Not Too Late to Become a Member of Worth While Commonwealth Organization

The regular meeting of the Commonwealth Club will be held at the Y. W. C. A. on Monday evening, January 17. Supper will be served to club members at 6 o'clock, and after a short social time the forum will begin at 7.

Cured His RUPTURE
I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Puller, 1000 Center, 2548 Marcellus Avenue, Manassas, N. Y. Better get out this notice and show it to any other who are ruptured—you may save a life or at least stop the misery of a rupture and the worry and danger of an operation.—Advertisement.

Cathart-Mullin Bridal of Much Interest Here

Mr. and Mrs. Frank S. Keet, Mr. and Mrs. George King Keet, Miss May Fox, George F. Ross, Walter Ross, Mr. and Mrs. LeRoy H. Hagerling were among the Harrisburgers who attended the marriage of Miss Cathart-Mullin and William Elliott Cathart in Philadelphia yesterday.

The ceremony was performed at high noon by the Rev. Dr. John McCallum, pastor of the Walnut Street Presbyterian church at the bride's home, 1701 The Roosevelt, where masses of greenery, pink roses and narcissus were used in the decorations.

The bride wore a reception toilette of King's blue silk with chiffon over dress banded with fur, picture hat of white lace with touches of blue velvet, with fur and pink roses and carried a shower of roses and called lilies. She was given in marriage by her uncle, Frank Smiley Keet, of this city, and attended by Miss Verda Moore as maid of honor. Thomas Cathart was best man for his brother.

A reception followed the service and after a southern trip, Mr. and Mrs. Cathart will reside in apartments at The Ivan, Forty-second St., and Baltimore avenue, Philadelphia. The bride is a daughter of Mrs. Gordon H. Mullin, formerly Miss Carr King of this city, and a granddaughter of the late Anthony King. Mr. Cathart is connected with the Insurance Department of the P. R. R. Company.

ON MAKING FRIENDS

A lady who possesses millions said in my hearing recently, "I have three homes and six automobiles and every physical comfort, yet I am wretchedly unhappy. It seems as though I would be willing to give them all for a friend who really cared for me, just for myself—a true friend."

A man of affairs, who has every mark of material success, told me, "I am the most lonely and friendless man in New York."

Why were these people dissatisfied? In both cases, I am quite certain, it was because they had spent their money for that which was not bread; they had lived for self; they had failed to show themselves friendly.

It is a sad thing to atrophy at the top of one's being. It is a sad thing to shut up one's nobler self in a room too small for the soul. It takes more than comfortable things to make comfort. The wings of the swiftest automobile cannot carry a man away from himself. Are we making new friends? Are we helping things along? What things have we done the past year that will live on in other lives made better by our presence?

In ancient Athens there was a law that any man who had a lighted candle and refused to allow another to light his candle at it, should be put to death. A greater law exists in our souls, that quenches the happiness of him who fails to give.—THE CHRISTIAN HERALD.

BRAKING APPARATUS FOR LOGGING VEHICLES

Heavy loads may be safely let down the steepest grades by the use of a new braking device that is particularly designed for logging operations in hilly or mountainous country. This device, which is described and illustrated in the November Popular Mechanics Magazine, consists of four sheaves mounted on a solid frame that is anchored to the top of the hill and is equipped with hardwood blocks for braking each of the sheaves. Around these sheaves runs a cable so arranged that while one end of the cable is being taken downhill the other is being drawn in. The braking blocks are controlled by two levers by which two or four of the sheaves may be braked, as may be necessary. The downgoing wagon or sled is hitched to one end of the cable. On a winding road, roller posts are set at each curve. On reaching the bottom of the hill the driver unhooks the cable and notifies the man at the top by means of an electric bell. The device is then ready for instant use by the next wagon or sled.

Peel Off The Old Skin; Bring Out The New

You know that beneath that muddy, over-red or blotchy complexion you have a skin that's clear, soft and white. If you could only have this more beautiful skin exposed to view instead of the horrid old skin you now behold in your mirror. You can—and by very simple, painless, harmless process which you can use yourself. Get an ounce of common mercerized wax at your drug-gist's and this evening spread a thin coating of it over your face. To-morrow morning wash it off with warm water. Small powder-like particles of the lifeless top skin will come off with the wax. Repeat this daily until all the worn-out scarf skin has been absorbed. Then you'll have a lovelier, healthier looking complexion than you now think possible. Blackheads, pimples, spots, freckles, chaps or other surface disfigurements are of course removed with the skin itself. If your skin is wrinkled or flabby, wipe the face daily for awhile in a lotion made by dissolving 1 oz. powdered saxolite in 1 pt. witch hazel. This is just splendid.—Advertisement.
