The city school board will reorganize for the new year at 4 o'clock Monday afternoon when A. Carson Stamm, one of the new year at 4 o'clock Monday afternoon when A. Carson Stamm, one of the new year president to succeed President Harry A. Boyer. The board postponed the session from the original hour, 2:30, in order to attend the fumeral of Captain Henry A. Swartz, the attendance officer. The present members last evening while two of the retiring members said good-by. Mr. Stamm and Robert A. Enders were guests, George W. Ken-nedy, in an impressive little talk, gave the board farewell. Mr. Kennedy has been an ardent advocate of the 'safety first' idea in the schools and through-out practically all of the ten years of his service as director he has urged fire drills and similar precautions for the youngaters. President Harry A. Boyer briefly thanked the fellow mem-bers for their support and co-opera-tion. At the suggestion of Dr. F. E.

hers for their support and co-opera-tion. At the suggestion of Dr. F. E. Downes, city superintendent, the board ordered the printing of several hun-dred information blanks bearing on the continuation school regulation of the new child labor law. These will be sent to employers of youngsters with a view to obtaining a census and learning how the law can best be ap-plied.

plied. A request by Samuel R. Boyer, foreman in the Harrisburg Boller and Manufacturing company to organize a class of youngsters in applied me-chanics was referred to the teachers' committee. Mr. Boyer asked per-mission to use a room in the Tech-nical High school for four nights each week.

balances in the various funds totaling \$362,331.29. The city school board, literally speaking, isn't so very favorable to this peace at any price stuff. The board went on record effectively to that effect last evening at the final session of the directors for the present year when it authorized Secretary D. D. Hammelbaugh to be sure about the size of the check, the disprict is to get from the Peace Society when Ex-President William Howard Taft lec-tures in Technical High auditorium December 30. The last lecture in question was de-livered by William Jennings Bryan. The board's price for the rental of the hall is twenty-five dollars but inad-vertently the treasurer of the Peace Society was under the impression that old rental figures still held. Anyway, he sent his check for seven and a half.

Latest Unics Issuce Advice upon how to attain success is frequently given, and the formulas are as numerous and varied as the dif-ferent goals for which the ambitious are striving. But the essence of how to attain success, regardless of voca-tion, is concretely set forth in a new calendar being given out by W. S. Essick, the Actua insurance man. "Aspiration, Application, Perspira-tion" are the three words that spell success in any field of endeavor, ac-ecording to Mr. Essick. The new calen-dar is among the first of the coming new year and appropriate as an in-spiring suggestion for any home or of-fice where there are ambitious ones who may benefit by a frequent re-minder of what is essential to achieve the success hoped for.—Advertise-ment.

a Serbian. British in Retreat Teutonic troops engaging scattering Serbian detachments continue to round up stragglers: Berlin to-day reports the capture of more than 2,000 addi-tional prisoners in mountain fighting. A British official statement to-day states that the British army in Meso-potamia is in retreat down the Tigris to Kut-El Amar, about 105 miles south of Bagdad. The British are reported to have lost more than 4,500 men. The Turkish war office two days ago announced a severe defeat for the British Mesopotamian army, which at one time was within twelve miles of Bagdad. Apparently the Turks have been heavily reinforced and able to put a stop, for the time being, at least, to the advance of the British forces on the historic city.
