## Worthy Clothes Have Taken the Lead With Young Men

It's mighty gratifying to open a new clothing store and have its merchandise gain by leaps and bounds the undisputed favor of young men, as Worthy Clothes have done in a few months.

Gratifying, because the young man is unusually particular about his clothing, when it comes to style quality and price.

Gratifying, because it proves the wisdom of our policy to show here at all times, the very newest ideas in fashionable clothing for men's wear.

As an example of this policy, we announce a new midseason model in overcoats that has been decreed for young men—

### The Chesterfield Double-Breasted

It is a form-fitting garment—a radical departure from the early season loose fitting coat, and comes in Meltons and Kerseys, in blues and grays (blues predominating). Shown here now at

**STYLE MAKERS MEET**  
By Associated Press  
Cleveland, Ohio, Dec. 3. — To-day's sessions of the National Cloak, Suit and Skirt Manufacturers' Association semi-annual convention, opened here this morning, were given over to reports of committees. To-morrow several hundred garments for Spring wear will be displayed before the delegates on living models. No discussion of coming styles occurred to-day; that feature being deferred until to-morrow.

**Patron's Day Observed in All County Schools**  
In all the Dauphin county schools this afternoon the rooms were adorned with cornstaks, sheaves of wheat, yellow ears of corn, pumpkins, grapes, other fruits and grains; proud, if rather bashful, students sang songs and recited "pieces" and so on. For this was "patrons' day."

**BELGIAN MINISTER OF FINANCE ARRIVES HERE**

## November Freight Traffic Shows Further Increase

Official figures from all over the Pennsylvania Railroad system, made public yesterday, show a continuation of heavy freight traffic. November car movement was less than during October, but an increase over that of 1914. The total movement of cars as noted at eight observation points was \$31,566, an increase of 184.154. The daily average movement was 27,752, an increase of 6,159 cars, or 23.1 per cent. The daily average movement in the first week showed an increase over the corresponding period of last year of 23.1 per cent; second week an increase of 33.8 per cent; third week an increase of 29.9 per cent, and the final period, 27.3 per cent, showing that the increases were consistent throughout the month. The increase in freight movement coupled with the fact that the shop cars are at the lowest point this year, showing that a maximum number are now in use, foreshadow another month of large earnings.

### WHAT IS STYLE?

Nobody has ever defined it in so many words.

To most women it means the wearing of apparel that gives them a sense of well-being and content.

We refer you to any La France wearer as to whether she feels that way.
