Quell an Insurrection

Athens, Jan. 10. — The Greek Cruiser Febl and the destroyer Leon with a strong contingent of troops have been sent to Samos to cope with an insurrection on that island said to be due to a lack of foodstuffs.

Solved:
First, That the urgent question was that of securing respect for the constitutional liberties of Greece:
Scond, That it was to the interest of Greece to abandon neutrality and join the allies:
Third, That the congress should not break up until this task was completed and that meanwhile power would be delegated to an executive committee charged with carrying out these decisions.

We have 125 head of horses and mules. We have them weighing from 1,400 to 1,500, and some good driving horses. The HORSES must be sound, and right in this lot we have some Kentucky brood mares with foal. These horses must be like I say they are or bring them back and get your money. We also sell horses at private sale every day.
