S. P. C. A. Notes

The activities of the S. P. C. A. are not spectacular but they are none the ess sure. A man who employs many drivers and horses said recently: enefit of the Harrisburg S. P. C. A. daily in the care my men take of their horses. One of them, an impatient, hot-headed Irishman, whose freedom with the whip had always given u with the whip had always given us trouble, has noticeably improved. When asked the reason he repiled: It goes agin me to lambaste a horse since that agent of the S. P. C. A. told me when I had the toothache. that a horse feels pain just like that each time I bate him. An' says he, go on givin' your poor beast pain like that an' I'll pain ye with a fine!' Another of my men tells me the agent, O'Donnel, is always on hand when they are making a heavy haul and gives them many pointers on easing the load for the horses."

President Wilson has been flooded with petitions against the shipping of war horses to Europe. In answer to a letter from Dr. William C. Stillman, president of the American Humane Association, a note was received from Secretary Adee stating "the President is without authority to place an embarso on the commercial shipment of horses to the belligerent nations, the regulation of commerce with foreign nations being one of the powers conferred upon Congress by the constitution."

a golden-brown plug taste so deliciously good that it puts new snap into you. American Navy plug is the distinctive chew. It gives you the same type of leaf as the best "scrap," but it gives you whole leaf instead of "cuttings," and it's hard-pressed instead of loose-packed. That means more sweet, mellow flavor and more genuine tobacco satisfaction.

The leaf for American Navy is more carefully selected and the plugs are more carefully made than is the case with many higher-priced tobaccos.

Fill Jury Wheel To-day. — The names of 900 of Dauphin county's good men and true were tucked into the jury wheel to-day by President Judge Kunkel and Jury Commissioners Edward Dapp and Samuel M. Taylor. Each put in 300, and the same districting system as inaugurated by Commissioner Dapp a couple of years ago, was followed out again. From the wheel 152 of the 900 names which hadn't been drawn during the year, were taken out and destroyed. The first drawing of the panels for January courts will likely be made to-morrow. Because of a conflict of dates it has been necessary to postpone the meeting of the Alricks Association scheduled for Friday night of this week at St. Andrew's Parish House, Nineteenth and Market streets. Cards will be sent to the members to-night notifying them that the meeting will be held Friday night of next week at the same place. The speaker will be Benjamin F. Umberger, secretary of the City Planning Commission, who had been engaged for this week.

DYSPEPTICS! END

Harry R. Mercer, the forger, who with one Fred Le-Brun, agitated police and banking circles so thoroughly a year ago, will appeal to the Board of Pardons, sitting in this city Wednesday, December 15, for release from the eastern penitentiary. Mercer and Le-Brun attempted to obtain big sums of money by representing themselves as promoters of a Wellburgar New Server were able to creep in and to the Associated Press)—The much criticized British view of war as a sort of exalted game or sport is emissived in a British officer's description of the bombardment of Dedeavistics with such phases as "It was a grand picnic for the men." "The ships' companies enjoyed themselves immensely." "The harbor-master's office burned splendidly," "The destroyers were able to creep in and London, Dec. 8 .- (Correspondence

"After a bit we went for the harbor—very trick work, as the bulk of
the caiques which we had orders to
the shoot at were just beyond a low outer
breakwater, and with a trajectory
from the ship, the least alteration in
the elevation of the guns made a big
difference. The difficulty was largely
settled when our shells set the masts
and sails afire and the flames spreading downward to the ships.

"The destroyers and monitors drew
much less water than our larger ships
and were able to creep in on the lead,
the charts of Dedengatch being inaccurate, and they plugged all manner of things. Fortunately the population of the town had all gone away,
and the troops stayed behind up in the
hills, so I don't think anyone was
hurt. We killed a sitting engine which
tried to hide itself behind a bush,
but one which ran away escaped all
right. Two of the destroyers inspiredit to still greater efforts with their
four-inch guns.

STOMACH MISERY,

GAS, INDIGESTION

The propers of the City but lyddite was better. We burned a vast mountain of coal, many railway vans and trucks, ships, and two oll storehouses. "But the best blazes were warehouses being the high the caique harbor and an immense factory stuffed with highly inflammable goods. It was six stories high, ten windows square, and had two annexes, each of four stories. With a roaring wind to help us, and two fire brigade to spoil the fun, it was a most gorgeous flare-up, and the flames were bright enough to cast a shadow six miles away.

"The railway cars burned merrily, the fire jumping along from one to windward, and the storehouses burned solidly and well, section after section catching. They had great glass skylights, which were shattered by the shells and ventilated the fire nicely.

Think of buying a splendid, durable Carpet Sweeper at such a ridiculously low price. The Economy Sweeper is made of wood, light in weight, but very strong—a sanitary sweeper which harbors no germs. Economy Sweepers are handsome, having beautiful mahogany finish and nickel trimmings.

It's a mighty good sweeper—better than the old-fashloned kind—sanitary, light weight, easy-running and hand-somely finished and equipped with best quality bristle brush. The big Economy factory could not have furnished them so cheaply except for the fact that the output is several thousand per day, thus bringing the cost of production way down.

This sweeper is made by the famous makers of SWEEPER-VAC Sweepers
