Automobile companies which have big foreign trade get many interesting but peculiar inquiries. A recent letter received from Duran, Cuba, was peculiarly addressed. The correspondent addressed his letter: "Modelh. Hupmobile. Hupp Motor Car Co. Detroit, Mich, U. S. A. Patents Pending." The writer had apparently obtained his address from the name plate on the dashboard on a Model "H" Hupmobile and has copied the entire inscription which is on the nameplate of every Hupmobile.

The letter was received, however, in due course of time at its proper destination, so the Cuban writer gained his point.

All donations will be thankfully received.

Kings, Queens, and Pawns, by Mary Roberts Rinehart.

A boy carried on a stretcher, looking up at God's blue sky with bewildered eyes that are soon to close; a woman carrying a child that has been wounded by a shell; spirited horses tied in burning buildings and waiting for death; these and many more like horrible representations are what really constitute war, according to the author of "K." It means far more than two great armies meeting in a clash and frenzy of battle. And Mrs. Rinehart's book (George H. Doran and Co., New York, \$1.50), is authentic in its word pictures because she herself has been through it and in it and has endured dangers that few women would dare to face; she has been in Dunkirk when aeroplanes rained death from the night sky; she has been in Dunkirk when aeroplanes rained death from the night sky; she has interviewed King Albert I of Belgium and ascertained first hand just what the Belgian attitude is toward the German invasion; she has worked with women of the Red Cross—and, has chronicled all with the vivid humanness which has made her stories famous. And through all the horror of it, she expresses her woman's sympathy of the publishers, will some day put an end to the war.

"Kings, Queens and Pawns" is an excellent commentary upon the human interest sidelights of the war, a critical report of investigations which has made her stories famous. And through all the horror of it, she expresses her woman's sympathy of the publishers, will some day put an end to the war.

The Goddess Girl, by Louise Dutton. The name of the Goddess Girl is Rose, and the fragrance of her personality is very like a rose, so that you love her and admire her, even when she is making mistakes. As a young girl she and her father, the Judge, are good pals, and one cannot help but like such a girl. "The Goddess Girl," however, tires of her home town and, like other foolish virgins, makes her way to New York. Naturally she discovers it to be a city of adventures, where she finds friends and love. And love brings lier a question to answer—a question which many girls are not ready to meet. But "The Goddess Girl" answers the question right. (Moffat, Yard and Co., New York, \$1.25.)

The author has the tollowing to, say about kissing, and the beautiful kingdom to which it leads the way:
"There is a saying that a boy is a man when he reaches a man's years, but a city is kissed into womanhood."

Girls who accepted their first kisses unthinkingly, unchanged by them, have later been iqued or grieved into womanhood.
