Montenegrins Falling Back
The remnants of Montenegro's troops, driven from their own land, are falling back through Albania, fighting as they go. Apparently the main Montenegrin army as an organized unit has ceased to exist, for the cable reports speak of the present hostilities as guerilla warfare. It is being waged in the mountains by detachments of poorly equipped troops, harassed by Austrian aeroplanes which are attacking the Montenegrins with machine guns.

New Turk Chief
The report comes from Constantinople that the famous German field marshal, Baron Von Der Goltz, has been appointed commander-in-chief of the Turkish forces in the Caucasus. The field marshal, who was sent from Germany several years ago to reogranize the Turkish army, is one of the most redoubtable of Turkey's military leaders, and his appointment doubtless is occasioned by the successes of the Russians in that theater. The field marshal will be opposed by Grand Duke Nicholas, who, with a relinforced army has won recently a relinforced army ha

Fighting in Belgium

After a long period of comparative nactivity in Belgium heavy fighting has broken out with the initiative in the hands of the Germans. The French official report of to-day states that after a heavy bombardment the Germans launched an attack with infantry over a front of 1500 yards near Nieuport. At some places they succeeded in occupying French positions of the first line, but, Paris reports were expelled subsequently from most of this territory.

The German war office announces the destruction by artillery fire of the cathedral at Nieuport. The reason assigned for this act is that the cathedral was being used as an observation post. It was built in the Fifteenth century.

Russ on Mount 2 Miles High Exposed to Fierce Blizzards For Weeks

By Associated Press

London, Jan. 25.—Difficulties experienced by the Russians in the Caucasus are described in an officer's narrative received at Petrograd.

"For weeks," the narrative says, our column at the summit of Mount — 11,000 feet high, east of Erzerum, was exposed to blizzards which buried shelters fifteen feet under drifts and blew huts to pieces. Our position was most critical when at length we were ordered to march. A hurricane of furious proportions was raging when we began to descend the snow-clad precipices. The men marched in single file and forced their way shoulder high through the snow, firing their rifles to guide those behind them. Uniforms became sheets of ice and masks

Seeks to Abolish All Red Tape in War Office

By Associated Press Paris, Jan. 25.—General Gallieni, the French minister of war, in pursuance of his policy of decentralizing and modernizing the methods of the war office administration, has issued a series of instructions which are regarded in bureaucratic circles as almost revolutionary.

The general points out that the war department receives daily an average of 10,000 documents, which have to be passed upon.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair feet a 25-cent bottle of Knowlton's Danderine from any control of the Havas Agency.

While thus engaged several persons saw an automobile creeping cautiously across Fifteenth street north of Vernon and almost stop.
