

There's a Lesson For Thousands in This--

Compelled to earn her living because of the small estate left by her husband, Mrs. John Bunny of No. 1416 Glenwood road, Flatbush, has purchased a small hotel at Valley Stream, Long Island.

This is the story which was heralded in nearly every New York newspaper on October 1. It is an old story, but it is of unusual interest because of the fact that John Bunny was one of the most widely-known screen actors in the world.

It is estimated by personal friends of the champion funny man—until Charlie Chaplin captured this title in the motion picture world—that he had made more than \$150,000 during his career. When his will was probated it was found that his estate was less than \$8,000. From this amount it was impossible for Mrs. Bunny to receive an income worth while, so she was compelled to venture into business.

Bunny could have easily provided a monthly income of from \$400 to \$500, for life, for his widow and not have missed the annual premiums. It is estimated that his income was \$1,000 a week just previous to his death. Life insurance is especially indispensable to the professional man in order to provide for those who are dependent upon them. Few professional men leave estates from which an adequate income can be derived.

When Baby Comes

Before baby comes there is a period when expectant mothers are glad to aid the expectant mothers. They urge the use of Mother's Friend, obtained at any drug store, because this safe, harmless external remedy is positively necessary since it brings relief in easing the muscles, cords, tendons and ligaments involved, and unnecessary pain is avoided; thus it serves to ease the mind and has a beneficial effect on the nervous system. In many cases nausea, morning sickness and other distresses are avoided.

FIRST POLICIES TO BE WRITTEN NOW

Will Probably Be Issued Within the Next Week or Ten Days by the State Board

The first applications for policies in the State Workmen's Insurance Fund are now being received at the State Capitol on the blanks issued within the last week or so and the writing of the first insurance will take place very soon. Several hundred applications are expected to be on file before the middle of next week.

The State Insurance Board announced to-day that the self insurance blanks, in which most of the large employers and large corporations such as steel, railroad, coal and other companies are interested, would be sent out early next week. They are being hurried by the State printers. Plans have been made to issue 200,000 copies of digests of acts of the workmen's compensation system, which will explain its provisions, tell what to do after an accident and give the rulings of the board.

The Compensation Board has adjourned until December 1 when it will announce rulings on a number of the questions which were raised at the meetings held during the welfare conference. To Get First Hand.—Data regarding the number of non-English speaking children attending the schools of Pennsylvania will be obtained at first hand by the officials of the State Board of Education so that there will be original information on which to base the plan for reaching this class. This survey will be carried on throughout the winter and it is the idea to have county school superintendents direct the work in their districts and to have the teachers actually in charge of the youngsters giving facts regarding their knowledge of English.
