A RELIABLE REMEDY FOR SWOLLEN VEINS

For swollen veins and varicose hemorrhoids advanced physicians are prescribing a new treatment which is also being used in hospitals with remarkable success, and is so simple that people who desire to get rid of varicose veins can treat themselves at home. It is guaranteed.

of second secretary of legation, and only two men now in the diplomatic service of the country, have completed the same climb. They are John W. Garrett, of Baltimore, former ambassador to the Argentine Republic and Edwin V. Morgan, late minister to Portugal and now ambassador to Brazil.

Ambassador Fletcher will not be forty-two years old until next April. He attended Ziegler's Private School in Chambersburg when he was a youth, and later studied law in the office of D. Watson Rowe, of that town, and was admitted to the bar in 1894, becoming a member of the firm of Rowe and Fletcher. He was the official reporter of the Thirty-ninth Judicial District of Pennsylvania from 1891 to 1898.

When the Spanish war came he enlisted in the Rough Riders of Colonel Theodore Roosevelt. He saw service in Cuba and on being mustered out, joined the regular army as a second lieutenant serving in the Philippines from 1899 to 1901. He rose to the rank of battalion adjutant, and it was during this service that he gained a remarkable insight into the life and customs of the Filipinos, Mexicans, Chinese and Japanese.

His military career ended in 1901 and the next year he entered the ranks of diplomacy as second secretary of the American Legation to Cuba. In 1903 he was transferred to China and

served at Peking. In 1905 he was sent to Portugal as secretary of legation, and in 1907 he went back to China as first secretary of legation.

When Charles R. Crane, appointed minister to China by President Taft, was recalled before he could sail for his post, the Administration looked about for a man to take his place. They contemplated sending the ablest railway man they could get to take Mr. Crane's post. Shortly after, when they had read a few reports signed about for a man to take his place. They contemplated sending the ablest railway man they could get to take Mr. Crane's post.

So ably did he perform his duties that he remained in charge d'affaires from June 1, 1909, to April 2, 1910, when he went to the position which had come to him as reward—the Chilean post. It is from this that he will go to Mexico.

In Chile he is considered one of the best representatives that this government has ever sent there. He is a master linguist and a keen judge of human nature, and during his career in the diplomatic service has shown that in performing such duties he is a square peg in a square hole.

J. Rowe Fletcher, former sheriff of this county, is a brother of the next ambassador to Mexico. Henry P. Fletcher is widely known throughout the city and central Pennsylvania.

Big Zeppelin Fleet to Raid London, He Says

New York, Dec. 9.—"I believe there will be another Zeppelin attack on London within sixty days. When the raid does come it will be bigger than anything that has gone before and will be repeated night after night. The Germans will probably send at least ten Zeppelins. They are now gathering a fleet so large that they can afford to risk the loss of four or five in a raid."

This prediction was made yesterday by Thomas R. Macmechen, aeronautical engineer and president of the Aeronautical Society of America.

Albanian Tribesmen in Arms Against Serbs

Berlin, via London, Dec. 9.—The outstanding feature of the situation on the Serbian front as shown by information received here is that the Albanian tribesmen, particularly the rabidly Arnaouts, have risen against fragments of the Serbian forces which have succeeded in getting across the frontier into the Albanian mountains.

Germans to Invade India With Army of 500,000?

London, Dec. 9.—A dispatch to the Daily Telegraph from Rome says: "According to indirect news from Constantinople, Germany has abandoned her idea of an expedition against Egypt in favor of a great Turco-German expedition against India."

"The German project is to organize an army of 400,000 Turks with 100,000 Germans commanded by Field Marshal Von Der Goltz and an immense number of guns for an expedition in the Spring, which will be preceded by a large Turkish advance guard which already is in the march to Baghdad."

UNITED WORKMEN BANKRUPT

San Francisco, Dec. 9.—The California grand lodge of the Ancient Order of United Workmen, the oldest fraternal organization in the State, filed a petition in bankruptcy yesterday in the United States Circuit court. The liabilities, consisting chiefly of insurance claims, were given as \$327,827 and the assets \$5,486 of which \$252 was listed as cash.

Ex-Pres. Taft Emphasizes Importance of Defense

Chicago, Ill., Dec. 9.—Importance of the United States as a world power and the necessity for preparedness for defense were emphasized by William Howard Taft in an address to-day before the Chicago Association of Commerce.

"We are no longer an isolated continental nation, but a world's power," said Mr. Taft. "We have interests in the Philippines, Hawaii, Alaska, Panama, Cuba and Porto Rico and must be prepared to protect these interests against every possible emergency."

"The Monroe doctrine which has stood for ninety years is a movable policy and may be enforced by this country just as far as it may be deemed wise. If the South American republics join with us in enforcing this doctrine, all the better."

\$180,000,000 IN GOODS FROM NEW YORK IN NOVEMBER

New York, Dec. 9.—Exports from the port of New York during the month of November exceed \$180,000,000, the largest amount in the history of the port, according to estimates made to-day by customs house officials.

Cabinet Members Plan Close Co-operation in Neutrality Investigation

Washington, D. C., Dec. 9.—Cabinet officers whose departments are directly concerned in preventing violations of American neutrality laws were arranging to-day closer co-ordination of their efforts in ferreting out violators of such statutes.

The meeting was held at the suggestion of President Wilson to put into effect the views he expressed in his address to Congress on Tuesday that "the hand of our power" should at once close over and crush out "creatures of passion, disloyalty and anarchy" who seek to make the United States a hotbed of European passion.

Shows That Plotters Are Not Naturalized

New York, Dec. 9.—The German Herald prints this morning an enumeration of all the cases in which violation of this country's neutrality has been charged against German propagandists, quoting the names in each case, and specifying that only one of them is that of an American citizen of foreign birth. Practically all the others are German or American citizens.
