

YOU'LL O. K. THIS CHEW AT FIRST TRIAL

Wonderful Flavor of "American Navy" Has Never Been Equaled

PUTS MORE JOY INTO CHEWING

There's a wealth of wholesome comfort and satisfaction in a chew of good plug tobacco. It promotes digestion and coaxes the whole system into a state of healthful activity.

One chew of American Navy plug is enough to get your O. K. Such rich, savory flavor you never tasted before—such sweet, juicy enjoyment you never found in any other chew.

In "scrap" you get only part of the leaf—part of its richness—part of its sweet, mellow flavor.

But American Navy plug is made of the whole leaf, pressed close so that all its richness and sweetness is evenly distributed through every chew.

American Navy is made of choice tobacco leaf selected with painstaking care for full juicy richness.

And the factory in which this leaf is pressed into savory plugs is sweet and clean and sanitary.

Big, luscious cuts for 5c and 10c.

DUSTIN FARNUM IN "THE IRON STRAIN," A SUPERB TRIANGLE DRAMA AT THE COLONIAL TOMORROW

Harrisburg theatergoers who took so enthusiastically to the opening program of Triangle features, will undoubtedly be pleased to note the splendid features that are included in the new program that will be exhibited there to-morrow for the remainder of the week.

Dustin Farnum who achieved a great success in "The Virginian," is one of the interesting stellar attractions in the fine Triangle program. Mr. Farnum will be presented in the Alaskan cave man drama in five parts, entitled "The Iron Strain."

Real burlesque of the old-fashioned sort is promised in "A Game Old Knight" which introduces Charles H. Murray, formerly of the widely-known comedy team of Murray and Mack, in the Triangle-Keystone comedy. Murray is a wandering knight, who in his travels with his valet (Slim Summer-ville) reaches the palace of King Mike XIII.

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

Give Fruit Laxative when cross, bilious, feverish or constipated.

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given to-day saves a sick child to-morrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Advertisement.

COLLECTOR DAVIS IS IN HOT WATER

Chief of Revenue Gatherers Accused of Soliciting Campaign Contributions

Revenue Collector Ben Davis, of Lancaster, who is the head of the internal revenue system in this part of the State and the stormy petrel of the Democratic reorganization movement, a staunch upholder of the bosses of the Democratic machine in Pennsylvania, is to-day accused by the Philadelphia Public Ledger of gathering shekels for Democratic campaigns in a manner which is held to be in defiance of federal statutes.

The Ledger a couple of years ago exposed some Democratic machinations in regard to post office appointments in certain southern counties, notably York, and opened the eyes of a good many Democrats and independents as to the sort of State machine that had been built up on the ruins of the Guffey organization in the name of "reorganization."

Here are some extracts from the Ledger's article: "Politicians in four counties, comprising the Ninth Pennsylvania Internal Revenue Department—York, Lancaster, Adams and Dauphin—learn that a movement is on foot to have annulled the appointment of Ben F. Davis, the district revenue collector, on the ground that he was active during the November election of city and county officers in soliciting funds for the county Democratic committee, of which he is chairman. It is said that many of the letters sent out from the offices of the Democratic county committee, above the signature of Mr. Davis, were directed to federal officeholders, of whom there are 400 in Lancaster county and that some of the letters were served upon these federal officeholders at their places of employment, in post offices, revenue offices and other federal agencies. This is declared to be in direct violation of the federal act of 1909, the penalty for which is a fine of not more than \$5,000 or three years imprisonment, or both. Steps have been taken to bring the matter formally before William H. Osborne, Commissioner of Internal Revenue, at Washington, and to have the matter carried before Secretary of the Treasury McAdoo, in connection with the expense account of the Lancaster county Democratic committee, filed this afternoon, shows that the sum of \$595.79 was contributed for the local November campaign. It shows that Ben F. Davis, revenue collector, contributed \$217.50 to the Democratic county committee, of which he is chairman. Listed also is the name of J. E. Greenawald, with a contribution of \$15. Local political leaders drew attention to the fact that Greenawald, for many years a prominent State labor leader, is now commissioner of immigration at the Gloucester station, opposite Philadelphia, drawing a salary from the government.

"Collector Davis this afternoon frankly admitted that letters had been sent out by the Democratic county committee, above his own written signature, calling upon Democrats everywhere throughout the county to contribute toward the campaign fund. Said Mr. Davis: 'We always send out letters every election calling for subscriptions. They were sent out this time to Democratic throughout the county. These letters bore my name, but I do not know just whom they were sent to. They were sent out by the officers of the committee, but I do not know whether they went to federal officeholders or not. At we got was \$300. As county chairman I signed the letters.'

"Friends of Davis say that the subscriptions were not personally received by him, but by other officers of the county committee, and that there is a revenue collector, and Ben F. Davis, revenue collector, and Ben F. Davis, Democratic county chairman. Political opponents contend, on the contrary, that Davis' action in appending his name to such letters while occupying a federal position is clearly a violation of the law."

HICKOK MANUFACTURING PLANT READY BY JAN. 1

[Continued From First Page.] tured within a month or two.

Up-to-Date Machinery

In the new buildings up-to-date automatic iron and steel working machinery is being installed, including a number of new and improved designs. Business at the plant is gradually increasing, particularly the export trade to South American countries. Government orders from the Argentine Republic are included in this business. A large iron and brass foundry is being completed on the new site and according to officials local orders for iron and bronze castings will be included in the company's output of supplies.

No War Orders

Officials of the company, in speaking to-day, said that several persons had called there asking for employment, thinking that shrapnel cases were turned out at the plant, but no war supplies are manufactured there.

The new Hickok buildings are of the latest type and are practically complete, with the exception of minor details. The pattern storage house is fire proof and made of brick and concrete. The foundry is constructed of concrete, brick and steel, while the storage bins are of concrete. Brick, concrete and steel materials are used in the boiler building, while the rough lumber storage yard is frame, with corrugated iron covering for the sides.

The second floor of the main building, facing Cumberland street, will be used for the office, while the first floor is given over to the machine and wood shops.

The plant is surrounded by a high iron fence. Sprinkler System Steam heating apparatus is being used, with the pipes enclosed in concrete conduits, affording easy access in case of any trouble. The whole plant is protected from fire by an up-to-date sprinkler system. No expense was spared in making
