# An Eight Day Christmas Clock Is Being Wound This Evening

**T**HIS is the last winding it will get.  
 ☞ Steadily its "tick-tock" will beat time for the marching moments, and each parting day its gong will sound slower and more deliberate.  
 ☞ Then one time we shall miss both its "tick-tock" and gong. It will have stopped and Christmas will be upon us!  
 ☞ Too late then to remember those who have done a kindness in the past year, or the friend who is far away.  
 ☞ Up! Up! Keep time with the Christmas Clock while it yet ticks.

### Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 244B, Marcellus Avenue, Manassquan, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Advertisement.
