## ARMLESS MAN GETS OHIO JUDGESHIP

DAVID MOYLAN WRITINGS

Cleveland, Ohio—David Moylan, councilman and attorney-at-law, will soon enter upon his duties as a municipal judge in this city, despite the fact that both his arms have been amputated. Eighteen years ago Moylan was a switchman. In two different accidents he lost both arms, and being unable to perform manual labor, decided to study law. After three years of hard study, he passed his examination and was admitted to the bar. He wrote his examination answers with a pen clenched in his teeth.

To telephone he has the receiver placed on the level with his ear. The hook is held down by a weight, which he removes with his teeth when a call comes in or he wishes to make a call.

Moylan is 38 years of age, unmarried and lives with his sister in this city.

The situation with the Serbian army is less serious than most reports have indicated, according to persons recently at the front, a London news agency dispatch from Athens states.

The troops are declared to be re treating in perfect order and to have retained their modern artillery virtu-

A desperate battle on the Carso Piateau in which the Italians succeeded in capturing an Austrian position and retaining possession of it, although once driven out and afterward violently attacked, is reported by Rome.

Italians Swee Gorzia

Italian guns continue to sweep the Austrian defense of Gorzia in an intense bomgardment.

The comparative quiet prevailing on the western battle front is indicated by the Paris report to-day which mentions only artillery exchanges and grenade fighting.

The Italian official report states that the Austrian air raid on Udine resulted in the death of twelve persons and the wounding of twenty-seven others. In the air attack on Verona four persons were injured. It is declared that the material damage done was unimportant.

Berlin, via London, Nov. 20.—The coming session of the reichstag, which opens November 20, probably will be concerned chiefly with a discussion of the food question. The government has promised a statement on the measures taken and in contemplation to regulate the food supply of the empire. One of the subjects taken up will be an appeal to modify the law governing a state of siege to permit the imposition of fines for minor offenses which now are punishable only by jall sentences. All parties are in accord on this question. The censorship will be discussed again. The session probably will last less than a month, with only a few open sittings.
