PAINTINGS TO BE READY THIS YEAR

Miss Oakley Advises Board of Public Grounds and Buildings About Decorations

The mural decorations which Miss Violet Oakley, the Philadelphia artist is painting for the Senate chamber will be in place before the next Legislature meetings. Word to this effect has been received by Samuel B. Rambo, State Superintendent of Public Grounds and Buildings.

Hair Tinting All the Rage

The Absolute and Utter Harmlessness of "Brownatone" Has Made Hair Tinting Safe and Easy

You need not tolerate gray, streaked or faded hair another day. It takes but a few moments to apply "Brownatone" with your comb or brush, and just a little "touching up" once a month should keep your hair the beautiful shade you most desire.

Results are always pleasing. Will not rub or wash off and guarantees to contain none of the dangerous ingredients so often found in "dyes."

Prepared in two shades, one to produce golden or medium brown, the other dark brown or black.

Sample and booklet sent on receipt of 10c. "Brownatone" is sold by leading drug stores, in two sizes—25c and \$1.00. Order direct from Kenton Pharmaceutical Co., 472 E. Pike Street, Covington, Ky., if your druggist will not supply you. You will save yourself much annoyance by refusing to accept a substitute.

Insist on "Brownatone" at your hair-dresser's.

Sold and guaranteed in Harrisburg by Clark's Medicine Stores, 300 Market St., 308 Broad St., and other leading dealers.—Advertisement.

Senate within five or six months. They are huge canvases depicting historical events in the history of the State and are expected to be as notable as those Miss Oakley painted for the executive department reception room.

The members of the board of public grounds and buildings will visit Philadelphia to view the paintings before they are brought to this city.

Mr. Francis Here.—Warden John Francis, of the Western Penitentiary was a visitor to the Capitol yesterday.

Sewage is Now Treated.—The inspector of the State Department of Health on duty in Philadelphia has reported that the Bureau of Surveys of the Department of Public Works, after violating the State decree requiring the continuous disinfection of the effluent from the Pennypack Creek Sewage Treatment Plant, have again applied disinfectants. This action was taken following a warning from the Commissioner of Health, Samuel G. Dixon, to the citizens of Philadelphia in the eastern, central and southern districts advising them to boil all drinking water. Dr. Dixon said "this will help to relieve the overloaded filter beds at Torresdale as was contemplated by the original decree granted to the State in 1910."

Credit for Reinsurance.—In an opinion rendered to-day by Insurance Commissioner Johnson it is held by Deputy Attorney General Hargest that settlement for State taxes due from the American Union Fire Insurance Company, of Philadelphia, now in receiver's hands, "should be made on the basis of giving credit to the American Union Fire Insurance Company for the premiums paid for reinsurance to the Warsaw Fire Insurance Company."

To Test Right to Office.—Attorney General Brown has granted the use of the name of the State in a quo warranto proceeding to test the right of Asher Mutchler to be alderman of the Twelfth ward, of Easton. It is contended by W. H. Hackman that Mutchler has not been a resident of the ward for a year as required by the act regulating eligibility to the office of alderman.

Justice Named.—William H. Aten was to-day appointed Justice for Mifflin township, Columbia county.

Henderson Goes Up.—Second Lieutenant John M. Henderson, Company E, Sixteenth Infantry, Oil City, was to-day promoted to first lieutenant in orders issued from National Guard headquarters.

Nec Question Raised.—Residents of Punxsutawney to-day entered a complaint with the Public Service Commission which will raise the question of the right of a water company to make the owner of a property and not the tenant chargeable for water rent or rates. It is charged that this was done by the Punxsutawney water company in an order recently issued and that it is illegal.

Attending Dinner.—Commissioner Alney is in New York to attend the dinner of the Traffic Club, of which he is to be a guest.

To Apportion Cost Later.—The Public Service Commission which approved the Pennsylvania railroad's Middletown crossings will apportion the cost later.

Big Case Postponed.—Deputy Attorney General Hargest was to-day advised by officials of the United States Supreme Court that the ice cream act test case, which he is handling for the State had been postponed.

