SAURDAY EVENING NOV. 6

One, harboring ambition, goes
To tasks the lazy man would shun,
And if he governs men or hoes,
The days are all too short; he knows
No peace until his work is done,
Until the goat he seeks its icon.

—S. E. Kiser.

CAPITOL HILL CONFERENCE

GOVERNOR BRUMBAUGH is greatly interested in the forthcoming welfare, efficiency and engineering conference which is to be held on Capitol Hill in a few days. This conference has been called for the purpose of familiarizing the public and the various departments of the State Government with the work of the separate departments which have to do in a responsible manner with State engineering projects, natural resources and industries.

THE NOISE MAKER

AMONG those who are waging a war on noise to aid the poor is Mrs. Imogene Oakley, who is chairman of the committee on noise of the American Civic Association. This excellent woman has given much study to the noise nuisance and in her desire to find out how a city could best serve its working class she asked a meeting of women workers of Philadelphia to tell her what they consider the greatest evil in their crowded tenement life.

RHETORICAL SIDESTEPPING

PRESIDENT WILSON'S address before the Manhattan Club of New York was undoubtedly a masterly piece of rhetoric and oratory, and within its limitations is excellent in that he promises his support of Secretary of War Garrison's program for army and navy expansion and the placing of this country on a footing of preparedness capable of maintaining the dignity of the nation and the respect which it has heretofore commanded among all the nations of the world.

OUR DAILY LAUGH

MODEST KICKER
I suppose you know just how the government should be run?
Oh, I don't go that far. All I say is that nobody who is trying to run any part of it knows how.

JUST SO.

Mr. Elephant: I had a dark brown taste in my mouth after the banquet.
Mr. Monk: So the color they call "Elephant's breath" is brown, eh?

TELEGRAPH'S PERISCOPE

Yes, ladies, if you dabble in stocks, you may be squeezed.
You can find thousands who respect gray hairs; did you ever hear of any great respect for a bald head?

PLEDGES TO THE PEOPLE

MAYOR-ELECT SMITH of Philadelphia is greatly interested in parks and playgrounds and will make their development one of the active policies of his administration. Mayor Blankenburg's successor also expects to push with vigor an advertising propaganda which will bring to the attention of the world the advantages of Philadelphia as a business and industrial center.

EDITORIAL COMMENT

"Eat less," admonishes Henry Ford, who seems to have succeeded Andy Carnegie in advising others to be frugal. But it will be noted that Henry does not add the rest of the prescription "and walk more."—Boston Transcript.

FAITHFUL UNTO DEATH

Blanche Walsh, actress, is dead. She had been ill, had gone to hospital to be operated upon, and then had quit her sick bed to appear at a party to keep an engagement. Her refusal to disappoint an audience caused a relapse from which she died.

REASON ENOUGH

A teacher was giving a lesson on the circulation of the blood, relates the Osborne Farmer. Trying to make the matter clearer he said: "Now, boys, if I stood on my head the blood, as you know, would run up it, and I should turn red in the face."

ALL IN THE DAY'S WORK

In a town of Maryland one Bill Morrison appeared before the postmaster one morning and the following colloquy occurred: "Morning, Mr. Postmaster."

CATHOLIC FEELING OVER CARRANZA

Despite the fact that the Carranza government now recognized by President Wilson, has given its pledge to "respect the body" of the property, and religious beliefs without other limitations than the preservation of public order and the observance of the institutions in accordance with the laws in force and the Constitution of the Republic, the Catholic view as understood in Washington, so a dispatch to the New York Sun makes clear, is that Carranza's attitude is altogether to his own harm as to the degree of religious tolerance which he will extend.

Politics in Pennsylvania

United States Senator Boies Penrose's trip to the Pacific coast with the Philadelphia councilmanic committee to bring home the Liberty Bell is regarded as taken with a view to making an impression on the voters making up his mind on the movement inaugurated by national Republican leaders to have him chosen as the chairman of the Republican national committee.

CARING FOR THE BLIND

By Frederic J. Haskin
A UNIFORM type system is one of the results of the National Congress for the Blind which has just been held in San Francisco. For ten years a committee, composed chiefly of blind persons, has been engaged in the work of combining the best features of the five distinct kinds of type heretofore in use.

THE STATE FROM DAY TO DAY

That there are "high-brow" and "low-brow" bugs just as there are high and low beings of that character, and that bugs have souls, are several of the deductions made by Professor Walters, of Langhorne. "Some insects are evolving more rapidly than we are, and that's why they're so insane," was another of his statements.

WELL KNOWN PEOPLE

—Dr. John A. Brashear, the eminent Pittsburger, went home from Atlantic City yesterday with the hand of a winner. He kept a record of every trip made and figures in his little book show that 11,023 miles have been covered. The distance is registered on a pedometer which the hand points to 100 miles. It is recorded. This telegrapher calculates that he makes 2,500 steps in every mile. In four years he has made 25,500,000 steps and has walked 2,500 miles a day. Between now and October 21, 1916, he hopes to show records for many long-distance trips.

FORTUNE HELPS THOSE WHO HELP THEMSELVES

Trade doesn't come, Mr. Storekeeper, but it will around for you to go after it.
But it is quick to accept the right invitation.
For instance, when an article is advertised in the newspapers people become interested in it. They want to see the goods. They will be attracted to the store that shows them in its windows.
Alert storekeepers watch the newspapers and when an article is advertised they let the public know they have it.

CONDENSED GEOLOGICAL TALKS

FORT LOUDEN—From Chambersburg to St. Thomas, Hudson River and Utica slates, some superior for roofing and other commercial purposes, but undeveloped. Value of Pennsylvania's yearly product of slate, over four million dollars.
The bottom dropped out of Broadway, and we have a suspicion that it will be Wall Street's turn next.—Boston Transcript.
