Important Events Usually Cast Their Shadows Before Them

The shadow is of Christmas, in this case, and it is already looming large in the department devoted to Christmas greeting cards.

Forethinking men and women who have seen our comprehensive display of greeting cards pronounce them the most delightful makers of good cheer that they have seen—and you'll think so too. But see the showing early.

Orders for printing and engraving satisfactorily executed.

Dives, Pomeroy & Stewart, Street Floor.

CLEAN MILK MUST BE SUPPLIED NOW

Dr. Dixon Talks of the Great Importance of Cleanliness in the State's Supply

Commissioner of Health Samuel G. Dixon urges that people take means to provide themselves with clean milk. It is important to every one he says and it is erroneous to suppose that because it is fresh it is clean.

Dr. Dixon says: "Not many years ago everybody kept a cow. Nowadays the city dweller's milk may have been hauled across two or three states before the milk bottle finally comes to rest upon the door step. The majority of people seem to feel that if their milk is fresh it is likewise clean. Unfortunately, nothing could be farther from the truth. Dirty dairies and unclean handling is far too common. In the case of smaller communities there is little or no supervision of dairy farms and dealers. As a result milk is often the agent by which disease is transmitted. Typhoid fever, septic sore throat, scarlet fever, diphtheria and other communicable diseases can readily be spread along the milkman's route. This is particularly true where the unsanitary practice is followed of filling the empty bottles, which have been set out by customers, and delivering them at other houses, instead of taking them back to the dairy for proper cleansing and sterilization. There are many instances on record where extensive typhoid epidemics have been traced to this practice. "Where city milk supplies are obtained from a widespread territory, covering several states, inspection of the individual dairy farm becomes almost an impossibility and pasteurization offers the only effective method of protection to insure milk free from germs. This does not necessarily mean clean milk. "Milk produced in states where the dairy farms are efficiently supervised by state inspectors is to be preferred. When the cleanliness of the raw milk is assured it is to be desired and is more easily digested than milk which has been pasteurized. "Every action in the handling of milk and the care of the dairy stock is important. If an absolutely clean supply is to be assured we must have healthy cattle properly cared for, cleanliness in milking and in the handling of the milk and the maintenance of the proper temperature from the time it is brought in by the milker until it is consumed."

PINK OVERALLS NEXT

Passing of the Blue Jeans Predicted as Result of War. Chicago, Ill., Nov. 17.—If the European war continues long, it is likely there will be no more blue jeans, and toilers of the future may be garbed in overalls of pink or gray, according to the prediction of J. R. Hamburger, secretary of the National Association of Garment Workers, which began its semiannual session here to-day. "The supply of blue vegetable dyes is almost exhausted," he said, "and we are unable to get more, as Germany is the sole exporter of the blue dyes used here." The enormous demand for wool and its manufactures will cause an increase in the price of clothing in America this winter, other speakers said.

EMPLOYING HER IN SELF-DEFENSE

When the women tell that they have engaged Miss Gibbs for next week, the menfolk groan. To them Miss Gibbs is both a pest and an abomination. Three times a day one must look across the table at Miss Gibbs, for meals are included with her dollar and a quarter a day. What Miss Gibbs hasn't seen with her own eyes and heard with her own ears, working in the best families in town! Everyone continues to employ Miss Gibbs in spite of the fact that it is still told that she spoiled a handsome dress on Mrs. Judge Blake. The girls of the town find fault with everything she makes. Miss Gibbs doesn't approve of the modern styles anyhow. She prefers to work for middle aged women, who like things made "real dressty" with lots of trimming and fitting. Helena Smith Dayton in Cartoons Magazine.

MOVIE CASE IS BEING PREPARED

Papers in Victoria Theater Colored Patron Suit Ready to File

Appeal to the Supreme Court of Pennsylvania from the decision of the Superior Court on its ruling which permits moving picture and other theater managers to designate where colored patrons shall sit, is practically prepared by Attorney J. Clarence Funk and the papers will probably be filed some time next week. It is understood that Mr. Funk will appeal on constitutional grounds for a reversal of the Superior Court's decision which directs a new trial in the action instituted by several negro patrons against Athens George, proprietor of the Victoria Theater. To Take 154 Names From Jury Wheel.—When, during the first week of December, the Dauphin county jury wheel is emptied to allow its re-filling for 1916, just 154 names of undrawn takersmen will be taken out and destroyed. The courts and jury commissioners will place 900 new names in the wheel and the next day they will draw out twenty-four grand, seventy-two petit and sixty traverse jurors.

PRESENTS LONGFELLOW'S POEM

Bolling Springs, Pa., Nov. 17.—Longfellow's beautiful poem, "The Hanging of the Crane" in Story, Song and Tableau, as presented by the C. E. Society of St. John's Lutheran church here, Friday evening November 13, was rendered in a delightful and pleasing manner by local talent under the direction of Mrs. Frank M. Grove, assisted by Mrs. U. A. Guss and Mrs. Phillip Brechbill. The poem was read by Mrs. U. A. Guss, wife of the pastor.

Ladies' List — Miss Hazel Arnold, Mrs. S. E. Bingham (D. L.), Mrs. H. C. Black, Mrs. G. B. Blaine, Mrs. F. Bossier.

THE CAUSE OF ANAEMIA

It is universally known that iron is a very important element of the blood and lack of it is the direct cause of run-down conditions and anaemia. It may interest our readers to know that Druggists George A. Gorgas, Druggist, Kennedy's Medicine Store, 321 Market St., C. F. Kramer, Third and Broad Sts., Kitzmiller's Pharmacy, 1225 Derry St., Harrisburg, Pa., have in Vinol a reliable, constitutional remedy for such conditions. Vinol supplies iron to the blood in its most soluble state, then there's the nourishing properties of beef peptone and the medicinal curative extractives of fresh cod livers, without oil dissolved in a pure native tonic wine. That's what makes Vinol so successful in overcoming run-down and anaemic conditions.

MACHINE FOR CLEANING AND GRADING FRUIT

A motor-driven machine for cleaning and grading fruit, that has just been brought out in Oregon, is capable of handling apples, peaches, pears, oranges and lemons and of distributing them into 10 grades at the rate of over 17,000 pieces an hour. The fruit is first fed into the cleaner where it is thoroughly cleaned by revolving brushes made of hog bristles, and from this machine it passes automatically to the grader. The grader is built in circular form and occupies a space about 13 feet in diameter, the outer part consisting of a sloping table which is divided radially into bins for receiving

Just One Application and the Hairs Vanish

(Toilet Talks) Any woman can keep her skin free from unsightly hair or fuzz, if she will follow these simple instructions: When hairy growths appear, apply a simple paste, made by mixing some water with powdered delatone. Apply this to hairy surface and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This is a harmless treatment, but be sure you get the real delatone.

Bringing Up Father By McManus
