Hard, Sometimes, to Raise Children.

Hard, Sometimes, to Raise Children. Children's taste is ofttimes more accurate, in selecting the right kind of food to fit the body, than that of adults. Nature works more ac-curately through the children. A Brooklyn lady says: Our little boy had long been troubled with h weak digestion. We could never persuade him to take more than one taste of any kind of cereal food. He was a weak little chap and we were puzzled to know what to feed him on. "One lucky day we tried Grape-nuts. Well, you never saw a child t seemed as though we could almost see him grow. He would eat Grape-Nuts. Well, you never saw a child to broekfast and supper and I thick he would have liked the food for dinner. "The difference in his appearance is something wonderful. "My husband had never fancied cereal foods of any kind, but he be-reame very fond of Grape-Nuts and t has been much improved in health tsince using it. "We are now a healthy family and naturally believe in Grape-Nuts and rearance mad never fancied very fond of Grape-Nuts and naturally believe in Grape-Nuts as an magical.
