governor Brumbaugh, Secretary of Agriculture Patton and the members of the State Commission of Agriculture. The commissioners have been summoned to meet at the college to-day and it will be their second meeting since they were named last June. It will be the first meeting with Secretary Patton.

It is expected that the appointments of bureau chiefs will be the first matter to be disposed of and announcements will probably be made next week. At the request of the secretary, all of the attaches of the department have remained at work as usual and no intimations of any changes have been given.

Local Charter.—Members of the Brotherhood of Railroad Trainmen's legislative committee have informed the Public Service Commission that they will file formal complaints in regard to alleged violations of the full crew law. Half a dozen informal complaints were discussed yesterday and the papers will be made out and testimony taken as soon as possible.

To Meet Tuesday.—The Board of Public Grounds and Buildings will meet Tuesday to take up matters pertaining to the Capitol.

Board Meeting.—The State Industrial Board is meeting in Philadelphia to-day to discuss the hotel association's request for a ruling on the division of the day of rest.

Filed Certificate.—The Citizens Light and Power Company of Pennsylvania (whose principal office is in the city of Johnstown) has filed with the Public Service Commission a certificate of notification in the matter of the issue of \$150,000 of five-year 5 per cent. gold notes. The notes are a part of an authorized issue of \$200,000, none of which has as yet been issued. The notes bear date of February 1, 1915, mature February 1, 1920, interest at the rate of per cent. per annum is payable February 1 and August 1 of each year. The notes are redeemable at 102 and accrued interest at any time after February 1, 1917, on any interest date upon thirty days' notice.

Two for Lancaster.—Two electric companies were chartered for Lancaster county. One is the Farmers Electric Company, of Northern Lancaster, capital \$5,000; incorporators, John H. Wares, Clara Wares and W. E. Edwards, Lancaster. The other was the Elizabeth Township Electric Company, to operate in Elizabeth township, capital \$5,000, with office in Pittsburgh and capital of \$5,000. Its incorporators are S. A. Gilmore, E. T. Bobb and Henry O. Evans, Pittsburgh.

To Act Promptly.—Immediately following the official opening of the votes on the amendment to the Constitution approved by the people at Tuesday's election, which provides for an increase in Philadelphia's borrowing capacity from 10 to 20 per cent, steps will be taken to prepare for a special election to secure the consent of the citizens for the floating of a loan for the construction of the high-speed transit lines authorized by the Public Service Commission. This special election will be held in some time in January as soon as the necessary councilmanic legislation has been enacted. Contracts will be speedily awarded to the lowest bidder, who will do the work in the shortest time.

Trustees Want Tax.—Trustees of the State Hospital at Fountain Springs have started a movement to create a permanent fund for the purchase of accumulated excess charged on the price of coal subsequent to the imposition of a State tax upon the coal sold, which tax has been declared unconstitutional, to the hospital. It is a State institution. The trustees claim that the present buildings are inadequate in capacity and they plan to erect another addition, for which the State has not provided. It is hoped by the trustees that the coal companies will see the wisdom of contributing at least part of the tax money on hand for this purpose.

Contract Let.—The State Highway Department to-day awarded a contract to J. A. Paddock, of Brookville, for a bridge in Warren county, Coneyago township, on State Highway Route 94, at Station 69. The contract price is \$2,522.24. This contract has been held since October 17 when the bids were opened pending agreement with the railroad company at that spot as to what proportion of the cost they should pay. The difficulty has been adjusted and in consequence the contract was let to-day.

Water Cases Up.—The Public Service Commission to-day heard complaints from residents of Couda and vicinity against the water service of the Panther Valley Water company. The complaints against the Hummelstein Water company were continued until the week of December 7, and those of the Lehigh Fire Brick Works against railroad rates have been postponed for two weeks. The commission will meet in Pittsburgh next week.

Inspecting Roads.—Highway Commissioner Cunningham and Chief Engineer Uhler spent to-day inspecting

roads in the State system in Huntingdon, Blair and Cambria counties and outlining improvements to be made. To Give Publicity.—The officials in charge of the State Workmen's Compensation and Insurance fund are preparing to launch a comprehensive publicity campaign to interest employers in what the Boards intend to do. The organization of the office work here has been completed. After Law Violators.—State Dairy and Food Commission agents are making careful inspection of the manner in which the cold storage law is being observed by merchants. In many cases it has been found that cold storage products are being sold without the required placard. Boosts Natural Scenery of U. S. (Continued From First Page.)

An Important Garment—the Overcoat

For the next four or five months the overcoat will be your constant out-door companion. By it your dress appearance will be measured as you mingle among your fellowmen.

And you can't afford to treat the question indifferently.

Particularly, as there has been such a radical departure in the models designed for the present season.

Worthy Overcoats Are the Top Notch in Style and Value

The soft, shaggy Shetlands which provide

Warmth Without Weight—in mixtures and overplaids in which the pattern is faintly evident, in grays, browns and greenish effects are most popular with the young men.

Meltons and vicunas, in grays and blacks appeal forcibly to the conservative dresser.

Models are single and double breasted, form-fitting or full box backs, eighth, quarter, half and full lined, and you may choose at

\$15--\$20--\$25

Don't neglect seeing our exceptional line of suits for men and young men, in all wanted fabrics and models, plain and pinch back, at

\$15 \$20 \$25

14 N. THIRD STREET—NEXT DOOR TO GORGAS' IS THE HOME OF WORTHY CLOTHES

Watson & Cooper Worthy - Clothes

heights and delicate colors of the Grand Canyon gave the famous travelogue an unusual opportunity for artistic photography. "I can truthfully say," Mr. Robertson declares, "that my pictures of to-night rank among the best that I have ever taken."

One more week following this, remains of Mr. Robertson's engagement and those who have not taken advantage of the opportunity to see the wonder places of the world at a minimum of cost and effort, are missing one of the best entertainments of the sort ever brought to Harrisburg. Proof of the travelogues' merit is their adoption by the school board for a special series for benefit of school children.

BOOSTS NATURAL SCENERY OF U. S.

Saturday evening "Around the Mediterranean and Through the Dardanelles" is to be presented, a travelogue combining the pertinent and picturesque, Old Spain, Southern France, coast lines of Italy, Greece, Palestine, Egypt and Turkey are to be visited, the interest of the whole journey centering about the narrow strip of water—the Dardanelles—which allied troops and navies for the past several months have been trying vainly to force. Constantinople, the goal toward which they were striving, is to be visited.

An added feature of each travelogue is a musical program by Miss Sara Lerner and Charles Mackey, both well-known musicians of Harrisburg, for the three-quarters hour preceding the travelogue. To-night's program, corresponding with the subject of the evening, will be made up entirely of American music.

Admission prices for all travelogues are 10 cents with the coupon on the first page of the Telegraph, or 25 cents for a seat in the reserved section, admission included.

Every Man

no matter how full his purse, wants his money to go as far as possible. But there is only ONE kind of REAL economy and it is summed up in the word QUALITY. Anything short of that is sure to bring dissatisfaction.

QUALITY means not only goodness of material, but workmanship as well. You can assure yourself of that if you wear

"Campus Togs"

Suits and Overcoats for Young Men and Men.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Brest Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a teaspoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grippe. It opens the pores, relieves congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.—Advertisement.
