What's Under Your Overcoat?

Are you as well dressed with it on as off? We've talked Overcoats so much lately that a word about suits may not be amiss, especially since our Suit Department offers fully as wide a Variety as it did three months ago.

No man is penalized for coming here late, for we keep our stocks right up to high-water marks through the entire season—something but few stores do.

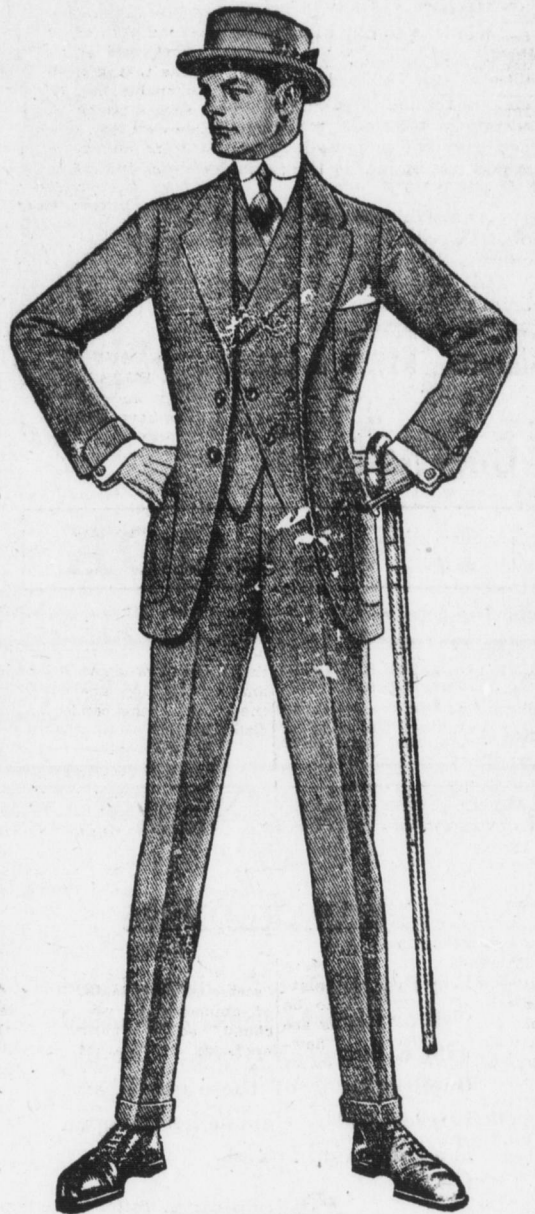

And besides variety, we offer you values that are becoming increasingly hard for other stores to approximate for the following reason:

Since our orders were placed, woollens have gone up like war stocks and the fabrics in our suits cannot be duplicated at anything like the price we paid.

But as we bought them, so we sell them, and he is indeed a wise man who gets a new suit of clothes here now.

Kuppenheimer Suits

There—are—none—better—anywhere

COPYRIGHT 1915 THE HOUSE OF KUPPENHEIMER

HEARINGS FIXED IN THREE CITIES

Public Service Commission Will Have Busy Week Ahead After Monday

The Public Service Commission will have hearings in three cities next week, three of the most important cases on its calendar being listed. The hearings in the Philadelphia Electric case will be continued in Philadelphia, and at Pittsburgh the inquiry into complaints against telephone rates in the Pittsburgh district, brought by the city of Pittsburgh and the Pittsburgh Chamber of Commerce, will begin. In this city argument will be heard in the industrial railways case, involving switching charges in a number of the big steel plants.

In addition the commission has over forty municipal contracts and similar applications to hear at the Capitol on Wednesday and Thursday. It is likely that a date will be fixed in the near future for hearing

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.

the additional full crew complaints. First Conference.—The first of the conferences of the field forces of the State Department of Agriculture was held to-day by Secretary Charles E. Patton with the nineteen agents and six chemists of the State Dairy and Food division. The conference was for discussion of cold storage and other conditions in the State and the agents were directed by Secretary Patton and Commissioner Pount to enforce the provisions of the law regarding time limit on cold storage food, especially eggs. The situation in regard to various activities of the division was discussed and work outlined for the new year.

Grundy Incorporates.—The Grundy interests at Bristol, which include the big fabric plant, have been incorporated as the W. H. Grundy Co., with \$1,500,000 capital. Joseph R. Grundy, president of the Pennsylvania Manufacturers' Association, is the president and chief stockholder.

Nineteen Companies.—The Governor yesterday approved charters for nineteen electric companies to operate in Butler county with offices in Pittsburgh. They have capital of \$5,000 each. Time Has Expired.—The time for filing expense accounts for the recent election has expired, according to officials at the State Department.

Two Justices.—James M. Bossert was last night appointed justice for Forward township, Allegheny county, and Howard E. McCleary for Versailles borough.

Appointed Stenographer.—Miss Anna Cubison, lately connected with the city park commission, has been appointed to a stenographic position in the Department of Labor and Industry. She was formerly connected with the State government.

Local Charter.—The Charles E. Bard Company was chartered to make player-pianos at Paxtang. The capital is \$5,000 and Charles E. Bard is president. After Deer.—Auditor General Powell spent a couple of days this week hunting deer on the South Mountain. Hearing Likely.—It is probable that there will be a hearing held by the Public Service Commission on the complaint from Roversford regarding the 100-trip tickets to Philadelphia. It is an old matter and will be threshed out finally.

tending the National Guard convention at Allentown. Governor Brumbaugh and Adjutant General Stewart, who have been ill, will be unable to attend.

Governor Has Cold.—Governor Martin G. Brumbaugh is suffering from a severe cold and has decided to remain in doors for a few days, cancelling all of his engagements until next week. He will not attend the ceremonies incident to the dedication of the new armory at Allentown.

Plans Authorized.—The State Armory Board has authorized the making of plans for the new State armory at West Chester. The plan is to ask bids early in the new year. State Holds Itself Up.—The State Water Supply Commission has held up the State of Pennsylvania. The State owns lands in the Cumberland Valley on which it has some ice dams. Recently some changes were discussed and the commission held the matter over just as it holds over other applications. The proposed Reading Railway bridge at Sunbury will be studied before a permit is issued.

Smallpox Controlled.—According to reports received at the State Department of Health, the outbreak of smallpox in three counties of the State appears to have been checked. Strin-

gent regulations for control have been adopted. West Fairview Quarantined.—Wanderings of a mad dog have caused the State Livestock Sanitary Board to place a portion of Cumberland county along the Susquehanna under surveillance. In West Fairview and part of Enola dogs have been ordered penned up.

A Smooth, Hairless Skin For Every Woman

(The Modern Beauty.) With the aid of a plain delatone paste it is an easy matter to rid the skin of unsightly hairy growths. The paste is made by mixing some water with powdered delatone. This is applied to the hairs not wanted and after 2 or 3 minutes rubbed off and the skin washed, when every trace of hair will have vanished. When you go to your druggist for delatone, be sure you get the genuine article.—Advertisement.
