# **An Honest January Clearance** At "The Woman Shop"

We are now sacrificing our rich, new Fall and Winter stocks of Suits, Coats, Dresses, Separate Skirts, Waists and Blouges, House Dresses Kimonos, Furs and Marabous at prices we are sure will be hard to match, in order to make room incoming new Spring stocks.

Prices are now at a mere fraction of former selling prices and you will be amazed at the radical reductions on garments which you can wear now and later.

PLEASE REMEMBER. We are clearing our own stocks, and not garments made and bought for sale purposes.

→Low Expenses Must Mean Low Prices←

When such training has become general and when all of the stores examine their prospective employes with a view to determining their spe-

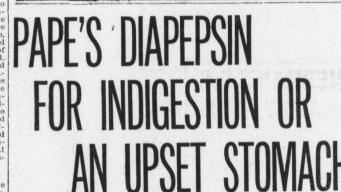

cial fitness for salesmanship, vage problem will solve itself.

WHERE YOU BUY By Frederic J. Haskin [Continued from Editorial Page.] a small salary all his life, became the credit manager of his firm after studying the subject by mail. So technical education in his calling has opened new opportunities of advance-ment to the salesman. When such training has become

Millersburg has always been noted for its thrift and when other towns were battered by hard times, this town was merely touched, and touched so lightly that recovery was a matter of but a few days. This borough has a population of approximately 3,000 and a conserva-tive estimate of the number of per-sons employed shows that more than one-fourth of the entire number of residents in the town are working in the various industrial plants. There are about \$50 men, women and young folks working in the mills and fac-tories and this leaves approximately 2,150 persons to take care of the stores, offices and homes. Included in this number, too, are the school children, and the men who work on the railroad. There are few towns in Pennsylvania where a record of this kind has been attained.

said Warren, who was comfortably smoking. "We might interfere with Helen's tea," said Carrie harshly. Warren met Helen's eyes and rose to the emergency beautifully. "I am sure that Helen never gave you that impression, Carrie," he said calmly. "We'd be glad to have you meet our friends. Sit down and don't be foolish." Carrie, much to Helen's surprise, sat down, and the conversation be-came general. Helen, slipping out five minutes later, met Frances in the hall.

and had laughed. "Have things the way you want them, but try to keep peace in the family by all means." And so Helen had asked Frances, and in the afternoon a few others rie and Fred always went home early on account of Roy and old Mr. Curlis, who was very feeble now that his wife had died. ast down and the conversation be-came general. 15 feet, "and is one of the largest and handsomest flags in the city." In the affidavit Dr. Melbane swears

He Is Loyal to Flag

P. O. Aspirant Swears

He Is Loyal to Flag Special to the Telegraph Wilkes-Barre, Pa., Jan. 12.—In an affidavit which he sent to the Post-master General denying that he slurred the American flag, Dr. D. C. Melbane, who has been tentatively selected by the President as postmaster of this city offers as proof of his patriotism flags in his home. Dne of these flags he swears, is 10 by He Is Loyal to Flag Data Structure Tumulty, dated January 4, 1916, in which Melbane is charged with utter-tumulty, dated January 4, 1916, in which Melbane is charged with utter-tumulty, dated January 4, 1916, in which Melbane is charged with utter-tumulty, dated January 4, 1916, in which Melbane is charged with utter-tumulty, dated January 4, 1916, in which Melbane is charged to him by the said Zeizler, either in his store or elsewhere, or any language to any one reflecting in any manner on the Amer-ican flag, and any charge that he did so is a malleious falsehood." Zeizler gave out a statement in re-ply, in which he says that he has suited the flag by claiming "it is not my flag: I am a Southerner."

All of Millersburg's industries are housed in good substantial buildings and everything possible is done to care for the employes and make them comfortable.

Materials For Allics War materials for the allies are playing a part in the industrial life of the community, too, and dyes, taps and reamers made here are either be-nig shipped to the allies' governments of Europe or to plants in the United States which are manufacturing mu-nitions for them. Millersburg products are shipped to all parts of the world and the freight agent here never ex-presses surprise, no matter how far a crate or box is to be shipped. The largest industry in the town in the Johnson-Baillie shoe factory where 17,000 pairs of shoes are manu-factured weekly. The plant was start-ed about 20 years ago and at that time a very few persons were em-ployed. The factory and the town's entire shouse one-sixth of the town's entire population. More than 500 persons are on the payroll and this number is kept rushed at all times, "overtime" pany's books. Misses', children's and ladies' shoes are made at the plant and these are worn by persons in all sections of the United States. The Johnson-Baillie plant is made up of big roomy frame and brick buildings. The company's original building could be placed in a corner of one of the present structures. Keg Stave Machinery

"Get There" Spirit Millersburg has a real, true "get there" spirit and its progressiveness is evidenced on every side. Paved streets, good water and electric lights are among its valuable assets. Its schools are established on an excel-lent basis and all of its stores are modern and seemingly prosperous. Pretty homes are to be found in all parts of the town and with co-opera-tion on the part of every person the borough has grown to be a self-sustaining settlement and just pack-ed to the borough limits with spirit which would do credit to a much larg-

present structures.

