

With One Day Remaining The Xmas Shopping Problem Resolves Itself Into One of Service---Good Service in the Final 10 Hours

We are of the belief that every Christmas shopper will prefer service above anything else to-morrow,

In the matter of prompt selling-service, wrapping, change-making and delivery, we believe we have overlooked no detail that would better this service on the last day before Christmas and invite all those who have put off their shopping until this day to come here and receive this advantage.

Many will have a large number of purchases to make, no doubt, in a limited period of time.

Salespeople are multiplied in numbers in order that no unnecessary delay will be realized.

The convenient air-cash system will be put to a rigid test and barring all mishaps the large force of cashiers will make change in a rapid manner.

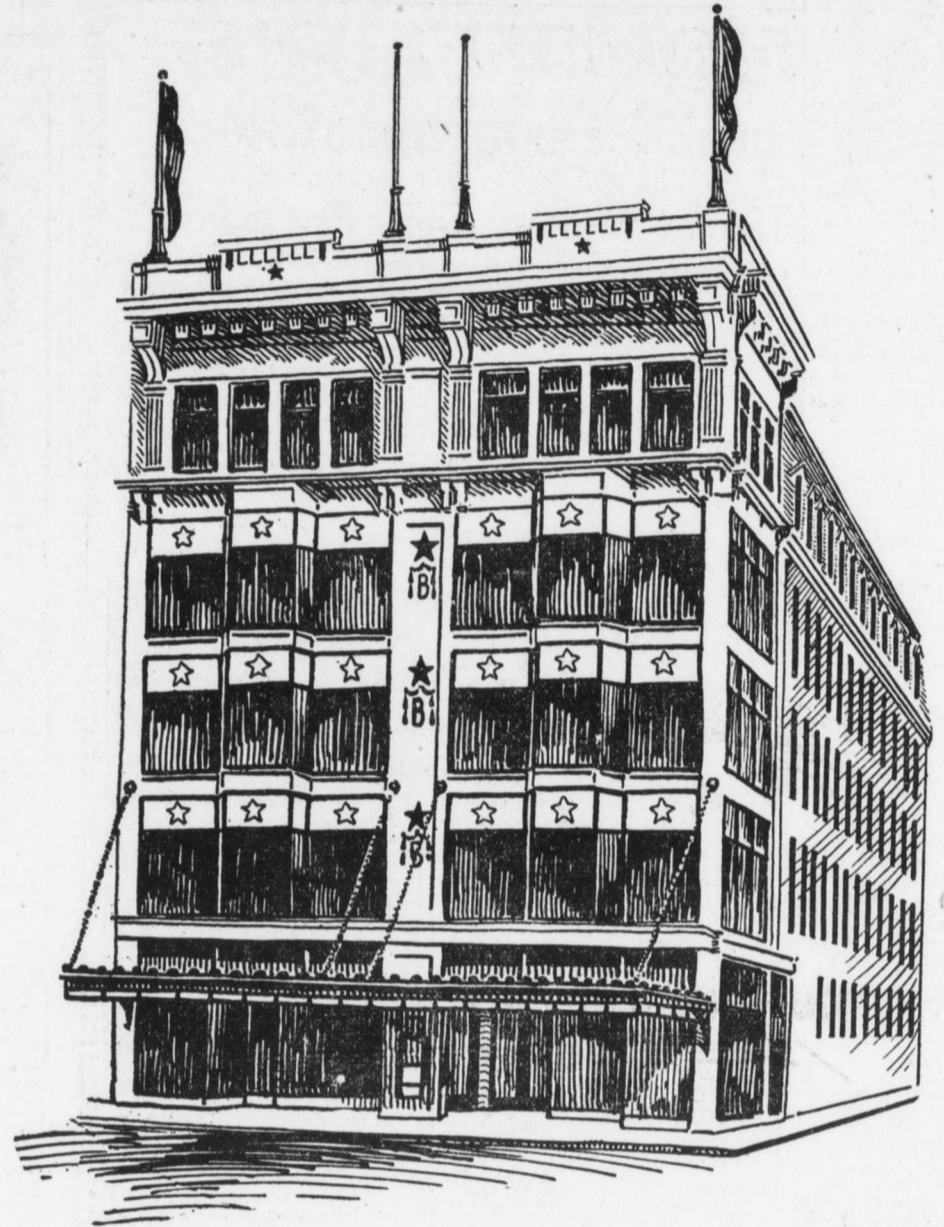

Wrappers have been increased to insure promptness in getting the packages.

The Transfer System is a wonderful help in overcoming all delay, as patrons may shop from counter to counter without being bothered with packages. When all purchases have been made you call at the Transfer Desk and pay for all in one sum (unless charge is to be made). Ask salesperson for Transfer card.

Most Important of All Is Our Insured Delivery Service

It is only natural that the many deliveries will be taxed to their capacity on the last great shopping day. But there is a splendid organization that will dispose of all packages to be delivered in as rapid a manner as possible.

Your package may be a little late in arriving at its destination, as such cannot be helped. Nevertheless it will arrive surely. Are not all customers willing to take small packages with them, as this will relieve the delivery congestion to a great extent?

Shop First at Bowman's; Store Closes at 6 P. M.

Only ten shopping hours tomorrow.

Following the custom established by this store two years ago, doors will close and no business will be transacted after 6 P. M.

The most hearty endorsement has been extended to this firm upon this policy from every corner of the city and county, in allowing its large store family to spend Christmas Eve in the manner they choose. After a ten days of hurry and bustle it affords a period of recreation and makes Christmas Day all the more enjoyable.

Come to Bowman's first tomorrow.
