## Sold---YOUR Streets---For \$5

Being Article No.
on the subject of
on the subject of

II Wherever this company's lines are laid on city paved streets it pays for all paving between its tracks and nine inches on either side-a width of 7 feet for single tracks and 17 feet where double tracks are laid.
II The amount thus paid out by this company to date approximates $\$ 250,000.00$.
II At $5 \%$ the interest on that amount is $\$ 12,500$ per year.
II Then, too, the company renews this paving, the cost of which during 1914 was, in round figures, $\$ 8,500$.

- That's a yearly total of $\$ 21,000$.

I This you exact from us, notwithstanding we operate our cars on rails and never use the paving.
(I) However, that's our burden-of which WE relieve YOU.

- But from it, you can get a faint idea of the size of the burden that will be YOURS, one of these days.
-I For, remember, outside of our track area there's still a width of 20 to 30 feet of YOUR pavements, to say nothing
of the entire width on streets on which we have no lines.
I] Those are YOUR pavements-paid for with YOUR money-to be maintained by YOU.
II Since the advent of the jitney, traffic upon these-YOUR streets-has doubled. And the extra wear and tear is hastening the day when YOU will be face to face with costly repairs.
(I) Who will pay the bill? The jitney? With what, pray?
II Not the $\$ 5.00$ license fee collected from it-that won't even offset the reduction in taxes paid by this company, due to reduced receipts brought about by jitney-operation.
II No-not the jitney-YOU will have to pay-through increased taxation.
(I. Unless, of course, you demand your rights now, and insist that the jitney shall pay, with an adequate fee, for wearing out YOUR streets.
(I) But it can't be done on a $\$ 5.00$ per year basis.
II Monday we'll take up another point.
