STEELTON MIDDLE TOWN & HIGHSPIRE ROYALTON OBERLIN ENHAUT

TOWNS MAY GET STEELTON WATER

Boroughs Near Steelton Fighting Increased Rates of Swatara Consolidated

Another step toward the ultimate plan of having the borough of Highspire and the villages of Oberlin, Enhaut and Bressler receive their water supply from the borough of Steelton was taken last evening when the protest committee of Highspire water consumers made their report to a mass meeting in the Highspire High school.

This committee which was appointed to lead a fight against the threatened increase in water rates by the Swatara Consolidated Water Company, which now supplies Highspire, reported that there was no contract binding the borough to get its supply from this company.

Since it has been shown that the erection of a municipal water works for a borough so small as Highspire does not warrant the expense it is believed by many that a supply will be obtained from Steelton where ample provisions have already been made for just such a demand.

At another meeting of the committee Thursday evening, December 16, further plans will be discussed.

Organize Chorus This Evening to Sing Carols

The first steps toward organizing the big chorus which will sing Christmas carols on Christmas Eve, as part of Steelton's big community Christmas tree celebration, will be taken this evening at a meeting in the high school rooms.

Monster Warnock Engine Is Undergoing Tests

Hagerstown, Md., Dec. 8.—The Miller Steam engine, said to be the largest of its kind built in this country, is being tested on the Western Maryland Railroad.

STOOD TO RELAY WOODEN PAVING

United States Wood Preserving Company to Put Street in Good Condition

Work on the relaying of the wood block paving in Front street, the biggest paving project in Steelton since the program carried out under the 1913 loan, was started this morning.

Under the direction of David E. Olds of Newark, N. J., a representative of the United States Wood Preserving Company, workmen to-day commenced to relay blocks between the tracks of the Harrisburg Railways Company, just below Trewick street.

By the terms of the guarantee given the borough when Front street was paved nine years ago the paving company agreed to keep the street in good condition for ten years.

Plan New Steel Merger With \$150,000,000 Capital

New York, Dec. 8.—It was learned last evening that plans are under way for the merging of three large independent steel companies.

Myers, Union and Frank Shenfeld, Rescue.

MIDDLETOWN

Center Square has been selected as the site for Middletown's municipal Christmas tree. Arrangements are now being made for an elaborate celebration.

SQUARE DEAL TO BE STATE'S RULE

Chairman Mackey Outlines What He Wants the State's Referrees to Follow

Referrees in workmen's compensation who were appointed last week to take charge of districts commencing January 1 so that claims for compensation may be adjusted were told to-day to give both capital and labor a square deal by Harry A. Mackey, chairman of the board. The referees were here for their first meeting and attended meetings of the chiefs of the Department of Labor and Industry and the compensation board and its forces.

"You are picked men. His excellent selection of referees is a result of the most careful inquiry as to your fitness, character and your ability, have selected you from a great number of available men. A tremendous responsibility rests upon your shoulders. Social and economic conditions have given rise to a new thought in industrial accidents. Science and full development of that thought has created workmen's compensation acts. The great experiment is about to be tried in Pennsylvania. A great popular demand is to be met. The act is about to be tested. Governor Brumbaugh, keen to detect the yearnings of our people, has become responsible for the enactment of this legislation and is chargeable with its efficient administration.

Big Improvement in Milk Supply Shown by Tests

Only four of the many tests made by the City Health Department during November of the milk supply in the city, showed the milk to be of poor quality. Only two other tests made showed a low percentage of butter fat. Dr. J. M. J. Sander, health officer, said that the big improvement in the supply was due to the milk weather, and asserted that an excessive amount of rain kept the milk cool in summer, the tests would show the same purity and quality.

TRUSTEES TO GO TO TUSKEGEE

New York, Dec. 8.—Seth Low, chairman of the board of trustees of Tuskegee University, will leave for Tuskegee, Ga., where they will attend memorial services to Booker T. Washington, who died on November 14 last.

Memorial Services—May Choose B. T. Washington's Successor

At Philadelphia William M. Scott of that city will join the party and at Washington, Julius Rosenwald, president of the Dauphin county courts, went to Chicago and Edward Bancroft, probably board Mr. Trumbull's private car in which the trip will be made. President George W. Adams of the Board of Aldermen is expected to join the party at Tuskegee.

JUDGE KUNKEL AT PORT DEPOSIT

President Judge George Kunkel, of the Dauphin county courts, went to Port Deposit, Md., to-day to attend the funeral of President Hopkins, of Tome Institute. In his absence Additional Judge Kunkel will leave for Harrisburg. Commissioners Edward Dapp and Samuel M. Taylor fill the jury wheel.

YOUR BRONCHIAL TUBES

When a cold settles in the bronchial tubes, with that weakening, tickling cough, immediate treatment is very important. The breath seems shorter because of mucous obstructions; usually fever is present, your head jars with every cough and your chest may ache. This is no time for experimenting or delay—you must get Scott's Emulsion at once to drive out the cold which started the trouble, and it will check the cough by aiding the healing process of the enfeebled membranes.

STATE INSURANCE CAUSING A RUSH

Hundreds of Applicants a Day Filed at the State Fund Offices Lately

Applications for insurance in the State insurance fund are being made at the office of the State fund at the rate of from 300 to 400 a day and on one day this week ran up to 450. In addition there have been numerous inquiries made regarding the rates and how the risks will be classified.
