

REAL REASON FOR THANKSGIVING AS INDUSTRIES HERE RUSH ON ORDERS

Increases of From 15 to 100 Per Cent. Over Business of Last Year; Factories and Mills Will Be Kept at Top Notch Speed For Months

GREAT INCREASES IN THE PAYROLLS

Domestic and Export Trade Business Booms; Many Hundreds More Than in '14; Dye Situation Is Troubling Textile Manufacturers

With practically every industrial plant in the city and vicinity running full time in almost every department, and with an increase of from 15 to 100 per cent. in the number of employees...

The employers in most plants announce that owing to the big amount of rush orders to be filled the places will be kept going at top-notch rate for months to come.

The increase in the payroll, too, is tremendous, but not even approximate figures can be obtained as an estimate of the increase in money being paid employees in this city.

While some of the firms are supplying goods for export trade, others have more domestic orders than can easily be handled and are working the employees full time to fill them.

A number of manufacturers report that from present indications a record will be made this year in their plants in the output of supplies.

The increase in industrial business means much to Harrisburg and its people, who more than a year ago in many instances faced serious problems because of lack of work. No such trouble exists at present, according to the big firms.

With but one important exception, the industrial interests are not suffering from the present war in Europe to any such extent as the shortage in dyes for clothing is worrying many manufacturers of these goods because each day it assumes a more serious aspect.

At the Central Iron and Steel Company plant, about 800 are employed in the various departments, a twenty-five per cent. increase in the number of employees at this time last year.

Mr. Turkey Roosts Too High For Many Stretching Purposes of City's Housewives

Among the thousands of housewives who pushed and jostled through Harrisburg's market houses this morning, preparing for the feasting that will be a part of tomorrow's Thanksgiving celebration, were many who cast longing eyes upon the long rows of turkeys that festooned the various market stalls.

For King bird that he may be to-morrow, Mr. Turkey roosted too high for many eagerly stretching purses of Harrisburg housewives to-day. Fresh picked, prime birds sold in the public markets for thirty-eight and forty cents a pound, while at private markets in the center of the city they were sold at 52 cents.

As usual many a pair of turkey birds only for lump sums—pig-in-the-poke style, as it were—to protesting customers who wanted to know the weight of what they were buying.

NO PAPER TO-MORROW. In accordance with a long established custom, there will be no issue of the Telegraph to-morrow, Thanksgiving Day.

THE WEATHER

For Harrisburg and vicinity: Fair to-night not more; not much change in temperature; lowest temperature to-night about 25 degrees.

For Eastern Pennsylvania: Fair to-night and Thursday; not much change in temperature; light, variable winds.

The Susquehanna river and all its tributaries will fall slowly or remain nearly stationary, stage of about 47 feet is indicated for Harrisburg Thursday morning.

General Conditions. An area of low pressure from the Northwest has overpread nearly all the western half of the country and is now central near Denver.

Temperature has risen 2 to 18 degrees over nearly all the country east of the Rocky Mountains and in the Southwest, the most decided rises occurring in the Plains States.

Yesterday's Weather. Highest temperature, 38. Lowest temperature, 27. Mean temperature, 32. Normal temperature, 39.

Thanksgiving. Thankful, Lord? We live in a land where the poor are fed. By the chance to work for their daily bread! We weathered the storms of a bloody year. In the world's record, yet we steered clear! We gathered our harvests from fertile lands! We opened our factories to idle hands! We have cause, indeed, to be thankful.

"WE'LL PAY OUR BILLS," SNAPS BASEBALL HEAD

"Ridiculous" He Calls Stories That International League Is Without Funds

Emphatic denial is made by Frank DeWan, president of the Harrisburg International League club, that the league is without funds. Mr. DeWan wrote a lengthy letter to the secretary, William R. Douglas, taking exception to recent publications regarding unpaid bills. He says: "You should certainly deny the statement that the International League is without funds. Such a thing is ridiculous. The Harrisburg club is without funds just now, but will have money in the treasury within a short time, and I will then proceed to pay up all outstanding bills. The Harrisburg club will meet every obligation in Harrisburg, no matter where it operates next season. I have President Barrow's word for this. "You know that the club lost money in Harrisburg. The league had to advance me \$2,000 to pay salaries with at the close of the season. The losses at Harrisburg were about \$3,500 on the season. This with the money advanced by President Barrow to pay back salaries to the players when the club was transferred, makes about \$5,500 the league is 'stuck' for on account of."

The government charged that the Berwind was the only one of the sixteen boats chartered by the defendants at a cost of \$2,000,000 to relieve German citizens, which succeeded in her errand. The others it is believed, were all captured before they reached the Germans.

Captain Falkenberg said George Kotter, superintendent of the Hamburg-American Line, made him a present of \$50 in return for his services when the Berwind got back to New York.

There was grief in the heart of little "Charlie" Dougherty, messenger boy, No. 11, of the local Postal Telegraph force. "There was grief" is the proper expression, for that grief has turned to thanksgiving.

"Charlie" with visions of turkey with all the fixins' for his Thanksgiving dinner, had worked pretty hard last week and his reward of \$5 (a five and one-dollar bill) was in his pay envelope. But, alas, while delivering a message, the coveted six dollars slipped from his pocket. "Charlie's" grief was sad to witness—and then he remembered the Lost and Found column of the Telegraph.

The balance of the story is soon told. Walter Klingler, of 1808 North Sixth street, motorman, No. 496, on the Reservoir line, found the missing six and promptly turned it over to "Charlie."

