The fact that the French flag is now waving over the palace, on the Island of Corfu, which belonged to the German emperor and that the occupation of the Greek island by the entente is considered as complete as it is reported, already evoked a protest from the Greek government. It is said that the protest is largely formal and that the allies have given intentions. Greece, it is understood, takes a sympathetic view of the entente action, as it is for the purpose of preventing the Serbian army from risking the danger of starvation.

The senator said:

"Every Republican in Pennsylvania will be gratified to learn that the Republicans in the western part of the state have come to a harmonious agreement upon the question of United States senator.

"It has been the custom in our State to have one senator from east of the Alleghenies and the other senator from the western section. This year the senatorship belongs to the west, and several candidates have been mentioned, including Senator Crow, E. V. Babcock and ex-Senator Knox.
