

THE GLOBE OPEN SATURDAYS 'TIL 10 P. M. THE GLOBE

Your Clothing Store

Every man and every boy is interested in good clothes—where to buy—what to buy is the question always open to you.

Let us answer it for you. Be sure to make THE GLOBE your clothing store.

YOUR CLOTHING STORE—where honest, upright merchandising goes hand-in-hand with courtesy, satisfaction and service—where a most efficient and courteous force of salespeople are always at your command.

YOUR CLOTHING STORE—where the customer is always first—where the merchandise sold is of a higher character and of a different sort.

YOUR CLOTHING STORE—where you can send your child to shop, alone, with the greatest confidence, knowing that they will be treated as courteously and served with the utmost care, equally as well as if you were along.

Special Selling of Smart Suits, at \$15

Very early in the season we contracted with one of our best suit makers for a liberal assortment of smart suits of exceptional value fabrics, to be retailed at \$18. An unforeseen occurrence delayed delivery of these suits—the maker made us a liberal price concession to accept same. We are passing the suits on to you at a saving of \$3.00 on every suit.

Fashion Park Suits, Standard \$25 & \$30 Values—\$20

These suits you must understand are made of splendid materials, tailored with the smart style and superior finish for which Fashion Park Tailors are famous. A goodly assortment of these suits remain of our allotment from their surplus stock which we closed out at a great price saving. Sizes to fit men of every build. Note the great saving on every suit at \$20.

Overcoats For Men Who Know Style and Quality

We show every Overcoat idea the season has developed. Form-fitting and box coats, both single and double-breast models—Heavy Ulsters—coats for every sort of use.

The color range includes every solid tone, every fancy mixture and every pattern effect possible in Brown, Blue, Green, Olive, Gray and Black. Without question GLOBE OVERCOAT VALUES are unequalled at

\$15 \$20 \$25 \$30

The Aristocrat of All Overcoats—The Genuine Sedan Montagnac, at \$45

Boys' Chinchilla Overcoats, at \$5

Other overcoats for the older boys at \$7.50 to \$12.50.

Boys' Mackinaws at \$3.85 to \$8.50

The coat best suited for play and just the coat for school wear—all sizes—beautiful plaid effects.

The Globe "Dubbel-Hedder" Suits, at \$5

In every detail these two-pant suits are the greatest suits possible for the money—and as the name implies, they're just twice as good as ordinary suits for boys.

Men's \$1.50 Shirts, at \$1

Men, here's the best shirt value of the season. A special lot of woven madras shirts in new striped effects—made by a well-known maker—soft and laundered cuffs—regular \$1.50 values.

Men's Sweaters, at \$5

Every man who has "made the rounds" invariably tells us there are no sweaters to compare with our Heavy Shaker Knit Shawl Collar Sweaters at \$5.00. Some men pay \$6.50 for sweaters not as good.

THE GLOBE "The Big Friendly Store"

BOARDS QUIZZED ABOUT MEETINGS

Economy Commission Sends Out Some Letters Asking Pertinent Questions

Officers of all State commissions and boards of trustees have been asked by the State Economy and Efficiency commission to make statements showing membership of the various bodies, times of meetings and attendance at meetings. In case of repeated absence of members from meetings it is requested that a reason be given.

This inquiry, which is the most extended of the kind ever undertaken in the State, is stated to be for the purpose of ascertaining how meetings are being attended and whether the members of boards are looking after the work committed to them. In the first year of the Toner administration a number of members of boards were dropped because they had not been attending meetings and in some cases more frequent meetings arranged.

This is the third general inquiry sent out by the new commission, the first having been relating to departments and their attaches and the second to State institutions for statements as to number and duties of employes. 400,000 Fish "Planted."—Over 400,000 fish were sent out from State fish hatcheries and distributed in streams throughout the State during the month of October according to reports made to the State Department of Fisheries. Of this number 220,000 were brook trout, all "yearling" fish, making one of the largest shipments made in a Fall month. They were sent to a score of counties and in many cases distributed under supervision of fishing clubs or fishermen who have agreed to make reports upon them. The department also "planted" during the month 25,000 lake trout, 55,000 bluegill sunfish, over 11,000 yellow perch; 20,000 catfish; 14,500 minnows and numerous varieties of bass together with 42,000 tadpoles.

Telling About It. — Plans have been made for members of the State Workmen's Compensation Board to speak at a number of meetings throughout the State in explanation of the proposed system during the next month. In addition the board will issue bulletins giving information as to the compensation system and the insurance fund as the work develops.

Going to Waynesboro. — Governor Brumbaugh will go to Waynesboro tomorrow to dedicate the new Y. M. C. A. Building. He will be the guest of friends in that town over the weekend.

Increases Filed. — The Trenton, Bristol and Philadelphia Railway Company filed notice of increase of stock from \$225,000 to \$500,000. The Lebanon Valley Light and Power Company, of Lebanon, filed notice of issuance of \$150,000 in bonds.

Board to Meet. — A meeting of the State Industrial Board may be held within the next week to act on the request of the hotelmen's association for rulings on the women's day of rest law.

