## Suffered For Years

There are many people who will be interested in the experience of . Julia Hyard, Fort Benton, Mont. She writes:

"I suffered for years with gall-stones. A friend wrote me about Fruitola and Traxo. I started taking it and am completely cured now and feel better than I have felt for twenty years."

Mrs. Byard's testimony is similar to that of many who have given this remedy a chance to help them. Fruitola is a powerful inbrieant for the intestinal organs, softening the hardened particles that cause so much suffering and expelling the congested waste in an easy, natural way. A single dose is usually sufficient to clearly indicate its effleacy. Trage is a splendid tonic-alterative that acts on the liver and kidneys, stimulates the flow of gastric julces to ald digestion, and removes bile from the general circulation.

Fruitola and Traxo are prepared in the Pinus laboratories at Monti-cello, Ill., and arrangements have been made to supply them through representative druggints. In Harrisburg they can be obtained at Gorgas, the Druggist.
