#### KNOX FOR SENATOR

THERE is every reason to believe that Philander C. Knox will be the unopposed candidate of the Republican party for United States senator from Pennsylvania to succeed Senator George T. Oliver, who is not a candidate for re-election. The with-drawal of E. V. Babcock, of Pittsburgh, some days ago and his hearty endorsement of Mr. Knox cleared the way for the torrent of pledges of supthat have since flowed in upon Mr. Knox from all quarters. withstanding the widespread and in sistent demand of the rank and file for harmony there are influences at disruption and breaking down of that essential spirit of unity which is nec any effective campaign.

Mayor Smith has shown on several occasions a commendable desire to prevent any breach that would result in party disorganization. As the administrative choice of the Republicans of the metropolis he has endeav the differences which crop out at fre leaders of that city. #### Politics in Pennsylvania

By the Ex-Committeeman

The Pittsburgh Gazette-Times to day says: "The Republican campaign in the Twelfth Legislative district was Nelson McVicar, of Tarentum. They have served one term in the House of Representatives and the records they have made are generally satisfactory. The only opposition to them comes from those voters who are opposed to local option, and the liquor interests local option, and the liquor interests are mobilizing their forces in the hope of defeating them. The meeting was called by the neighbors of Mr. Vickerman and Mr. McVicar was invited to attend the gathering. Among those who addressed the meeting was ex-Speaker George E. Alter, of Springdale." Governor Brumbaugh sent a letter heartily endorsing both men.

dale. Governor Brumbaugh sent a letter heartily endorsing both men.

In the discussion of party leadership in Pennsylvania at the meeting of Pennsylvania Republican congressmen in Washington the other day following the election of Congressman Graham to the Republican congressional committee, Congressman Focht, replying to Congressman Vare, said:

'To claim leadership of a great party in a great state for any man because he received a few more votes than some other candidate is an absurdity. In this instance one was the candidate for governor, local and limited in its sphere; the other was for United States senator with nation-wide potentiality. The facts in the case are that Senator Penrose lost 40,000 votes by refusing the Keystone nomination, on which ticket the governor's name appeared. He probably lost 100,000 votes because he was the legatee of all the alleged city-contractor boss politics of the cities which the newspapers have been exploiting for a generation."

cities which the newspapers have been exploiting for a generation."

The Philadelphia Evening Bulletin in an article on the Philadelphia Democracy on Jackson's day, has this interesting comment to make: "Today the one hundred and first anniversary of the Battle of New Orleans—the St. Jackson's day of the Democratic party—will be commemorated at the table by the Democratic Club. But in these days of men of peace or nonsoldier instincts in the Democratic party like Wilson and Bryan, it is not so easy as it used to be to work upenthusiasm for the greatest of all Democrats who wore a military uniform before the Civil War. Politically, too, Old Hickory appears to be almost totally a thing of the past this part of the country, at least for the time being in Philadelphia. At some elections his party has been polling hardly any more votes than it had when Jackson's friend, James Buchanan, was in active politics, and two months ago there were only about five thousand of them who came forward as Democratic candidate. There was never more of a fighter, either political or military, in the whole history of this country than Andrew Jackson, and the old man would turn in his grave if he could see to-day how, in the city which was once a stronghold of Jacksonians, his party has lost its fighting spirit and has become a thing of shreds and patches."

nas lost its fighting spirit and has become a thing of shreds and patches."

—A Pittsburgh dispatch says: "A proposition for a so-called harmony ticket for the Republican State campaign, with Charles H. Kilne, of Allegheny, backed for Auditor General, and Speaker Charles A. Ambier, of Montgomery, for State Treasurer, was brought here by the delegation that returned from Philadelphia last Sunday. Senator Charles A. Snyder, of Schuylkill, and Representative James F. Woodward, of Allegheny, are also proposed for places on the State ticket this Fall."

"With every reduction made in the rate of postage on first class mail matter there immediately has followed a tremendous increase in the volume of mail," said Senator Penrose at Washington last night when asked whether the time was opportune for a reduction in the rate on local delivery letters. "Should Congress reduce the rate from 2 cents to 1 cent on all letters deposited in a post office for delivery within that postal district, the volume of mail will be increased to such an extent that the postal revenues will be little, if at all, affected," said the senator. "Also it would stimulate business generally. I will endeavor to have my bill on that subject enacted during the present session."

