ASSAIL WILSON'S POLICY ON WAR

Lively Debate Over Neutrality, Munition Sales and Belligerent Ships

Special to the Telegraph
Washington, D. C., Jan. 6.—Bonds of restraint against public discussion of international relations of the United States incident to the European war were broken in the Senate yesterday, and for more than an hour the session was enlivened by debate over the Government's neutrality policy, exports of war munitions, and travel by American citizens on belligerent-owned ships. There was no division of the debaters along party lines. Senator Jones, of Washington, Republican, denounced as "unpatriotic" American citizens who imperilled the nation by taking passage on belligerent vessels. Senator Works, of California, Republican, asserted that the Government of the United States was "hypocritically" claiming to be neutral when it was in fact participating in the war through the sale of munitions. Senator Lodge, ranking Republican member of the Foreign Relations Committee, declared that to place an embargo on arms now would be worth more to Germany than a million men, that it would be a "grossly unneutral act" and would make the United States the ally of Germany. Urges Embargo on Munitions. Senators O'Gorman of New York, and Hitchcock of Nebraska, both Democrats, urged the advisability of an embargo on munitions. Senator O'Gorman also informed the Senate that American Consul R. N. McNeely, who lost his life on the British liner Persia, had disregarded the advice of American Consul General Skinner, at London, that he make the journey to Aden on a Dutch vessel. The discussion was precipitated when Senator Jones read a newspaper editorial urging American citizens to keep off belligerent ships and advising the President to make slowly in the present crisis, heeding the interest of 99,000,000 Americans rather than that of a "thousand reckless, inconsiderate and unpatriotic citizens who insist on traveling on belligerent ships." Blazes Way to General Debate. Senator Nelson, of Minnesota, Republican, aroused the position by asking whether Senator Jones regarded Consul McNeely unpatriotic because he sailed for his post on the Persia. After the New York Senator had explained that the committee declined to heed Consul General Skinner's advice to sail on a Dutch ship, Senator Works blazed the way to general debate on the position of the United States in the war by declaring the American Government was not neutral.

President Stamm also named a committee to select an assistant attendance officer to succeed the late Henry Swartz. On this committee are Adam Houtz, William Boll, Harry A. Boyer, Robert A. Ender, and the Rev. William N. Yates. This committee will also meet to-night.

HIGHWAY DEPT EMPLOYEES TURN IN AS FIREMEN

While traveling from the Thirteenth ward this morning in the city highway bureau car, Supervisor Charles Tress and John Keefe, quit business for a few minutes as highway employees and went into the volunteer fire department to help extinguish a small blaze in the smokehouse of Elizabeth Kichman, Twenty-second and-a-Half street. Some hams were being cured when one fell upon the burning logs and started a regular blaze. The Royal Fire Company was called out and it had the fire under control before more than \$5 damage had been done. Messrs. Tress and Keefe had organized a bucket brigade in the meantime. "Bottle" Tress, as a lot of admiring Thirteenth warders recalled, is a regular fireman for the Paxton company. He has been quite a fireman most all of his life.

READING REMOVES COAL EMBARGOES

Will Relieve Congestion at Rutherford Yards and on Harrisburg Division

More coal embargoes were yesterday lifted by the Philadelphia and Reading Railway Company. This will relieve congestions at New York and Philadelphia terminals, in the Rutherford yards and along the Harrisburg and Reading divisions. The order directly affects bituminous shipments consigned to Port Reading. The effect of the railway's action will be to release from 300 to 400 cars daily, with a capacity of approximately 150,000 tons. Port Reading has been closed to coal shipments since December 19. The Lehigh Valley Railroad yesterday also announced modifications of its embargo. This road will now accept freight to the extent of high explosives, livestock, provisions, dressed beef, coal, coke, perishable freight, fuel oil, grain, produce and flour when consigned, reconsigned or to be reconsigned to New York harbor.

NERVOUS WOMEN

Are troubled with the "blues," anxiety, sleeplessness, and warnings of pain and distress are sent by the nerves like flying messengers throughout body and limbs. Such feelings may or may not be accompanied by backache or headache or bearing-down. The local disorders and inflammation, if there be any, should be treated with Dr. Pierce's Lotion Tablets. Then the nervous system and the entire womanly make-up feels the tonic effect of Dr. Pierce's Favorite Prescription. Take this in tablet or liquid form and be a well woman.

Carlisle, Pa.—"When I needed to be built up and get strong I used Dr. Pierce's Favorite Prescription. I was in a nervous and run-down condition. I took it for a period of six months and at the end of the treatment was much stronger and better."—Miss ANNA P. CAOMLICH, 68 E. North St.

Many mothers of families in Pennsylvania have reason to be grateful to the person who recommended Dr. Pierce's Favorite Prescription. It is put up for the single purpose of curing diseases peculiar to women. Another point in its favor: It is a temperance remedy and does not contain a single drop of alcohol or of any narcotic. Its ingredients are printed on the wrapper. It banishes pain, headache, backache, low spirits, hot flashes, dragging-down sensation, worry and sleeplessness surely and without loss of time.

Why should any woman continue to worry, to lead a miserable existence, when certain help is at hand? What Doctor Pierce's Favorite Prescription has done for thousands it will do for you. Get it to-day!

The sluggish liver can be cured by the use of Dr. Pierce's Pleasant Pellets. Biliousness, coated tongue, bad breath, are all cleared up and banished by the use of these tiny sugar-coated granules—purely vegetable and harmless. They do not cost.

Money Couldn't Buy It

The relief he personally experienced moved Mr. W. F. Briggs, Konawa, Okla., to write to the Pinaus laboratories a letter of appreciation in which he says:

"Fruitala and Traxo helped me so much I am advising all who suffer with gall-stones to try them. Money wouldn't buy what this medicine has done for me."

Fruitala is an intestinal lubricant that softens the congested masses, disintegrates the hardened particles that cause so much suffering and expels the accumulated waste to the intense relief of the patient. Following a dose of Fruitala, Traxo should be taken three or four times a day to restore the system that has been weakened by constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

Fruitala and Traxo are prepared in the Pinaus laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists. In Harrisburg they can be obtained at Gorgas, the druggist, 16 North Third Street; P. R. H. Station.

THROUGH all the changes which have marked the more than a half century's growth and progress of the House of Herman, one thing has remained the same—the determination to give quality. This is convincingly evidenced by the great popularity of

Drug Proof?

If there ever was a human being who was not in some way susceptible to drugs he's never been heard of. Yet in spite of the warnings of reputable physicians many persons with whom coffee disagrees continue its use and take into their systems the drug, caffeine.

The 2½ grains of this drug, in the average cup of coffee, taken regularly is often the cause of headaches, nervousness, biliousness, heart flutter and many other ailments.

The sure, easy way out of coffee troubles is to quit the coffee and use

POSTUM

—the pure food-drink

Made of wheat and a bit of molasses, Postum has a delicious flavour much like mild Java coffee, but contains no drug or other harmful element.

Postum comes in two forms: The original Postum Cereal must be boiled. Instant Postum is a soluble powder. A level teaspoonful in a cup of boiling water makes a delicious drink instantly. Both kinds are equally delicious and the cost per cup is about the same.
