

Dreaded an Operation More Than Anything

Tried Fruitola and Traxo and Has Never Since Been Troubled With Gall-stones.

Mrs. Mary E. Franse, whose address is West Point, Nebr., Box 411, has written to the Pinus laboratories a very strong endorsement of Fruitola and Traxo. In her letter, Mrs. Franse says: "About ten years ago I was about to undergo an operation for gall-stones when I heard of your medicine. Dreading an operation above everything I determined to try Fruitola and Traxo and have never been sorry I did so, as I have never been troubled with gall-stones since."

Fruitola is a powerful lubricant for the intestinal organs, and one dose is usually sufficient to give ample evidence of its efficacy. It softens the congested masses, disintegrates the hardened particles that occasion so much suffering, and expels the accumulated waste to the great relief of the patient. Following a dose of Fruitola, Traxo should be taken three or four times a day in order to rebuild and restore the system that has been weakened and run down by constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

Fruitola and Traxo are prepared in the Pinus laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists. In Harrisburg they can be obtained at Gorgas, the Druggist, 16 N. Third St., and P. R. Station.

Such a "Catty" Trick to Play on Newlyweds

The friends of newly wedded Mr. and Mrs. C. M. Fehl, 850 Oxford street, yesterday helped select the family cat, thus: "An 'ad' stating that Mr. Fehl would be glad to pay a dollar for a good 'mouser' was inserted in a local paper. By dusk the Fehls had all the

chance in the world to select a cat from a wide variety of powders. There were black cats, spotted cats, yellow cats, striped cats, cats with stub tails, white cats, gray cats, fat cats, lean cats, cats with regular cat cut-ups, cats of the don't-give-a-darn-whether-you-chuck-a-rock-at-me-or-not variety—cats, and cats, and cats!"

The purpose of the cats so the joke-smiths explained was to provide a feline serenade for the newlyweds because their friends couldn't get round to give them an old-fashioned concert. Only one dear girl friend of Mrs. Fehl, she said, didn't approve of the joke; she thought it a little too "catty."

RECOVERY FROM GRIP

The form of influenza popularly called grip lasts but a short time, is seldom fatal, but causes suffering and misery out of all proportion to its importance.

The reason is this: When the acute stage of the grip is passed there often remains a neurasthenia that persists for months if not properly corrected. The patient is moody, in poor spirits, suffers lack of appetite and vigor and feels indisposed to work or even to enjoy life. Warmth and quiet alone give comfort and these not for long at a time. Sleep is restless and does not refresh the nerves, which are always at high tension.

The best way to correct this after-effect of the grip is to build up the blood, and there is no better blood builder than Dr. Williams' Pink Pills. As soon as the revitalized blood courses through the system you are aware of its soothing influence. Gradually the color returns to the pale cheeks, appetite and digestion improve and you are on the road to health.

The free book, "Building Up the Blood," contains a chapter on the after-effects of the grip. Send now for a copy to the Dr. Williams Medicine Co., Schenectady, N. Y. You can get Dr. Williams' Pink Pills at the nearest drug store or by mail on receipt of price, 50 cents per box; six boxes, \$2.50.
