

The Money-Back Jewelry Store

THE POPULAR GIFTS

¶ The day of the gaudy gift has waned. This is the age of sensible gift-giving—the gift that not only possesses refinement, but affords to the recipient lasting pleasure in every day utility.

¶ And this popularity of the practical gift was one of the things that was kept uppermost in mind in selecting our stocks. Then, too, we remembered that there is more than one gift to buy, necessitating modest pricing, and last, but not least, that each article in our stock must stand the test of our Unrestricted Money-Back Guarantee.

¶ And of those things that conformed to these specifications we bought generously, with the result that this Christmas season we are able to present to you the most extensive and meritorious selection of practical gift articles in the forty-eight years' history of this store.

For Her—and HER Means

wife, or mother, or sister, or wife-to-be, we suggest something from our unusually large line of toilet goods, which are to be had in sets of almost any size, neatly cased.

COMMISSIONS ARE HELD UP

Many Justices of the Peace File Requests and Will Be Supplied by State

Dozens of justices of the peace who were expecting to take office yesterday failed to do so because they did not have commissions bearing the State seal and the signature of the Governor. It was because either the squires had not sent their acceptances of the election on November 2 in time or else the prothonotaries of their counties had not forwarded them to the State Capitol in time for commissions to be issued. Under the law every magistrate must file an acceptance of election within thirty days.

Many of the justices failed to send notice and yesterday and to-day the mail of the department of the Secretary of the Commonwealth has been filled with requests for commissions to be sent, while some have gone to the expense of telephoning and telegraphing. Several counties only filed their lists yesterday and wanted the commissions right away. As there are about 2,500 justices involved, and each man has to be looked up on the records and the terms verified, the clerks had to work overtime to get the parchment ready for the Governor to sign.

Want Demonstrations.—State Zoologist H. A. Surface, who announced a day or so ago that the orchard demonstrations would end the third week this month, has been receiving numerous requests that he continue them and there have also been a number of offers of orchards for special demonstrations if he will send the men. The orchard demonstration places were changed in many counties this year and people in other localities are asking for visits by the State inspectors. Owing to the condition of the funds, it will be necessary to adhere to the original schedule.

Attorney General.—J. L. Kendeheart, of the State Department, and Mrs. Kendeheart are in Gettysburg attending the funeral of Mr. Kendeheart's nephew, George B. Kendeheart, who died at his home in Gettysburg Sunday morning after a brief illness from pneumonia. Young Mr. Kendeheart was a member of the senior class at Gettysburg College. He was 21 years old.

Visited Washington.—Deputy Attorney General J. L. Kun was in Washington yesterday and was admitted to office in the United States Supreme court.

Board of Accounts.—The State Board of Accounts is scheduled for a meeting to-morrow.

In Chicago.—Highway Commissioner Cunningham and Chief Engineer W. D. Uhler are in Chicago attending the big road congress.

Trade Gets Notice.—Secretary of Agriculture Charles E. Patton has issued a letter to the paint trade giving notice of the paint and putty inspection provided by the last Legislature. The inspection will begin at once.

Many Want Examinations.—The State Vocational Bureau is getting many letters asking about the examinations for teachers for continuation schools, which will be held in six cities of the State on Saturday.

Inspected Mont Alto.—Harry S. McDevitt, counsel of the Economy and Efficiency Commission, is making an inspection of business methods at State Sanatoria. To-day he was at Mont Alto.

Appointments Made.—Governor Brumbaugh to-day appointed Clarence E. Kohler as register of wills of York county to succeed H. C. Kohn, who has deceased. He had been serving as deputy.

The Governor also reappointed ex-Attorney General Hampton L. Carson, Philadelphia, and ex-Auditor General A. E. Sisson, Erie, as members of the State Historical Commission.

Final Argument.—The Public Service Commission to-day heard the final argument in the industrial railway case in which the trunk line railroads and most of the State's steel companies figure. The testimony has been taken in the last year and a half. The arguments were made to-day chiefly by George Stuart Patterson for the Pennsylvania railroad, and C. S. Belsterling for the constituent companies of the United States Steel corporation.