More Arrests. — Joseph Berrier, chief clerk of the board of censors, has caused additional arrests in northeastern counties for violations of the moving picture law. Unlicensed films have been displayed.

Dr. Marshall to Attend. — State Veterinarian Marshall will leave in a day or so for Chicago where he will attend the big conference on the foot and mouth disease. He will read a paper on what this State suggests in the way of a uniform law.

Capitol's "Off" Day. — This was an "off" day at the State Capitol. Most of the departments were only open a short time as the officials and attaches had gone to their homes for the holiday.

In the Race For National Suffrage President

Three Events Won by Chalmers in This State

Winning three firsts in four starts is a record that even a professional race driver might be proud of, but A. E. Walden, of Uniontown, Pa., driving a Chalmers Six-40 stripped touring car, sees nothing exceptional in the performance.

At the annual races of the Washington Racing Association, held at Washington, Pa., October 7, Mr. Walden had entered the Chalmers owned by F. A. Close, in all four events on the program. He captured the first event, a ten-mile race for cars with a maximum piston displacement of 230 cubic inches in 12:35, his nearest competitor being over two minutes behind.

Without adding further supplies or water to his car, Walden started in the second ten-mile event, for cars from 230 to 300 cubic inches displacement. This event he won easily, defeating a big field of cars, in 12:51.4. In the third ten-mile event for cars under 400 cubic inches displacement, the Chalmers finished in third place.

Driver Walden came back strong in the big twenty-five mile final and defeated a classy field of cars in 42:30.4. The fastest mile made by any car in the day's racing went to the Chalmers, Walden having done a mile in 1:09 2-5 in the qualifying trials. The track was extremely heavy and cut down the time of the cars considerably.

Walden's Chalmers Six-40 was the same car which took first place in its class at the last Uniontown Hill climb.

On a tour of inspection through Pacific coast territory, C. A. Pfeiffer, vice-president and assistant general manager of the Chalmers Motor Company, has just left Detroit for San Francisco. Mr. Pfeiffer will be absent about thirty days and will cover close to 5,000 miles on his tour. He will visit Chalmers dealers in Los Angeles, San Francisco, San Diego, Portland, Seattle, Salt Lake City, Denver, Kansas City and Chicago, and will inspect the Chalmers exhibit at the Panama-Pacific Exposition.

Dartmouth President Resigns to Accept Science Chair at Yale

Prof. E. F. Nichols

PROF. E. F. NICHOLS.

Hanover, N. H., Nov. 26.—The trustees of Dartmouth College have accepted with reluctance the resignation of Dr. Ernest Fox Nichols, president of the college, who will accept a chair in physical science at Yale. Professor Nichols' resignation will not take effect until June 30, 1916. He has been president of Dartmouth for six years and a half and during that time has done much to put the school upon a sound basis, financially and otherwise.

Professor Nichols is widely known for his research work in physics and it is to take up this work again that he has given up the presidency of Dartmouth. PROPER AGE FOR MARRIAGE And so they were married and lived happily ever after was the happy fiction, romance, artists, photographers, poets, and musicians have pictured the young girl as a bit of delicate Sevres ware; the youth of twenty as the daring, impetuous and conquering. She is portrayed as an idyllic dreamer; he is capable of planning and accomplishing great deeds.

Such is romance, but what are the facts when a boy and girl follow the promptings of their fancy and marry? Only a consensus of opinion from physicians, eugenicists, and the divorce courts could answer this question. In most of the States of the Union there are more marriages of girls between the ages of sixteen and twenty than between the ages of twenty and twenty-six. More boys are married between seventeen and twenty-one than between twenty-two and thirty.

The natural conclusion of medical science—that science which touches both the souls and bodies of human beings—is that a man is not really fitted for marriage until he is at least twenty-five and that if he waits until nearly thirty he is a thousand times more certain of proving a good husband than if he married before he was twenty-five. The girl is not fully grown before she is twenty-three or a little older, and until that time she needs all her strength in attaining her maturity.

When sentimentality may urge early marriage, all physical and moral facts refute this dictum. People have no right to marry until they know themselves and are fit to assume the responsibilities of life. Four is ignorant of itself and of its relation to others. — John Stillwell in the December Mother's Magazine.

condition, but that is judging after the event. We could not at the time and cannot now see that President Wilson erred in judgment or failed in performance at any stage of the proceedings, in the light of information then possessed. He adopted at the outset and with full approval of the country a policy designed to keep us out of the conflict at almost any cost and he has pursued that policy, under the most trying conditions, with notable skill. He had no reason to suspect that Germany had suddenly been bereft of both conscience and intelligence. She was supposed to be as civilized, as law-abiding and as humane as other nations. That she should prove herself a barbarian and an outlaw no one could have surmised. It is to our mind greatly to President Wilson's credit that, throughout the heart-breaking disillusionment, he has persisted in opposing to unexpected brutality and duplicity his own and his country's perfect good faith. So we beg him to continue, but with the greater resolu-

tion now become requisite and with realization that the patience of the people, which already has passed understanding, is exhausted. — George Harvey, in the North American Review.

