Government Ownership of Manila R. R. Is Urged

Manila, Jan. 10.—Governor-General Harrison has recommended that the legislature ratify an agreement for the purchase of the Manila Railroad, capitalized at 8,000,000 pesos, with immediate payment of 4,000,000 pesos, now available in the insular treasury, and the balance in eighteen months. The government already has financed the construction of the road to the extent of 4,000,000 pesos. The war has prevented the English company in charge of the construction from obtaining funds for completing the work, and the governor-general says that government ownership is necessary for the protection of the government's investment. Early ratification of his recommendation is expected.

RAILROAD NEWS

EMIGRANTS HERE; MANY ARE WIDOWS

In Charge of Joseph Nathanson, Veteran Interpreter; Starts New Year Today

Joseph Nathanson, veteran interpreter for the Pennsylvania railroad, today began his thirty-third year in the service of the Pennsylvania railroad with three carloads of emigrants, the first to go west in several months. There were 200 foreigners in the party. Sixty were widows of men who have been killed in the war, mostly Belgians and Russians. About 100 were orphan children. They were enroute to points west of Chicago where they have relatives.

Weight of Train Holds Topping Engine on Bridge

One large tank pin, coupling a big freight engine to a train of thirty cars, yesterday prevented the engine from going over the side of the stone bridge near Lewistown. In shifting several cars the engine went off the rails. When the locomotive was stopped part of it was hanging over the side. The engineer, E. L. Kauffmann and fireman, S. M. Forsythe, both of Harrisburg, notwithstanding the dangerous position they were in remained on the engine. The weight of the train and the durability of the big tank pin, saved the engine from going off the bridge.

RAILROAD NOTES

The Pennsylvania Railroad employs 5093 men in its machine shops at Altoona. The American Car and Foundry Company has received from the Missouri, Kansas and Texas Railroad, an order for 1,500 gondola cars. The Chesapeake and Ohio Railroad placed an order with the Pullman Car Company for six coaches and 12 express cars. Oliver C. Gayley, vice-president of the Pressed Steel Car Company, and of the Western Steel Car and Foundry Company, and former division engineer of the Philadelphia and Reading Railroad, died at his home in New York yesterday. He was born in Nottingham, Cecil county, Maryland, in 1860. He retired from the Reading about eight months ago. As the State of Maryland has a deficit it has been suggested that the State sell its mortgage on the properties of the Northern Central Railway for \$3,000,000 and apply one-half of the proceeds to the liquidation of the deficit, applying the balance to the sinking fund account.

Mothers Make This Home Made Cough Syrup

The good, tender, thoughtful mother can make a full pint of the quickest acting, permanent result giving cough syrup which can be used by the whole family for coughs and colds, thus preventing pneumonia, sore throat, diphtheria, and other fatal maladies. Just obtain a concentrated fluid known as essence Menthol-Laxene—a 2 1/2 oz. bottle, and empty it into a pint jar or bottle. Then take a pint of granulated sugar and pour over the sugar the pint of boiling water; stir, cool and fill up the bottle with the syrup. Full directions for making and using are contained on each package. All drug stores sell it, or it can readily be obtained of their wholesaler. Thousands of families are using this because of its cheapness and thoroughness. It contains no poisons or opiates.—Adv.

THREE KILLED BY TERRIFIC BLAST

[Continued from First Page.] representative of the company, branded all these reports as false. "Nothing ever occurs at the powder works of the Du Pont Company that would one load one or two men up with bombs and dynamite and puts them under arrest," said Mr. Landis. "There is nothing to the story." The early morning force of the employees had just replaced the night forces at 12:30 o'clock when the explosion occurred with a terrific noise accompanied by a sheet of flame that lighted up half of the big plant and attracted the attention of all boat crews then on the Delaware river. The explosion created consternation in Pennsboro and other towns surrounding the powder works. The Wilmington ferryboat Long Beach had just tied up at the Carney's Point wharf and it was shaken from stern to stem. Physicians from Woodbury and Gloucester and other persons living near the Carney's Point wharf, and Carney's point in automobiles and carriages to offer their services but they were told that outside help was not needed. Bodies Blown to Pieces. Coroner Ashcraft saw the flames while he was going to Pennsboro on a railroad train. He went to Carney's Point in an automobile and he was the only person so far as can be ascertained excepting officials from the company at Wilmington, who was admitted. He said that he found what was left of the bodies of Larney, Walsh and Wynne about a hundred feet from the place of the explosion and that they had been blown to pieces.

COSTS MORE TO CURE GRIP ON WAR'S ACCOUNT

[Continued from First Page.] cent in price, it was said to-day. Salicylic acid, used by housewives to can fruit and to cure corns, is soaring after an increase of 900 per cent in an article. Acetamid, caffeine and phenacetin, all used in many of the headache powders and tablets on the market, have increased greatly in price, causing a corresponding raise in the cost of the cure. Prices Go Sky High. All bromides have gone up to sky prices since the war. These salts are used in many of the prescriptions given for nervousness. Potassium permanganate, used in this country as a disinfectant with other chemicals, is scarce and expensive owing to its use in explosives. Glycerine, the oft-fashioned chapped hand cure, is three times higher than it was before the war. Carbolic acid, although obtainable in quantities, ten times as much as it did. Large quantities of the acid were shipped from England until the beginning of the war. Now only small quantities are received. Zion Men Dedicate New Meeting Place. The opening session of the men's Bible class of Zion Lutheran Church held in the new church home here yesterday afternoon was an interesting event. In attendance were 162 men. The special program was in charge of W. C. Beideman, president of the class. The exercises included a consecration prayer by the Rev. S. W. Herman, pastor of Zion Lutheran Church; singing by the class; vocal solos by Mrs. William Witheron and A. W. Hartman; violin solo by Charles George; selections by the class orchestra directed by Professor W. C. Heiges, C. A. Kunkel, E. K. Frazer, Croll Keller, Dr. E. E. Campbell, the Rev. S. W. Herman and H. H. Moser. The beautiful class banner, designed by Harold Coutts, was unveiled. The colors are red and white. The motto is "The church worked on while the world trimmed." On the back is the name of the class and data giving time of organization.

"HARDSCRABBLE" VIEW REVISE GAIN TO CITY

[Continued from First Page.] claims of inadequacy of damages allowed, then the report will be confirmed absolutely insofar as it affects those who have not appealed. The disgruntled claimants may take formal action after the report is confirmed. The confirmation of the report will afford the city the legal chance to file a bond to cover damages and to proceed with the condemnation and removal of buildings. It is doubtful, however, if any buildings will be ordered removed before April 1. Some to Object. Some of the property owners on the east side of the street have combined formally to object to the proceedings and have retained B. Frank Nead to represent them. The grounds upon which they will object will be that they are not liable inasmuch as the street has been formally opened. The city legally opened the street, according to their claim, when it paved the highway and assessed the paving costs against the abutting property owners. The revision of the original schedule of benefits and damages resulted from some of the statements made by property owners relative to the time upon which their properties were improved. The law provides that no damages may be allowed for improve-