Yes, there's going to be turkey in the Dougherty home to-morrow, "Charlie" says so. And he further says: "B'Ve me, Mister, the Tele's SOME paper."

ALL WEST SHORE FAVORS BODY TO BOOST DISTRICT

Cross river folks are to-day discussing with much interest the interviews published in the Telegraph last evening regarding the proposed formation of organizations to bring about improvements in the territory in which the six West Shore towns are located. Although nothing has yet been done in the way of effecting an organization, the agitation is so strong that within the next few weeks it is quite likely that those interested in civic betterment will meet and decide on their future course.

The present plan of those interested in the movement is to call a meeting of the men who favor the improvement plan and then map out some kind of organization. In the beginning there may be just one big organization, but later, out of this, local organizations may be formed.

Business Increase Expected. The project has met with general approval everywhere and Harrisburg, too, is showing a keen interest. Harrisburg businessmen believe that with the development of the West Shore territory will come the building, of

Columbia, Pa., Nov. 24.—Columbia is ready for the great firemen's parade to-morrow and if the weather man favors the celebration the old town will be thronged with visitors. In the afternoon parade more than 2,000 men will be in line and in the fantastical parade in the evening there will be approximately 4,500 men, women and children. Businessmen along the main streets are decorating to-day and by the time

Fair to-morrow Forecast. Fair to-morrow with scarcely any chance for rain or snow was the forecast given to-day by the local weather bureau men, for Thanksgiving Day. The temperature will remain about the same as it was to-day is the prediction.

Japan Willing to Send Strong Army to Europe If Need Arises, Baron Says

Paris, Nov. 24, 5:25 A. M.—Japan is willing to send a strong army to Europe, if the need arises, the Petit Parisien says. A statement to this effect is credited to Baron Ishii, Japanese foreign minister, by G. Leclatier, Tokio correspondent of this newspaper. He quotes Baron Ishii as follows: "Thus far we have not considered the possibility of sending an army to Europe, but if there is occasion there for Japan to do so, she will immediately send an expedition army. Japan does not intend to risk a check."

In regard to the supplying of arms for Russia by Japan, the foreign minister is said to have remarked: "Russia doesn't need men as only one-third of the military apparatus have been armed. By the end of the month Japan will have done much toward arming completely the other two-thirds."

Watchman and Burglar Locked in Each Other's Arms Dead in Shaft

New York, Nov. 24.—Locked in each others arms the bodies of Robert Green, a negro elevator man and watchman, and a man believed to be a burglar, were found to-day at the bottom of an elevator shaft in a ten-story loft building in the shopping section of the city.

Green had apparently found burglars at work on the tenth story of the building and while struggling with one of the men both had fallen into the open elevator shaft. A pile of silk and other goods were in the elevator evidently placed there by the burglars.

Governor Principal Speaker at School Dedication

Governor Martin G. Brumbaugh was the principal speaker this afternoon at the dedication ceremonies of the new L. S. Shimmell public school building at Seventeenth and Catherine streets. The dedicatory address was made by President Harry A. Boyer, of the city school board. Other speakers were Professor Robert M. McNeal, State Department of Public Instruction, Jesse E. B. Cunningham, former State Deputy Attorney General, R. W. Woods past State councillor of the Order Independent Americans and the Rev. Dr. William N. Yates. The Rev. Thomas Reich, pastor of Christ Lutheran church made the prayer and benediction.

Monastir to Be Determinedly Contested For; Closing in On Pristina

The main Serbian army is grouped on the plain of Kosovo, only a thin screen of troops opposing the Austro-German advance toward the plain, according to a Saloniki dispatch dated Monday, received in Paris.

It is said to be possible that the Serbians will attempt the bold coup of a drive against the Bulgarians toward Uskup and Veles in an effort to join hands with the French, but the probabilities are held to be against this.

Austrian troops in the Ibar valley are within four miles of Mitrovitza, the former capital, while the Germans are only a few hours' march from Pristina, the latest statement from Vienna declares.

Monastir is not to be given up without a determined fight, according to advices from the Serbian front by way of Saloniki and Paris. The Serbians are strongly reinforcing the Monastir army and guns and munitions are being forwarded from Saloniki.

\$5,000 BOND FOR JITNEYS REQUIRED

Penalties of \$10 to \$100 For Violations of Ordinance; Measure to Become Effective 5 Days After January 1, 1916

City Council this afternoon, fined Captain Joseph P. Thompson, acting chief of police, seven days' pay, just \$29.16.

Mayor John K. Royal, for the acting chief's summary dismissal for insubordination because he had "followed precedent in authorizing the release from jail of a prisoner without first consulting the Mayor" was refused by a vote of 3 to 2.

Mayor Royal wanted Acting Chief Thompson dismissed because the officer had neglected to tell the chief executive that he "was sorry."

Mayor Royal and Mr. Gorgas voted against the resolution offered by Mr. Lynch whereby the fine was imposed. In his resolution Mr. Lynch pointed out that the offense was not committed with any desire to be insubordinate; that the officer had only followed precedent in numerous instances, and that he had had an excellent record of almost eleven years of continuous police service.

Mayor Royal admitted that Captain Thompson was and always had been a good officer. The Mayor said he was very much surprised that Thompson had acted as he did.

"Not Even Sorry" declared the Mayor. "he never even said he was sorry."

"Didn't he say that he believed he had no intention of being insubordi-