present structures. Keg Stave Machinery A short distance from this shoe fac-tory is the F. K. Lenker Machine Shop where machines for making staves for nail kegs and small bar-rels are built. Mr. Lenker designed the machines and has been building them here for many years. Five ma-chines make up a set for a stave mill and an average of eight sets are built each week. A dozen men are em-ployed at the shop and they have never been known to be idle. At the present time there are orders on hand

IF YOU WORRY, READ THIS

IF YUU WURKY, READ THIS Worry never brought any good to any-body. But, you say, "I don't worry be-cause I want to, I worry because I can't help it." Or, "I worry because I can't belp it." Or, "I worry because I have so much to worry about." We all have our troubles and worry, of course, makes matters worse. The patient generally recognizes this fact without be-ing influenced in any way by it. The doctor who could meet this nervous condition and cure it would be the most popular medical man alive. But he can not do it because the form of nervous ex-haustion known as neurasthenia, of which worry is a characteristic symptom, must be cured by the patient him-elf. That is why you should write today for the book "Diseases of the Nervous System" and read the chapter on "Neurasthenia." So many people have read it and written back. "This hits way asse excepted to me

read the chapter on "Neurasthenia." So i many people have read it and written back, "This hits my case exactly, I am giving the treatment a trial and being benefited," that the Dr. Williams Medi-cine Co., Schenectady, N. Y. has had a lot of these books printed and will send you a corp free on request. Ask for a dict book also if your stomach is off. Dr. Williams' Pink Pills are a non-alcoholic tonic, particularly suited for nervous, neurasthenic people. Your druggits sells them or they will be mailed postpaid on receipt of price, 50 cents per box, six boxes for \$2.50.

the Bruback piones are suppled direct to Italy, Japan, England, Aus-tralia and Russia. There are two other concerns in Millersburg which manufacture taps, dyes and reamers and they are the plants of A. J. Polk & Son and the Al-vord Reamer Company. The former shops are at the present time sup-plying taps and dyes for the allies. They are being used to make up sets of tools which are in use on the bat-tlefields. Reamers are supplied, too, to an American plant making muni-tions for the allies. The reamers made in the Polk shops are used in the manufacture of shrapnel cases. This plant also does work for the Amer-ican government and at present has orders on hand for some of its pro-ducts which are to be shipped to the Panama Canal Zone. Twenty-five men are employed at the shops.

Panama Canal Zone. Twenty-five men are employed at the shops. Will Fut on Night Shift At the Alvord Reamer Company's plant 38 men are employed and with-in the next few days an additional force of fifteen men will be put on to make a night shift. The concern manufactures reamers and mill cut-ters of various sizes and ships them al over the world. For the past sev-eral months the company has been so rushed with work that it 'was necessary to make plans for a night force. This shop is one of the most prosperous in the borough. Adjoin-ing it is the Millersburg Fifth Wheel Works where parts for wagons are made, in addition to welded rings which are put to various uses. Among the most noteworthy are those which are manufactured for a certain ship building company on the Atlantic coast. The company at present is en-gaged in building submarines for the American government and the rings which are used to encircle the tor-pedo tubes are being produced at the Fifth Wheel plant. This concern em-ployes fifteen me. Another Shoe Factory

Another Shoe Factory

Another Shoe Factory At the extreme upper end of Mil-lersburg is a shoe factory where in-fants' and children's shoes are made. Eleven years ago this factory, owned by the Millersburg Shoe Company, was a barn. It was remodeled and eight or ten persons were employed. The business adventure was a success and the concern has been running stadily ever since. There are 85 persons employed now and this force is capable of producing from 750 to 1,000 pairs of shoes daily. The out-

Active in Building

Millersburg, besides her industries, is interested in building and during the past few years many homes and other buildings have been constructother buildings have been construct-ed. One of the largest structures erected during the last year or two is the Brubaker building. The first floor of this contains seven store rooms, the second seven apartments and the third floor is given over en-tirely to the Masons. On this floor the lodgemen have their meeting rooms, kitchen, banquet hall, bool and billiardroom and cardroom. The entire building is one of the most up-to-date in this part of the State and shows again the spirit of progressive-ness which exists in Millersburg.

Special to the Telegraph Princeton, N. Y., Jan. 12.—Conserv-ative Princeton was stirred for the second time within the year this morn-ing by "Billy" Sunday, who came from Trenton to speak in the First Presby-terian Church on "Love," There was not a word of criticism in the whole of his sermon about the university with which he has had some difficul-ties, and which last year refused him permission to preach to the students in Alexander Hall, the university au-ditorium. A large number of towns-people were present, and the students filled the gallery, overflowing into the aisles.

A New Remedy For Kidney, Bladder and All Uric Acid Troubles.
