GIRLS ORGANIZE AS JR. AUXILIARY

Interested in the Polyclinic Hospital. They Work For Its Needs

The past summer while most girls of their age were on vacations, five or six little girls, ranging in age from nine to thirteen years, banded together to make money for the Polyclinic Hospital.

When this was accomplished, wishing to keep on with their work, they presented themselves to the Senior Auxiliary for recognition, and were immediately organized as the Junior Auxiliary of the Harrisburg Polyclinic Hospital.

The children have their own officers and conduct their own business in as satisfactory a manner as their elders do. They are entirely independent except for a superintendent from the Senior band.

The first money they spent was fifty cents for ice cream, for a typhoid patient, from the Sylvia Heights Orphanage.

These little girls are going to have fancy work and grab-bag at the food sale the Senior Auxiliary holds at 1010 North Third street, on Saturday, November 20.

The following young girls are members: Mae Gross, Jennie Corning, Mildred Rowe, Evelyn DuBree, Miriam Craiglow, Carolyn Roth, Marie Christy, Frances Patterson, Harriet Baskins, Mildred Bogar, Dorothy Paul, Virginia Wallis, Dorothea Bleser and Pauline Gross.

SYMPTOMS OF DEBILITY

People who are tired all of the time and never feel rested even after a long night in bed, who cannot regain weight and strength, whose step lacks elasticity and who feel no joy in living, are debilitated.

A medical examination might easily show that every organ of the body is acting normally but the pallor of the face will usually show that the blood is thin. This is the root of the trouble.

Debility is a loss of vitality, not affecting any one part of the body but the system generally. The blood goes to every part of the body and the use of a blood tonic like Dr. Williams' Pink Pills quickly tones up the system.

The first sign of returning health is a better appetite, improved digestion, a quicker step, brighter eyes, better color in the cheeks. The rich, red blood, reaching every organ and muscle, carries renewed health and vigor. The nerves are quieted, sleep becomes more refreshing and with persistent treatment and proper living the debilitated patient is once more enabled to enjoy life.

Two useful books, "Building Up the Blood" and "What to Eat" will be sent free on request by Dr. Williams' Pink Pills. Advertisement.
