Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant. — Advertisement.

Annexille, Pa., Jan. 21.—Quarries in the vicinity of town are doing the biggest business in limestone in the past ten years. The increase in the output can be laid to the orders received from iron and steel companies which use the limestone to separate the iron from the ore. The Millard and Herr quarries to the west of Annexille have increased their laboring force by fifty per cent. the output averaging almost sixty per cent. more than last year.

# SHIRT SALE Closes To-morrow

This has been a very unusual sale and if

you have not been numbered among the thrifty buyers who have secured new high grade shirts at genuine reductions, visit this "Live Store" to-morrow and get your share from the advantage offered by the Doutrich Shirt Week.

We know it takes a lot of courage for any merchant to offer his entire stock of clean new shirts at reductions this year owing to the scarcity of good fast colorings and fabrics.

But we want to keep our reputation with you. The same square dealing, honest representation and greater value-giving are things we prize most highly.

Our half yearly shirt sales are recognized as the bargain event of the year in high grade shirts. No number or manner of sales can detract from the public interest manifested in this extraordinary shirt sale.
