Burial was made in Harrisburg Cemetery.

PASSENGERS FROM THESSALONIKI IN

Give Vivid Descriptions of Hardships Suffered During Heavy Gales

New York, Jan. 7. — The 177 passengers who were forced to abandon the sinking Greek steamship Thessaloniki at sea arrived here to-day on the steamship Patris of the same line and gave vivid descriptions of the hardships they suffered during the few weeks that the Thessaloniki was battered by a series of terrific gales. On Christmas day passengers said the supply of meat on the Thessaloniki was entirely exhausted, only a few gallons of water were left and the ship's officers began to portion out shore rations of the meager supply of food which remained. The Thessaloniki first sprung a leak when she encountered a hurricane which raged for 12 hours on December 21. The boiler and engine rooms were partly flooded and the steamer sent out calls for assistance. After the hurricane subsided however, the flooded portions of the ship were pumped out and the steamer proceeded on her voyage. 90 Mile Hurricane Rough seas and gales were encountered from December 22 to December 26 when the Thessaloniki ran into a ninety mile hurricane which lasted 24 hours. Many of the passengers and crew feared the steamer was sinking as fresh leakers were opened up and the boiler and engine rooms and coal bunkers rapidly filled with water and the ship was badly tossed about. The Thessaloniki's passengers were transferred to the Patris with considerable difficulty and were forced to leave all of their baggage and personal belongings on the disabled vessel. Refused to Call Help The captain of the Thessaloniki repeatedly refused to send out wireless calls for aid at the request of both crew and passengers, according to William Williams, who was a passenger returning from Greece. He said: "On New Year's day he gave up hope and the passengers were transferred to the Patris in about two hours. There were forty-five women and twenty children aboard."

HOLD COUNCIL TO WORK ON CODE

The prayer of the petitioners tells its own story. "We, the undersigned property owners and citizens of Harrisburg," says the petition, "would earnestly urge upon your honorable body the enactment of legislation extending the fire limits so as to prevent the construction of buildings in residential sections such as was destroyed by fire on the night of December 17. If such buildings must be erected in residential sections then they should be as nearly fire-proof as possible for the protection of the lives and property of the citizens. The destruction of that building by fire demonstrates the necessity of legislation, prohibiting the construction of frame buildings of this character in residential sections, as such buildings are a menace to the lives and property of people who live in close proximity to them." These petitions were referred by Council to Mr. Bowman.

Planning to Begin Work on Summit St. Grading in Spring

The long hoped for grading of Summit street south of Market street, will be started it is expected, with the opening of the Spring. Plans are being prepared for the improvement by the city engineer's department and the chances are that City Commissioner W. H. Lynch, superintendent of streets and public improvements, will advise for this within a few weeks at the latest. Council has long since adopted the necessary legislation. The plan as decided upon, provides for the grading of the street from the point where it now ends at an abrupt bluff, to Mt. Pleasant street so that vehicular traffic can be accommodated from Chestnut to Market via Summit and Mt. Pleasant. At present the milk man, baker, butcher or garbage man must serve the furthestmost houses on Summit street by way of Chestnut only. There is no outlet to Market. The expense of the grading will be assessed against the abutting property owners. While the vehicular traffic will be accommodated via Mt. Pleasant street pedestrians will be given easy access from Market to Summit by means of a broad flight of concrete steps. These will be about fourteen feet wide and there will be a dozen steps or more. At the base there will be massive posts with handsome electric lights to finish them off.

Revised Schedule of Hardscrabble Viewers Ready For the Court

Finishing touches to the revised schedule of benefits and damages incident to the formal opening of Front street from Herr to Calder and the consequent elimination of "Hardscrabble," have been made by the board of viewers and the report is ready for presentation to the Dauphin county court on Monday morning at the opening of January quarter sessions. Whether the report will go in Monday or be withheld until later in the week has not been decided. The court in granting the viewers an extension from September to January

court fixed January 10 as the day for finally presenting it. Little or no objection is expected will be made to the jury's findings although some of the property owners have hinted at legal exceptions. These, however, would not interfere with the improvement and Harrisburg can file its bond and proceed with the condemnation of the properties. Residents will not be required to vacate before April 1 at the earliest, it is expected.

William W. Caldwell, the new sheriff, has conducted...

REAL ESTATE BOARD TO NAME COMMITTEES

All the standing committees who will serve on the new Real Estate Board of Harrisburg will be appointed by President Herman P. Miller at the January meeting next Monday evening. It is understood that the board will meet at the offices of Rettew & Bushnell, North Third street. The building and realty outlook for the coming season will be discussed and it is probable that the board may take some action relative to the revision of the city's building code.

FIRST REALTY TRANSFER OF YEAR IN PARK ZONE

The first transfer of property in the Capitol Park extension zone to be recorded this year by the State was filed to-day. The property is 705 South street and it was purchased from Nancy Brenner et al. for \$2,500. Other transfers included: A. L. Pritchard to Wayne Miller, Williamsport, \$4,500; D. McHolland to Jesse P. McHolland, Hummelstown, \$1,750; J. Batdorf heirs to Charles Batdorf, Williamsport, \$700; C. O. Backenstoss to J. F. Bowers, Susquehanna township, \$1; Elizabeth Behn's trustee to W. H. Wenger, Derry township, \$1,906; E. L. March to John E. Darc, 723 North Seventeenth street, \$1.

Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do any good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Sheriff Caldwell Holds His First Sale; Eight Properties Disposed Of

Sales of four of the properties which were listed to go under the hammer at the January sheriff's sales yesterday afternoon were stayed. These included 421 Woodbine street, 515 Woodbine street, 250 Norwood street, and a farm in Halifax township. Eight properties all told were disposed of. The sale was the first

WATCH SORE THROATS

because swollen glands or inflamed membranes often affect other tissues and lung trouble easily follows. As Nature's corrector of throat troubles the pure cod liver oil in Scott's Emulsion is speedily converted into germ-resisting tissue; its tested glycerine is curative and healing, while this wholesome emulsion relieves the trouble and rebuilds the forces to resist tubercular germs and avert the weakening influence which usually follows. If any member of your family has a tender throat, get a bottle of Scott's Emulsion-to-day. Physicians prescribe it to avert throat troubles, overcome bronchial disorders and strengthen the lungs. No alcohol or harmful drugs. Always insist on Scott's. Scott & Bowne, Bloomfield, N. J. 15-32
