GET IT FIRST-NOT LAST

When a cold grips your system it is convincing proof that your condition is weakened-remember that. It is risky indeed to simply trust your strength to throw it off, because neglected colds have brought more serious sickness than any other one thing, while weakening cathartics and stimulating syrups are often depressing and dangerous.

The one best treatment for any cold

-the cne so often relied on when others fail, is the powerful blood-nourishment in Scott's Emulsion, which feeds the very sources of bodily strength to suppress the present cold and generate

strength to thwart further sickness. Get Scott's first, not last-and insist on the genuine-always free from alcohol and injurious drugs.