Ruling on Schooling.—Attorney General Brown to-day gave a decision on a question of hours of employment of minors raised in the Department of Labor and Industry under the new child labor law. It was held that minors could be employed one week and go to school another week so long as they were given the hours of schooling required in the child labor law.

Birth Rate Away Up.—Pennsylvania's birth rate during September was twice the death rate, the number of births being 18,821 and of deaths 9,250. There was a marked decline in the number of deaths from tuberculosis, the total being 742. Intestinal trouble of children under two years caused most of the deaths, being responsible for 1,524. There were 76 suicides, 86 killed in mines and 117 killed by railway injuries. Bright's disease caused 860 deaths, and cancer 525.

After Bad Food.—Agents of the State Dairy and Food Commission to-day rounded up sellers of bad chestnuts in Philadelphia, causing half a dozen arrests. Arrests were also made in McKeesport, Luzerne and Schuylkill counties for violation of food laws.

Tags Break Records.—Issuance of automobile licenses for 1915 will break all previous records. Tags for this year will be issued until the end of the month, but it is not expected that there will be many more. The total licenses of various kinds by the State highway department to date run as follows: Pneumatic tired machines, 152,805; trucks, 8,367; traction engines, 2,198; trailers, 188; motor cycles, 17,245; paid drivers, 26,707; unpaid drivers, 45,329. The legislative session here.—Representative T. J. Ferguson, of Hogestown, was at the Capitol.

Hill Visitors.—Ex-Judge W. E. Rice, Warren and P. Newman, railroad executive of Williamsport, were at the auditor general's department.

Asserts Greece Is Simply Playing Allies For Time

By Associated Press
Paris, Dec. 7, 4:55 a. m.—The Athens correspondent of the Matin in a dispatch relative to the attitude of Greece toward the entente powers says: "The government is simply playing for time, hoping that the entente allies will be forced to the sea by the Austro-Germans and Bulgars. It will be found in a week or so that the agreement between the Greek and the allied staffs cannot be reached and that the government will declare that notwithstanding Greece's traditional good will towards the entente powers, it cannot accede to their demands." The correspondent affirms that the only effective course is to apply a blockade to Greece.

IDEAL STORE FOR MEN'S GIFTS

The happy Christmas time will soon be with us again and the question of what to give "Him" for Christmas must be answered soon. The logical and practical thing to do is to visit the store where the majority of men and boys buy their clothing and furnishings. You will not only save time and money, but you will be assured of your gifts being appreciated. Most men prefer useful gifts.

There is a certain satisfaction in shopping in a modern Daylight store such as this is, filled to overflowing with the best merchandise that money can buy.

There's another advantage in buying men's and boys' Christmas gifts in this "Live Store" because of our guarantee of satisfaction or goods exchanged or money cheerfully refunded, that means that you have the privilege of exchanging gifts, either before or after Christmas. You run no risks, even though you make a mistake in selecting something "He" does not want.

Our big force of courteous, intelligent salesmen are at your service in this efficient organization ready to show you clothing and furnishings, or to make helpful suggestions, whether you are ready to buy or not.

Think over these items—but there are many others in this "Live Store" that are equally as attractive—

304 Market St. Harrisburg Pa.

STAMM IS CHOSEN ON FIRST BALLOT

Former Member of Public Works Board Heads School Directorate

A Carson Stamm, well-known attorney, former member of the board of public works, and one of the public-spirited citizens who has always been in the forefront in movements for the betterment of Harrisburg, yesterday afternoon was elected president of the school board on the first ballot.

The vote, on the next ballot, was made unanimous.

Mr. Stamm was chosen by a vote of 5 to 3, Directors Boyer, Bretz, Enders, Boll and Keene casting their votes for their newly-elected fellow-director. President Stamm and Directors Werner and Yates voted for Adam D. Houtz, who was a candidate for the presidency a year ago. Mr. Houtz cast a "complimentary" vote for Dr. Yates, who had placed his name in nomination.

