ANNOUNCING **The 1916 Baby Vehicles**

We are showing an unusually large line of sample carriages from the best makes-samples that they have submitted to us as the most choice of their different lines.

It is our annual BABY VEHICLE DISPLAY-a miniature automobile show. We don't know of a year when there have been so many radical changes made in baby carriages—both in color and style. The improvements add much to their appearance, strength and comfort. They are mostly equipped with ballbearing wheels, which only a mother can appreciate how much easier they run.

You will not see again such a large selection anywhere this season. Early choosing is desired. Even if you are not ready to buy, you should know what the different makers are producing this season.
