Executive Secretary Tells Conference Today of Fiftieth Anniversary Celebration

Plans for a nation-wide celebration of the Young Women's Christian Association jubilee were announced at noon today by Miss Mary Johns Hopper, executive secretary of Delaware, Maryland and Pennsylvania, who is attending the two-days' conference of Volunteer Workers here. The National Board of 70 women is actively interested, and the 973 associations of the country will participate in the great event, celebrating the organization of the first Y. W. C. A. in Boston in 1857.

Simultaneous meetings will be held on three different dates each association to arrange its own celebration and have something special for every department. Professor Nye, of Steelton, members anew and secure a new membership, too.

The first rally will be held on the first of February, 1916, for all members of the Y. W. C. A. and their friends and girls of the country. Membership banquets will prevail at this time. On the 22d of February, a historical pageant is to be presented. "The Girls of Yesterday" these clubs are showing the difference in the lives of the girls of the past and present, and the change in methods of work in the association during fifty years. March 3, the third day of the jubilee, when religious services will be held, with thanksgiving, rejoicing and prayer. Other days will include meetings for the federations, industrial workers, gymnasium classes, etc.

Business Women's Club

Miss Anna M. Bigelow of Washington, D. C., spoke this morning of Business Women's Club for Business Women's Standpoint, saying that the business women's club is one of the most vital issues of the times, whether it is regarded as a part of the association or as a separate organization. There are one hundred or more so-called business women's clubs in the Y. W. C. A. and the club has agreed upon at summer conferences for these clubs to socialize, form, Christian in purpose, educational in trend, civic in action and Democratic in membership. Ideal, because of the woman's position, whether professional, really and truly business, industrial or home maker is entitled to membership in any Business Women's Club of the association.

The club for organized groups of business women in the association, include I, the study of business and professional opportunities open to women, with special effort given to finding less common occupations within the reach of young women. II, the study of places of employment with view to warning young girls just entering business life of dangerous places for girls to work. III, Bible study with reference to business girls' problems; the courses including "Jesus Christ and Everyday Problems," "Jesus Christ and Social Problems." Round table discussion of topics of interest to business women. IV, Debates on great industrial and economic subjects and on business women's interests. V, study of great books dealing with business, such as the minimum wage, organized labor, child labor, etc. VI, specific study of the Labor Movement. VII, study of Parliamentary Law and Current Events, with a special reference to "Why Every Woman Should Know About Business Law."

Miss Bigelow advised all associations to build for future needs of business women, and also spoke of the danger to associations in starting Business Women's clubs, because the business women will insist on the association movement practicing within itself what it wishes business women to stand for outside, such as living wage and decent homes of work. Local field and national boards will be forced to invite business women to serve with them.

Chesley, Miss Mary Jennings and Mrs. Frank Palmer.

This Winter's Coal Shipments.

Every indication points to poorly prepared coal being shipped when real cold weather comes. Each mine is capable of getting out every day a certain number of tons of coal properly prepared and properly sized.

When mining operations are rushed, owing to a strong demand for coal, the same care naturally cannot be taken.

"Poorly prepared coal" means that the slate and bone and other impurities have not been properly picked out; the coal not being standard size and imperfectly screened at the mines.

We are advising all our customers to fill their bins now with our Sun-Glow Coal. Later in the year you are apt to get coal that will give trouble.

RECOVERY FROM GRIP

The form of influenza popularly called grip lasts but a short time, is seldom fatal, but causes suffering and misery out of all proportion to its importance.

The reason is this: When the acute stage of the grip is passed there often remains a neurasthenia that persists for months if not properly corrected. The patient is mopey, in poor spirits, suffers lack of appetite and vigor and feels indisposed to work or even to enjoy life. Warmth and quiet alone give comfort and these not for long at a time. Sleep is restless and does not refresh the nerves, which are always at high tension.

The best way to correct this after-effect of the grip is to build up the blood, and there is no better blood builder than Dr. Williams' Pink Pills.

As soon as the revitalized blood courses through the system, you are assured of its soothing influence. Gradually the color returns to the pale cheeks, appetite and digestion improve and you are on the road to health.

The free book, "Building Up the Blood," contains a chapter on the after-effects of the grip. Send now for a copy to the Dr. Williams' Medicine Co., Schenectady, N. Y. You can get Dr. Williams' Pink Pills at the nearest drug store or by mail on receipt of ten cents in a plain box; six boxes \$2.50.—Advertisement.
