M. & K. Special Cabinet The Talk of Harrisburg

\$1.00 Cash, 50c a Week

This makes the third car load this season for this wonderful kitchen cabinet. Only a limited number will be sold at this price. Read the specifications over carefully.

SIZE—

This Cabinet beats the ordinary cabinet in size—up and down, and side-ways—from two to four inches. The interior compartments are generously roomy. It is the most cupboard-y cabinet in the world.

CONSTRUCTION—

You will find that this Cabinet is as solid and impregnable as a battleship. The construction is of the lock-joint, framed-in type, which makes the cabinet stand kitchen steam and kitchen heat without giving a hundredth of an inch. The backs and bottoms are of three-ply, built-up stock, grooved and glued in on all four sides.

FINISH—

Every surface is carefully molded and sanded to a beautiful velvety smoothness, and finished with a water-proof satin finish in light natural oak. The interior of the upper section is coated with three heavy applications of blue-white enamel. All doors are molded and sanded smooth. Every edge is rounded, and even the interiors of the drawers are carefully sanded.

MATERIAL—

These Cabinets are built of selected SOLID INDIANA OAK throughout from top to bottom even to the interior of all door panels.

EQUIPMENT—

Full-sliding metal top. Tinned wire shelves and racks. Burnished nickel hinges and pulls. Door latches of an improved gravity type. Tiding flour bin. Crystal glass sugar receptacle and glass jar with air-tight metal lids. Sanitary metal bread and cake box. Spun steel casters. No cabinet in the world is better outfitted.

THE PRICE.....\$19.85

The low price we make on the Cabinet is possible only through quantity buying. For this reason, few if any good stores are able to quote an equally low price on a Cabinet of this character. This offer affords an excellent idea of the savings this store presents its customers and provides an excellent opportunity for you to make a money-saving acquaintance here.

The Quality of Middletown Ranges Is Never Questioned

THE OVEN

The oven is large enough to do all the baking for a big family. The heat passes around it in such a way as to insure even baking on top and bottom.

FUEL SAVING

A Middletown Range saves fuel on account of the flue arrangement and the perfect combustion in the fire box. They pay a big interest on the investment in saving coal.

GOOD BAKING

We guarantee Middletown Ranges to bake evenly and not to burn on top or bottom. This is a feature every housewife looks for in buying a Range—this one will not disappoint.

The Famous Middletown Range
