FRESH SELLING REDUCES GAINS

Initial Dealings Marked by Advances of Point or More; Rails Dull

New York, Jan. 21.—Material recoveries from yesterday's low prices were recorded on the resumption of trading to-day to the accompaniment of considerable activity. The rise was met by fresh selling, largely of professional origin, which reduced gains before the end of the first half hour. Advances of a point or more marked the initial dealings in American Smelting, Mercantile Marine preferred, Crucible Steel, the automobile group and some less conspicuous issues. United States Steel was unresponsive, however, making only slight recovery, which was soon forfeited. Apart from fractional gains in New York Central and Erie and a moderate decline in Canadian Pacific, rails were dull. Prices hardened again later. United States Steel, Mexican Petroleum and Marine preferred were the active features of the first hour, with a revival of trading at substantially higher prices before noon. Steel advanced over a point to 84⅝, wiping out over half of yesterday's decline. Crucible gained 5½ at 69½, and Bethlehem Steel, opening at 470, a loss of 9, soon advanced to 480. Strength as shown by the entire war group ,including General Electric and Westinghouse, and metals were stronger on the reported advance of copper for future delivery to over 25 cents. Manipulation of certain specialties was renewed on a moderate scale, Cuban-American Sugar advancing 8½ and Texas Company 6. Bonds were steady.

UNABLE TO FIND SCHOOL FIREBUGS

[Continued From First Page.]

intended to start the building on its way to destruction.

In both the Vernon and Forney buildings, the most dangerous places in the buildings were picked to start the fire. In the Vernon school the fire was started immediately beneath a space which would give a good draught to the flames. In the Forney school the fire, after burning through a thin partition, was fed by a draught through the foul air chamber. However, the absence of sufficient burning material near the spot, is what prevented a serious conflagration there.

Mr. Rhein and the police are getting away from the theory that the firebugs were boys. They believe experts selected the spots for the Forney and Vernon fires.

Make Room For Students

Children in the Forney and Shimmell buildings were in their accustomed places this morning as usual and a week from Monday it is expected that the Vernon children will be housed in the Shimmell school. There are three vacant rooms in the Shimmell building and in addition to these, the gymnasium, domestic science and manual training rooms will be used, with partitions in the latter two, so that eight rooms can be given over to the Vernon students. This plan was decided upon at a meeting of the School Board yesterday.

Rumors of notes having been found in the various schools were to-day branded as untrue. The later story to gain circulation was to the effect that this morning a notice was posted in Union Square, saying that four more buildings would be burned. This note could not be found.

Persons living in the vicinity of the Vernon school are said to have seen two men on the school property late Wednesday night, standing near the door of which the plate glass was found broken by the firemen. It is also stated that two men were seen leaving the Shimmell building in an automobile shortly before the fire was discovered there. These stories are without reliable foundation.