Vice-president Harry M. Bretz was re-elected by a vote of 6 to 3.

Kennedy Nominates Officer.—The attendance department will be reorganized by a committee of five, who will be appointed for the purpose. The change is made possible by the death of Captain Harry Swartz. The reorganization scheme, it is understood, will provide for the appointing of one of the clerks to the Board, very likely Austin Miller, as chief attendance officer. He will bring prosecutions, etc., practically the same work as he now does, although at present he is without the board's direct authority to act. An assistant who will fill practically the same position as Mr. Swartz will be chosen. This may be ex-Director George W. Kennedy. The position pays \$70 a month. Mr. Miller, it is understood, will receive no extra compensation.

President Stamm's inaugural was brief. In extending his thanks to his

A. CARSON STAMM

fellow-directors for the honor they had conferred upon him, Mr. Stamm asked their co-operation and help. "Every organization requires a titular head, an executive to execute the behests of the body. Aside from serving in this capacity the position to which you have chosen me is no more responsible than that of any other member of the board."

GERMANS TO AID IN MESOPOTAMIA

(Continued from Page One.)

Macedonian front. Dispatches from Athens partially corroborate this theory, as it is reported two German divisions are co-operating with the Bulgarians near Strumitsa.

Expect Attack On Persian Gulf

German participation on a large scale in the Mesopotamian campaign is probable, according to reports reaching Switzerland. The naming of Field Marshal von der Goltz as commander of the Turkish forces in Mesopotamia is commented upon in this connection. In some quarters it is surmised that German efforts against the British in the East may be directed toward the Persian Gulf rather than the Suez canal, as has been hinted.

Shoot 300 Mutineers?

An unconfirmed report that a Bulgarian infantry regiment mutinied when ordered to fight with the Turks has reached London through Amsterdam. Three hundred of the mutineers are said to have been shot.

According to reports through Holland, the German lines in France and Belgium have been heavily reinforced within the past fortnight.

Bulgars Force French to Withdraw Lines; Germans Take 1,500 Serb Prisoners

By Associated Press

London, Dec. 7.—Bulgarian military moves, with the possible co-operation of Teutonic troops, have forced the French back in Southern Serbia. Berlin to-day reports withdrawal of the French lines in the Vardar-Cerna salient because of a threatened envelopment of the French positions.

In Montenegro the invading Teutonic columns have reached the city of Ipek, about fifteen miles beyond the Serbian border. Rounding up of Serbian detachments continues, the taking of 1,250 additional prisoners being announced.

Constantinople advices relayed by wireless telegraph from Berlin declare the status of the allied forces on the Gallipoli peninsula is daily growing worse, the troops suffering from lack of water and from interference with provisioning operations, caused by the stormy winter weather.

A PLATE without a roof, which does not interfere with taste or speech. Light, strong, durable and beautiful.

FIRE AT LEMOYNE IMPERILS PAIR

Mr. and Mrs. Milton Eichelberger, who live in one side of a double house along the State road in North Lemoyne, had a narrow escape from suffocation this morning when fire broke out in their home. Ray Berkheimer, his wife and four children, living in the next house, were awakened by the smell of smoke and, pounding on the wall, succeeded in awakening the Eichelbergers. The fire was started in a defective flue in the Eichelberger home and for a time burned fiercely between two joists straight across the house in the Berkheimer home. Mr. Eichelberger said to-day that he had a wood fire in the stove. He believes the chimney became overheated and caused the joists to catch fire. Considerable damage was done to the interior walls on the first and second floors of the Eichelberger home and the flooring

was burned through at several places. Some of the furniture was damaged almost overcome. The losses on both sides are covered by insurance. The Washington chemical company of this city, was called and with the aid of a bucket brigade soon had the fire extinguished.
