BRYAN'S ATTACK CAUSES BREAK

(Continued From First Page.)
among the people who might influence their Congressmen before leaving for the national capital. In promptly taking up the battle and challenging the President, Mr. Bryan likewise serves notice upon his followers both in and out of Congress what he as the leader of one wing of the party and the champion of peace-at-any-price expects of them.
Struggle Now On
The struggle between President Wilson, representing the largest and the conservative element in his party, and Mr. Bryan, the apostle of radicalism and peace, is now on by the action of Mr. Bryan. It promises to engage the country mildly during the next few weeks, and increase in intensity and bitterness until Congress assembles.
The end can only be dividing of the party into two uncompromising camps, which undoubtedly will be as hostile to each other as in the days when Mr. Wilson, preceding the 1908 campaign, declared that "Bryan ought to be knocked into a cocked hat."
Republicans say that Bryan is returning the blow upon the present leader of Democracy which the conservative Democrats in 1908, among them Mr. Wilson, then president of Princeton University, administered to Mr. Bryan.
Democrats had hoped that Mr. Bryan, for the sake of the party, would refrain from an open attack upon the administration and would not press his pacific policy in a way that would destroy the party organization. Ever

RAY'S RECORD ON RECENT ROAD RUN

Ray McNamara and the stock Maxwell touring car which lowered all records for rapid transit between the automobile metropolis and the Hoosier Capital. McNamara made the round trip, down town to down town—a distance of 62 1/2 miles—in twenty hours, one minute, including his only stop, made at Indianapolis for supplies. On the southbound trip he whizzed the 31 miles in 1:56, beating the fastest railroad schedule by one hour, twenty-seven minutes. McNamara traveled through part of three States, virtually the whole mileage being over average unimproved country road. The trip was authentically checked by W. D. Egenburn, Detroit, representative of the American Automobile Association.

BIG EATERS GET KIDNEY TROUBLE SAYS AUTHORITY

Take a tablespoonful of Salts to flush Kidneys if Back hurts.
Omit all meat from diet if you feel Rheumatic or Bladder bothers.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid, which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.
When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.
Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Advertisement.

since Mr. Bryan resigned from the Cabinet, friends have been at work in an effort to heal the wounds caused by the attitude of the President in the days when the Lusitania notes were written.
Secretary Daniels and Postmaster General Burleson, as well as Comptroller of the Currency Williams, ranked as devout Bryan men, have been zealous in their efforts to reconcile. It was only last night that Secretary Daniels gave a party to Mr. Bryan, to which the Cabinet was invited. There were several absentees, notably among them being Secretary Garrison and Secretary McAdoo.
Long-desired Excuse Appears
In taking the President's speech as an excuse long desired, Mr. Bryan selected a means of accentuating in a most forcible way his opposition to the country preparing for the nation's defense. With the rejoinder to the President the issue is now squarely drawn between the two foremost men in the Democratic party. This is the parting of the ways between the President and the "Commoner," the man who forced Mr. Wilson's nomination at Baltimore.

TAFT AGAINST BIG ARMY
Former President, in Speech, Attacks National Defense Program
Special to The Telegraph
Boston, Mass., Nov. 6.—Professor William H. Taft, ex-President of the United States, declined to make a speech on national defense preparations yesterday afternoon at the luncheon given in his honor at the City Club, but did say he does not favor a large standing army, as he believed it would result in conscription, and made it plain that he opposes the policy as announced by President Wilson.
"We are not justified in rushing into militarism," he declared. "The spirit of the people is certainly at variance with the spirit of militarism. The financial condition of the government will not permit the raising of a large army. The navy is not a militaristic instrument for aggression. We are having all we can do to-day to raise the \$6,000 men in our own army."

