### Trotter to Speak Here on Rescue Mission Work

### Kennedy Medicine Store First of Kind in U. S.

In yesterday's issue of the Telegraph, Kennedy's Medicine Store announced a thirtieth anniversary sale with two pages of specials arranged for a three-day event in recognition of the store's growth and success since it was established thirty years ago. In those days cut-rate medicine stores were unknown and Mr. W. H. Kennedy conceived the idea of specializing on patent medicines and sell them below the prices prevailing at that time. Since then the idea has been adopted in practically all cities of any size until today there are thousands of stores that specialize on the cut-rate medicine business. Kennedy, therefore, claims the distinction of having the parent store from which all others of a similar character have evolved. Although there is but one Kennedy store in Harrisburg, there are other Kennedy cut-rate stores in Scranton, Johnston and Reading.

For eight years the store was conducted in Broad street, after which it was moved to South Third street to be in a more central location. For twenty more years the business continued at this place until two years ago, when the present storeroom at 321 Market street was secured in order to get still more room and a more advantageous location.

The special sale includes all well-known medicines, toilet requisites and rubber goods. Souvenirs will be given to the ladies, and the three-day sale will no doubt eclipse any previous effort of the Kennedy store since it was established thirty years ago.
