## COLD STORAGE ACT MUST BE OBEYED

No Sidestepping Will Be Permitted by the Dairy and Food Division Men

Display of miniature cards announcing that cold storage food is on sale, but placed some distance from the goods will not be tolerated by the State Dairy and Food authorities any more than the failure to placard goods at all.

The agents of the State Dairy and Food commissioner have been busy the last week or two inspecting the manner in which the cold storage act is being observed, complaints having been made in a number of places that goods were being sold which were cold storage, but not marked. In Philadelphia and a number of places arrests were made after disclosures.

Lately it has been found that some people were getting around the requirement of the law by tacking cards announcing wholesome cold storage food for sale on the sides of rooms or even on top of a pile of boxes, but not near the cold storage goods. The idea seemed to be that so long as the card was in the room the law was obeyed. State authorities insist that the placards shall be so placed that the buyers know what they are getting.

**Pardon Board List.**—The list of cases for the November meeting of the State Board of Pardons on November 30 has been closed and for the first time in a long while there are no new applications for commutation or death sentences. An application will be made for rehearing of the case of Roland S. Pennington, Delaware county, and the case of George Lee, who is serving a life sentence in Philadelphia, has also asked to have his case come up again.

**Case Closed.**—The long-drawn-out case of the Philadelphia Team Owners against the Philadelphia and Reading Railway Company has been ordered closed by the Public Service Commission. The orders given have been complied with.

**Officers to Help.**—All officers of the State Department of Health, which has about the largest number of attaches of any department of the State government, have been called upon by Commissioner Samuel G. Dixon to assist the State Board of Censors in detecting unlicensed films. This action has been taken in accordance with Governor Martin G. Brumbaugh's request. A number of other department heads will do the same thing.

**No Decision Given.**—The Dauphin county judges yesterday took the papers in the Fischer case to test authority of the Public Service Commission to pass upon municipal contracts.

**Appointed Inspector.**—B. Frank Roeller, of Royersford, was today appointed a deputy factory inspector.

**Speaks at Wilkes-Barre.**—Professor M. B. King, chief of the vocational education bureau, is in Wilkes-Barre, where he will speak to-night on the operation of the child labor law.

**Commission Meets.**—The Public Service Commission is meeting at Pottsville to-day. Executive meetings will be held each evening. The commission will meet here on Tuesday.

**Ex-Senator Here.**—Ex-Senator Moses Shields, of Nicholson, was at the Capitol to-day.

**Appeal Was Filed.**—The Attorney General's department stated to-day that appeal from the decision in the Delaware county courts that the State could not collect from estates of insane persons who had estates to pay their maintenance.

**Speaker Here.**—Speaker Ambler was at the Capitol to-day to see the Governor and State officials.

**Board Meets to-night.**—The Board of Public Grounds and Buildings will meet to-night at the Executive Mansion instead of this afternoon.

**Organizing Force.**—Chief Inspector Lew R. Palmer is organizing the force of factory inspectors. The additional appointments are expected in a few days and then the supervisors will be given districts.

**State Insurance Board to Announce Its Rates Tomorrow**

Announcements regarding the plans and rates of the State insurance fund will be made to-morrow following a meeting of the new State board in charge of the workmen's compensation fund. For several weeks the experts of the board have been at work on the details and the printed forms are expected to-morrow, when they will be gone over finally and announcement made. More inquiries have been made about this feature of the new workmen's compensation system than anything else and men have been here daily asking for details.

The Workmen's Compensation Board will also have a meeting this week, but until the referees are appointed not much will be done regarding the district work. The office details are being worked out.

It is considered likely that Governor Brumbaugh will announce the referees very soon and that other appointments will follow in short order. One of the appointments considered likely is that of Professor Franklin Manges, of York, as the head of the soil conservation work of the Department of Agriculture. He has been engaged in this work for years, having written State bulletins and been an adviser in the State service.