"ANYTHING" FOR AMERICA!

"Orderly—Majestat, here is still another note from the American President."

"Answer it yourself, Fritz."

"What shall I say, majestat?"

"No, anything."

"And 'anything' it has been since the first American citizen was killed by a German submarine six months ago."

"Anything" it seems likely to continue so long as our government adheres to its conciliatory course and our people maintain their unexampled patience.

Germany, in a word, is incorrigible.

What different conduct on the part of our government would have wrought more satisfactory results avails nothing. Nor do we believe that such a contention could be sustained by evidence. Mr. Roosevelt's insistence that the nation would have been spared its present humiliation if our action from the beginning had been more forceful may find warrant in the existing con-

CATARRH GERMS EASILY KILLED

Only Way To Cure This Disease Is to Destroy Its Cause

If you have catarrh and want to get rid of it you must kill the germs which cause catarrh. Stomach dosing, ointments, sprays, creams, douches, etc., fail because they overlook this fact—they all help by giving temporary relief but they do not reach the germ life that has found lodgment in your head, nose, throat, and could not destroy it if they did.

The best known way of destroying the dangerous germs of Catarrh and consequently ending the disease itself, is to breathe into the passages of your nose and throat the pleasant, penetrating air of Hyomei (pronounced High-o-mey). Hyomei is made from purest oil of Eucalyptus combined with other powerful, healing, antiseptic and germicidal ingredients which will not only reduce all the swelling and inflammation and open your clogged nose and stop up all passages, but will absolutely and positively destroy every trace of Catarrh germ life it reaches. Druggists are so sure of the blessed, lasting relief that Hyomei brings to catarrh sufferers that they sell it invariably on the positive guarantee that money paid will be refunded if successful results are not secured from its use. Get a Hyomei outfit from your druggist to-day and begin at once to drive this dangerous and disgusting disease from your system forever.

Style Tips On OVERCOATS

The most conspicuous part of your dress for the next four months will be your overcoat. It's highly important, therefore, that it be right. Here's a tip on what is proper.

Here's a tip on what is proper.

FABRIC —for the young chap, shaggy Sheltons, in plain shades, faint overplaid or mixtures, greens, grays and browns being most favored.

—for conservative dressers, vicunas and meltons in grays and black.

MODEL —sag form-fitting, or —full box back, —single or double breasted.

They're All Here And They're All Worthy

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless. — Advertisement.

Exercise Care in The Diamond Purchase

When you go diamond-buying, you are pretty much at the mercy of the man from whom you buy it. Diamonds are costly—the investment is usually of life-long duration, so it's well that you exercise care in their purchase.

If there is one store in the city which merits your confidence it is this store of the "Unrestricted Money-Back Guarantee."

Here not only may you choose from the largest collection of mounted and unmounted stones in the city—here not only will your purchase be safeguarded by almost a half century of honest merchandising—here not only will you be told the truth about the stone you purchase—

But with it you will get a written unrestricted guarantee of the return of the full purchase price, to protect you after you and the stone leave the store.

Choose From Unmounted stones, which will be mounted as you desire, at \$5.00 to \$500.00

- Bracelets \$10 to \$150, Rings \$5 to \$125, Brooches \$5 to \$250, Lockets \$5 to \$100, Earrings \$5 to \$500, LaVallieres \$4 to \$250, Cuff Links \$7.50 to \$35, Locketts \$5 to \$100, Secret Order Charms (including diamond mounted Elk teeth), \$10 to \$75, Secret Order Buttons, \$5 to \$35.

How Would You Like to Handle Millions of Dollars Every Day?

There is one man in the United States who handles every year more money than Rockefeller or Carnegie ever handled in their lives. He is Major Alfred R. Qualife, and he is in charge of Uncle Sam's cash vaults in the United States Treasury. More than \$2,000,000 passes through his hands every day. This does not mean that he merely has supervision over a system of bookkeeping through which \$3,000,000 in figures passes each day, but it means that he actually handles the money, touching it with his fingers, or at any rate watching clerks actually handle every cent.

New Way to Curl Hair Without Heated Irons

Hair tortured with the curling iron is bound to become dry, harsh and brittle, as so many know from sad experience. It's far more sensible to use plain liquid silmerine, which can do no harm and which produces the loveliest wavy effect imaginable. It takes so little time to apply the silmerine and the hair can be made to curl in any form, to any extent, to conform with any style of hair-dressing. A few ounces from the drugist will last a long time, so it is not at all expensive. Liquid silmerine is not greasy or sticky and it doesn't stain or streak the hair or the scalp. A convenient way to use it is to pour about two tablespoonfuls into a saucer and then with a clean tooth brush apply evenly to the hair from root to tip. If this is done before retiring the added glory to one's "crowning glory" will be quite in evidence in the morning.—Advertisement.

CONKEY'S SOREHEAD REMEDY is used. It removes the warty growths and purifies the blood. Deniers Everywhere.
