CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRHAL DEAFNESS AND HEAD NOISES

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you will have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires a constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease is driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climatic conditions.

Secure from your Druggist 1 ounce of Permutin (Double strength) put this home and add to it 1/4 pint of hot water and 4 ounces of granulated sugar; stir until dissolved. Take a tablespoonful four times a day. This will often bring quick relief from distressing head noises; become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Permutin is used in this way as it acts directly upon the blood and mucous surfaces of the system and has a slight tonic action that facilitates the recovery of the patient. The preparation is easy to make, a little and is pleasant to take. Every person who has catarrh should give this treatment a trial.—Advertisement.

How to Prevent Acid Stomachs and Food Fermentation

My experience has forced me to the conclusion that most people who complain of stomach troubles possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the lining of the stomach abnormally, causing that full bloated feeling. This both acid and fermentation interfere with and retard the process of digestion. The stomach wall is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all cases—and they comprise a great majority of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by a little warm or cold water immediately after eating, from one to two teaspoonfuls of bicarbonate of soda. This is the most effective antacid and food corrective I have ever found. The excess acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in healthy normal manner. Be sure to ask your druggist for bicarbonate of soda rather than magnesia in any other form.—Advertisement.

MORE MEMBERS BALTIMORE PLAN

Veteran Employes Work Hard For New Association; Six Months Old

The new organization is a few days over six months of age. Judging by the reports regarding the hustling ability of the officials, and representatives on the membership committee, it is a lively body. At present there are nearly 200 on the roll.

The new association was organized at Baltimore June 2. Its officers are: Supt. Gamble Latrobe, superintendent of the Baltimore division, president; S. O. Malin, special agent, vice-president; Joseph W. Duke, chief clerk; secretary; J. S. Corcoran, agent, treasurer.

There is a probability that the meeting next year may be held in Harrisburg. The selection of a place is up to the executive committee. On the Baltimore division are many veterans who can tell interesting facts concerning the history of that important branch of the Pennsylvania railroad.

Among those who were present at the organization were the following:

List of Charter Members: J. H. Plummer, chief clerk to general agent and superintendent; J. H. Lloyd, clerk; W. W. Moore, Jr., clerk; W. H. Drenning, clerk; R. S. Richardson, clerk; F. Duane, division engineer; J. T. Rubie, master workman; J. H. Beck, track foreman; G. W. Shoemaker, track foreman; R. H. Leese, signal foreman; W. C. Fite, foreman plumper; H. E. Hess, freight trainmaster; J. E. Marsden, retired trainmaster; J. H. Schlessel, freight conductor; W. H. Rogers, freight conductor; Theodore Shafer, yard conductor; Charles Bull, yardmaster; E. E. Hess, passenger trainmaster; W. W. Hall, baggage agent; J. A. Sewell, assistant stationmaster; W. N. Amig, train dispatcher; G. W. Rhoads, passenger conductor; C. P. Smith, passenger conductor; T. H. Watson, road foreman of engines; G. W. Hoffman, assistant road foreman of engines; P. Unglaub, retired engine man; C. W. Shipley, retired engine man; J. K. Hitchcock, engine man; C. L. Rohrbaugh, engine man; W. P. Boyd, assistant foreman car shop; G. W. Sandlass, foreman planing mill; H. B. Schmidt, shop clerk; W. H. Richardson, foreman machine shop; C. F. Wenzel, foreman freight car inspectors; S. O. Malin, special agent; E. O. Preston, freight agent; C. E. Cochran, freight agent; M. Finley, freight agent; H. J. Strickland, ticket agent; J. T. Skeen, agent; C. L. Frederick, freight agent; J. S. Corcoran, agent; W. E. McComas, freight agent; George Taylor, operator; A. M. Ramey, operator; F. Ruple, operator; H. B. Ellenberger, operator; T. C. Hunter, operator; J. E. Kirby, clerk; H. C. Smith, supervising agent; J. E. Shearer, agent; J. B. Koller, agent; A. J. Warfield, agent; G. T. Kerr, agent; D. B. DeHuff, master carpenter; J. W. Duke, chief clerk.
