UNDERWRITING OF COMPENSATION

Policies Are Being Written Today in All Parts of State Under New Law

Underwriting of compensation insurance, covering the liability of em-

TORIC What We Do Not Know About Your Business

probably equals what you do not know about ours. 23 years of constant application has given us a knowledge that insures scientific examinations, skillfully made lenses and accurately adjusted lenses.

WE always give a little bit more in the way of satisfaction than you pay for. It is this satisfaction which makes you send others to us.

With H. C. Claster, 302 Market St.

ployers subject to the workmen's compensation act of 1911 begins in all sections of the State to-morrow. This State-wide activity in liability insurance will follow the announcement by the State Workmen's Insurance Board of the rates as approved by the Insurance Department.

With the workmen's compensation act going into effect January 1, approximately 200,000 employers in Pennsylvania must, before that date, protect their employes by compensation insurance.

The approved rates which must be observed by the authorized stock and mutual insurance companies are based on each \$100 of annual payroll and must be applied only for coverage of compensation liability. The State insurance fund is allowed a 10 per cent. reduction under the rates as approved for stock companies.

The manual containing the approval rates is the first to be issued in this State and contains a number of rulings regulating the writing of compensation insurance.

Plant Inspections Industrial plants which install safeguards to protect their employes from injury will be given schedule inspections by inspectors from the Department of Labor and Industry, and the central rating bureau to determine percentages of reduction from the approved rates in recognition of the precautions that have been adopted within such plants.

Rates for coal mining have not been approved by the Insurance Department. Additional data on the hazard in mining is being collected and compiled and these rates will probably be available for distribution within a week.

The manual which has already been forwarded to the authorized insurance carriers, including the State fund, designate the division of payrolls and

the methods which should be used in underwriting the different hazards of all risks.

Principal operation of a plant is the governing classification of its risk. Subdivision will not be permitted, unless separate and distinct enterprises are conducted by the same employer without interchange of labor.

Exceptions are made for executive officers, clerical and office employes, salesmen, collectors and messengers, draftsmen, drivers and drivers' helpers, chauffeurs and chauffeurs' helpers, blasting, stamping operations, railroad hazard and extraordinary alterations and repairs.

The minimum premium that will be charged by stock and mutual companies is \$10, except on contractors' risks, for which it is \$20. Blasting operations require an additional minimum of \$25. The minimum premium for a compensation policy on a private residence or farm is \$5.

Court Gives Wife Right to Beat Husband 2 Weeks

Special to The Telegraph

Kansas City, Mo., Dec. 13.—With the court's permission, Mrs. Amelia Brasher may use a broom, skillet, flat-iron or any other handy weapon in carrying out Judge J. M. Brady's decree that she be permitted to beat her husband in any way she desires for the next two weeks.

Such was the decision when Perry Brasher was in police court in Kansas City, Kan., charged by his wife with disturbance of the peace and assaulting her.

Mrs. Brasher testified her husband had an ungovernable temper, threw his Sunday dinner off the table and struck her for correcting their child. Brasher said he merely pushed his wife.

"The way to correct such fellows as you," said the judge, "is to let you take some of your own medicine. I am going to give you your wife permission—and I want her to use her privilege—to beat you up in any way she pleases for the next two weeks; then I want both of you to report to me. We will see how it works out."
