## GOOD PRICES FOR TOBACCO CROP

Lancaster County Growers Have Already Sold Two-Thirds of Year's Product

Special to The Telegraph  
Marietta, Pa., Dec. 8.—Lancaster county's tobacco crop is being bought up fast and it is estimated that two-thirds of the crop has already been purchased. The prices paid early was 10 cents a pound for leaf, and 3 cents a pound for filler, more than was realized last season. In many instances the weight is not as heavy this year, it averaging 1,200 pounds to the acre, while last year the weight was about 1,500 pounds to the acre. A number of sales were made to-day by East Donegal farmers, and they re-

## A Druggist's Favorite Kidney Remedy Fixed Him

Fifteen years ago I had an attack of acute kidney trouble. I consulted a physician, who gave me medicine which only relieved me for a time. After discontinuing his medicine my trouble returned as severe as before. Having heard of Swamp-Root, I gave it a trial, and can honestly state that three dollar bottles cured me, never having any sickness in fifteen years. I have sold Dr. Kilmer's Swamp-Root as a druggist for many years and can give it the very best of recommendations at all times. You are at liberty to use this statement any time you wish.

**SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD**

Look, Mother! Is tongue coated, breath hot and stomach sour?  
Harmless "fruit laxative" best to clean tender liver and bowels.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently move out of the bowels and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered. When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it cannot cause injury. No difference in the little one—if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should al- ways be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs." They look carefully and see that it is made by the "California Fig Syrup Com- pany." We make no smaller size. Have back with content any other fig syrup.—Advertisement.

**STOMACH UPSET?**

Get at the Real Cause—Take Dr. Edwards' Olive Tablets.

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are per- forming their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested food, you should take Olive Tablets, the sub- stitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 50c per box. All druggists. The Olive Tablet Company, Colum- bus, O.

### MANNING URGES NEW WEST SHORE SUBWAY

(Continued from Page One.)

Mr. Manning says that with the enlargement of the new subway and the opening of it as a public high- way the possibility of a new road be- tween the two towns. And this is just what Mr. Manning hopes to see ac- complished. Speaking of the subway, Mr. Manning says: "It is fortunate that there now exists a substantial culvert under the tracks, although, of course, it is not adequate to meet the requirements of the future, and what- ever takings are made here should be made ample wide to meet these re- quirements."

Mr. Manning's Plans  
Mr. Manning already has drawn plans for the treatment of much of the West Shore territory and on a map which he drew several days ago he has noted the proposed highway between Wormleysburg and Camp Hill. The road would be a continuation of State street, Harrisburg, via a new river bridge which he hopes to see con- structed as a part of the State's plan of development.

The Boston expert also talks of the urgent need of conferences between railroad authorities and persons in charge of the improvement of certain territory.

Mr. Manning's Letter  
In a letter received by The Telegraph, Mr. Manning says:  
"If you will examine the topographic plans which you will find in the office of the City Planning Commission, you will find that the proposed road which runs opposite State street is a valley leading from Wormleysburg to Camp Hill, which in the future should be the main great thoroughfare from Harrisburg to the west because it is the time will come when the bridge which I recommended in my address at the State House will be established to continue State street, because it will be more central to the city of the future than any of the other bridge lo- cations because it comes opposite the most important thoroughfare of the city and will have the State Capitol building on its axis."  
"If you will observe when you study this map, the network of railroad tracks and yards at the westerly end of the city, you will see that if you will take the trouble to take a trolley ride and see how steep and narrow this main thoroughfare now is, and how difficult it is going to be to broaden it adequately, you will recognize the need of the wide thoroughfare in the Wormleysburg valley to which I have referred. This is of some importance in the whole best side improvement project, and you should see to it that everyone comes to recognize this."  
"Relation to State Plan  
"While the local aspect is important, it is, after all, less important than its relation to the State plan, because it will be the great thoroughfare lead- ing to the west from Harrisburg, the Capitol City."

Urges Conference  
"There is one matter that I feel should be given the immediate atten- tion by the boards that are acting to- gether in the interest of the city and State, and that is, the relations of the Pennsylvania Railroad to all these crossings. They have closed that por- tion of the bank road going north from Harrisburg, together with one or two crossings. They have closed that por- tion of the Riverside road on the westerly shore near Shiplet's Island for a distance up shore. They have closed much of the westerly shore road south of the Market street west bridge and to New Cumberland. It is inevitable, therefore, that in trans- portation facilities which they must have, that some roads must be closed, and it is exceedingly desirable that all grade crossings should be elimi- nated. There ought to be a confer- ence between the railroad officials in authority concerning the future plan of the region about Harrisburg in order that main thoroughfares and un- der-passes or over-passes may be pro- vided for at frequent enough inter- vals to meet the city's future devel- opment. The under-pass at Wormleys- burg already referred to, is one of these essential separations which must be made, and it is fortunate that there now exists a substantial culvert under the track, although, of course, it is not sufficient to meet the requirements of the future and whatever takings are made here should be made ample wide to meet these requirements."