THE STATE FROM DAY TO DAY

Ghostly visitations have been observ

Ghostly visitations have been observed in Hazleton, with such reality that Michael Steep, a miner, refuses to go to work, claiming that he saw a ghostly woman in white as he approached the mouth of the mines. Mayhap there is material here for another Cock Lane Ghost story that would make old Samuel Johnson sit up in his grave and take notice.

Psychology may or may not have had anything to do with it, but it seems strange that a man who had a fearful horror of being killed by a fast-moving train, should meet death that way, and before expiring be unable to explain how the accident occurred. Dennis Hayes, aged 62, passed through such an experience near Towanda lately, having been killed by a milk train while at work in the Vosburg tunnel.

The jitney business, in at least one instance, has proved to be a cause of tragedy, in that the wife of a "jitneur" in Easton, who had failed to make a success of the jitney business, and because her home had been mortgaged to buy the car, became morose about it and committed suicide.

At last, after a long period of wait-ing, eight of the Wilkes-Barre carmen who struck way back in October of last year, have asked for reinstatement and have been taken back, under the sliding scale system of wages, which originally caused all the trouble.

The Lancaster Intelligencer speaks of a public meeting on preparedness which is being held in that city this evening, to aid locally in laying the groundwork for preparing the nation against foreigners. Automobile licenses are being issued at the rate of 1,000 a day by the division in charge of such matters at the State Highway Department and the demand for registration is greater than anything ever known before. It is believed that the registration for the month of January will be greater than for the whole of 1912, so rapid has been the increase in the number of cars. On some days the number of applications received and accompanied by cash has run as high as 1,500. The State does not accept anything but cash, money orders or certified checks. Ordinary checks are not taken; they have to be certified. The revenue from licenses for 1916 is now \$1,075,000.

Municipal Court, Philadelphia, was given one big surprise by Harrisburg firemen, Wednesday night. He was

present during the big celebration in October, 1914, and like others who

watch important events, expected to see a big slump here in enthusiasm

among volunteer firemen because generally a town is dead after an event of the magnitude of a State firemen's

gathering. But Harrisburg has been very much alive ever since. Judge

Bonniwell found up-to-date motor driven apparatus; and was told of the

passage of a loan to add to the mod-

ern equipment. When he made the trip over the city yesterday with the local committee he found at every firehouse sufficient men to take care of the apparatus in case of fire. Down in Philadelphia the majority of the companies are obliged to respond to an alarm with one and two men short. The one day off each week allowed the firemen in that city and lack of substitutes causes the shortage. In Harrisburg where the firemen receive no compensation, a full force of firefighters is always assured. He said, "I am sincere when I say that Harrisburg has a fire department to be proud of, and without an equal in Pennsylvania."

A big increase in the insurance business done in Pennsylvania is be-lieved to have taken place and the reports of companies which are comreports of companies which are commencing to be received for the business of 1915 are showing that the active condition in business stimulated fire and similar insurance considerably. The State places a tax on the premiums of foreign companies doing business in this State and half the proceeds goes to fire departments' relief funds.

Churches of the State, whose trusees have discovered that they are under the employers' Hability laws as under the employers hability laws as well as factories, are commencing to take out policies of insurance in the State Insurance Fund. Over a dozen applications from churches were received on one day and the insurance has been taken out on every person receiving compensation from the congregation.

Capitol Hill is recovering from its ttacks of grip, which raged through attacks of grip, which raged through the State offices at a rate never known here before. In some departments there were half a dozen to fifteen people sick and in others correspond-ence was held up because of grip prostrating the strengtraphers.

Philander C. Knox, who was here yesterday to see the Governor, was given one of the greatest surprises and at the same time one of the pleasures at the same time one of the pleasures of his life in this city. He came here to attend the dedication of the Capitol and Theodore Roosevelt, the orator of the day, extolled his work as attorney general.

## Counting the Cash

January is count-up time with the storckeepers.
They take stock of things, balance the books, and try to see whether the figures are on the right side of the ledger.
They like to count up results in cash rather than in goods on the shelf.
Hence the tendency toward sales — clearances and lower prices at this season of the year.
Lessend-sales figures mean the merchant is paying a premitum for cash.
And the same desire reflected in the advertising in the Telegraph makes it profitable to you to read it. January is count-up time with