Slams Hypnotized Press
The former secretary declared that the neutrality of this nation has been violated by the efforts of the pro-ally and the pro-German press and said that both were wrong since the nation has suffered since the outbreak of hostilities at the hands of both the allies and the Teutons.
In speaking of the cause of the war, Mr. Bryan said that the conflict has grown out of the false philosophy that might makes right and the failure of the European nations to remember the three commandments "Thou shalt not covet," "Thou shalt not steal" and "Thou shalt not kill." The lecture was filled with Biblical references and the orator chided many of his best points by reference to Holy Writ. He pointed out that this is not a race war as the races are all mixed up in the conflict. Slav fighting hand in hand with Latin, and Germans allied with Turk. He said it is not a religious war because Roman Italy, Protestant England and Greek Russia are lined up against Protestant Germany, Roman Catholic Austria and Moslem Turkey. He insisted that it is not a family scrap since all the heads of the nations of warfare are of the same royal family and close of kin. He mentioned the fact that just a few weeks before the outbreak of hostilities the various rulers were unanimously entertaining each other. He insisted that the whole right has grown out of the false "Might Makes Right" policy. He said that no ruler will take the responsibility for starting the war and that the marks at least one step forward in civilization since no governmental head is willing to admit he either wanted or began the titanic struggle.

Scolds at Cry of War Danger
Mr. Bryan scoffed at the cry of the propagandists for preparedness that this nation is in danger of attack. He said that as a result of the loss of life and money among the European nations this country is in less danger of attack than any time in the last fifty years. He also laughed at the idea that we could not meet an enemy in case one attacked us. He pointed to the unlimited resources, credit and millions of men who would be at hand in case of any real necessity.
Speaking of the fate of Belgium the orator could not refrain at a chuckle at those who liken the United States to this unfortunate country. He declared that Belgium is a nation about the size of the United States and the United States and separated from her enemies by imaginary boundary lines while the United States is separated from any possible foes by the Atlantic and the Pacific Ocean.
He spoke of the billions of money which will be wasted in preparing for war when there is no danger of war and said that this money should be spent for national developments such as road building.
In speaking of the way to permanent peace Mr. Bryan urged treaties which will make long deliberation necessary before plunging into strife with any other country.
To Form Peace Branch
On the platform with Mr. Bryan was Mayor Royal, Dr. John J. Mullaney, William S. Essick and William M. Robison. Mayor Royal introduced the former Secretary of State following a short address by Dr. Mullaney. Following the lecture Dr. Mullaney called for the names of people who will assist in the organization of a local branch of the Pennsylvania Peace and Arbitration Society.

Dodge Brothers Cars as Desert Stages
Detroit Public Library has gathered considerable information concerning it and has arrived at its general import.
In the upper left and lower right quarters appear six fowls. These are carynets, or young swans. They symbolize purity of descent. The crest above the shield is the crown of a vicomte—or viscount in English—indicating the rank of Cadillac's nobility. Dictionaries of heraldry define the black bars across the quarters containing the swans as "barrelets" and say they symbolize 'one who sets the bar of conscience and religion and honor against angry passions and evil temptations.' The blue as seen in the emblem on the radiator of the car denotes loyalty and truth; the gold, generosity and elevation of mind, and the red still other virtues.
The ancient coat of arms was a general symbol of the ideals of the family to which it belonged, and its whole meant considerably more than a mere aggregate of its parts. To the old cadasters like Cadillac, the family escutcheon was a sacred thing, and its degradation was to be avoided or prevented at all costs, even if that meant giving up one's life.
Out in the Imperial Valley of California a fleet of 18 Dodge Brothers motor cars are used as stages. They are known as the "Pickwick Stages," because of their starting at the Pickwick Theater, San Diego.
Their routes lies across a portion of the California Desert and each car averages about 1,000 miles per week. Various makes of motor cars were tried out by the Pickwick Stage Company, which operates the line. About six months ago the first Dodge Brothers car was purchased and subjected to many tests on the route. The success was so striking that several more were bought and this number has been added to, until there are now 18 in use, and more are to be bought within a short time.
According to Mr. Hayes, one of the proprietors of the company, the upkeep on these cars has been remarkably light, and within a year he expects to operate Dodge Brothers cars only.

Pullman \$740 DELIVERED
1916 MODEL
Stand the Pullman five-passenger at the curb beside any car in its class or out of it and it retains its own air of snap and distinction.