**PROPOSED ROADS BACK OF WORMLEYSBURG SUBWAY**

The above etching shows an improvement which residents of Wormleysburg and the other West Shore towns hope to see accomplished soon. The photograph was taken from a point just back of the subway at Walnut street, Wormleysburg, and the roads with the dotted lines are those which citizens hope to see built at some time in the future. The road without a dotted line is now in existence and runs to the McCormick farm. It is a private thoroughfare. The dotted road on the left is the one proposed to take the place of the grade crossing at Ferry street which leads to the Keister and Brinton farms. Residents of Wormleysburg are willing to have the grade crossing closed, but they want a road at the place indicated on the left in exchange. The dotted road to the right is the one which Warren H. Manning has proposed in his plans for the development of the territory on the West Shore and also the road which residents of Wormleysburg and Camp Hill are anxious to see constructed so that the two towns may be joined. The ravine runs almost direct to Camp Hill.

"... It will not be many years before the whole territory up to the Rockville bridge will be required. The growth will then be either east of the Pennsylvania Railroad and the Wildwood park, or it will be west of the river."

Would Secure Shore Drive  
"If the people to the west of the river realize their opportunities, they will see that their shore drive is secured as it has been on the east side of the river, and that adequate connection is made from Harrisburg across the river to the very beauti- ful country along and between the Yellow Breeches and the Conodog- uinet creeks, and to the mountain range of which a longer stretch comes near Harrisburg and Camp Hill. The proposed highway between Harrisburg and Camp Hill should be on the easterly side of the river. It must be kept in mind that this mountain range will be the summer home of many Harrisburg peo- ple when it becomes accessible enough to make the beauty of the scenery and its advantages known. It should also be borne in mind that the Conodog- uinet creek offers an opportunity for canoeing and boating when the old dam is replaced on this creek or a new dam built nearer the river; an op- portunity for canoeing many miles in this winding picturesque channel."

Myton Boosts Subway  
J. Clyde Myton, expressing the senti- ment of 500 members of the Motor Club of Harrisburg, is greatly inter- ested in the proposed highway be- tween Wormleysburg and Camp Hill and says his organization will heartily endorse and co-operate in any move- ment of the West Shore "boosters."

Mr. Myton points out, too, that the proposed highway through the old town private subway at Walnut street, Wormleysburg, would greatly relieve traffic congestion at the west end of the Market street bridge. The motor club secretary in talking of the "cross-river movement" said:  
"You ask if the Motor Club of Har- risburg is interested in the contem- plated improvement across the river? should say vitally so, for the reason that any concerted movement made by the people on the west side of the river will, among other things, bring about better road conditions. Our orga- nization, composed of 500 members,

more of them residing in Cumberland county than in any other section out- side of this city, would heartily en- dorse and co-operate with any im- provement organization that may be formed by the West Side "boosters."

"Of course we are interested in the laying out of a new thoroughfare to connect Wormleysburg and Camp Hill, which would greatly relieve traffic conditions at the west end of the bridges and at the same time shorten the distance between the two boroughs for our members and other motorists who live in West Fairview and Marysville."

"Road conditions, of all other things, should enter into this improve- ment organization, as the west side of the river is the beginning and end of the State highway between Harrisburg and Pittsburgh. It is a main feeder to the famous Lincoln Highway both at Gettysburg and Chambersburg. It hurts one's pride in civic affairs to

hear tourists who come from the West say that the worst stretch of road in 200 miles is within three miles of Har- risburg."

**OLD-TIME COLD CURE—DRINK TEA!**

Get a small package of Hamburg Breast Tea, or, as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, reliev- ing congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vege- table, therefore harmless.—Adv.

### Do You Dread the Cold?

Some people enjoy cold weather, take pleasure in winter sports and the keen air calls the pink to their cheeks and the red to their lips. Others shrink from cold and turn blue at the least exposure to frosty air.

The difference is in the blood. Rich, red blood warms the body. Every long breath of pure cold air increases the oxygen it carries to every part of the system. Thin blood is unable to take up the life-sustaining oxygen. The body lacks nourishment and the sufferer is always cold, takes a chill easily and is miserable all winter.

Thin blood is largely the sufferer's own fault. It results from neglect, because the blood can be built up. Dr. Williams' Pink Pills supply the elements that the blood needs to make it rich and red and to enable it to carry more oxygen. Building up the best portion of the blood is simple, but because thin blood does not call attention to itself it is often neglected. Have you seriously considered taking a course of treatment with these blood-making pills? If you are in doubt write for information.

Your own druggist sells Dr. Williams' Pink Pills and the Dr. Williams' Medical Co., Schenectady, N. Y., will send you booklet "Building Up the Blood" free on request.—Ad- vertisement.