May Get Quo Warranto.—A quo warranto proceeding may be started against the Pennsylvania railroad.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

RAILROAD MUST PROVIDE ROAD

[Continued From First Page.]

the full legal width of the highway portions of which have been absorbed by your company from time to time in construction and making improvements. This is particularly true of the greater portion of the highway between the grade crossing at Sreecville and the Clark's Ferry Bridge in which section of the road you desire to make some changes.

Referring to the records of the original lay-out of the highway in question, it has been found that it was laid out fifty feet in width and the under the arrangement in which a road has been absorbed by a railroad company that one equal to the original width must be supplied (See 215, Pa. State Reports, Page 149).

You no doubt are aware that your company has failed to supply the road required in this instance, and portions of this highway are not more than ten feet in width, and as the traffic has and will continue to increase over this highway, which is a main artery, this Department must see that said highway is maintained in a good and safe condition for travel.

The most important of the above mentioned conditions lies between Sreecville and Clark's Ferry, and this Department insists, with this end in view, that your company take immediate steps to alleviate the conditions complained of.

In the treatment of the portion of this road north of Halifax, Pa., we believe that arrangements should be made immediately by your company to submit a proposition whereby the location of this highway may be changed to the east side of the company's tracks, thereby eliminating four grade crossings. This will give your company the required right-of-way as asked for in your application for a permit to change the highway at this particular point.

There is also a very narrow and dangerous section of this highway north of Clark's Ferry Bridge towards Inghenook, Pa. This road at the present time is being maintained by your company. At certain seasons of the year the road is impassable by reason of the flooded condition from the rising of the river, and at other seasons by ice gorges. The road is of insufficient width to permit vehicles passing at all points, and contains several hoisting derricks which are obstacles and a menace to the traveling public.

We insist that this road be placed in such condition that it will be opened the legal width and made fit for traveling at all seasons of the year.

Action will be deferred on your applications for permits pending an agreement on this entire situation.

Very truly yours,
R. J. CUNNINGHAM,
State Highway Commissioner.

ANSWER OF BELGIUM TO GERMAN WHITE BOOK READY

Paris, Jan. 27.—A dispatch from Havre says the Belgian government has completed the volume which has been under preparation in answer to the German white book and that it definitely disposed of German charges regarding the attitude of the people of Belgium toward German troops. It is stated that the assertions in this regard made by certain German officers were for effect in neutral countries and that it is proved that they were unfounded.

PRIZE COURTS CRAMMED

Berlin, Jan. 27, by wireless.—Reports from Dutch sources say that the number of undecided cases now before the British prize courts is so great that if peace were concluded at the present time the courts would be occupied for two years.

NEWS OF STEELTON

GIRLS SELL TAGS FOR RELIEF FUND

Bevy of Steelton's Prettiest Misses Raise Money For Destitute Across the Sea

With a bevy of pretty girls acting as collectors, it was just impossible to escape making a contribution to the Jewish relief fund if you were in Steelton to-day.

Indeed, very few tried to escape, because this is Jewish relief day, set apart by President Wilson for raising money to be used in caring for the destitute Jews across the sea—and then to be "tagged" by one of Steelton's prettiest girls who acted as collector for the fund. Among the girls who acted as collectors this morning were: Miss Annie Kahn, Miss Ida Yosolowitz, Mrs. John Yosolowitz, Miss Minnie Levin, Miss Freda Levitz, Miss Kits, Miss Bessie Melman, Miss Sugar, Miss Levin, Miss Rosie Margolis and Miss Gertrude Jacob.

After the package party is over anyone who wishes to contribute to the fund may do so by entering their offering to any of the following committee: David P. Baker, Dauphin county court interpreter, chairman; Louis Lehrman, Jacob Yosolowitz and L. Laborwitz.

STEEL BOOM IS NOW AT ZENITH

Production More Than Double That of 1914; Many Wage Increases

Operations in the steel trades, it is declared by the Iron Age in its weekly review to-day, have reached a new high level during the past week.

Says that journal in part: "The scale of earnings of the United States Steel Corporation, learned through the announcement of Tuesday afternoon, puts the stamp of definiteness on the high level of prosperity of the steel trades as a whole. With prices half again and in some cases twice as high as they were a year ago and a volume of business two to two and one-half times as great as in 1914 we are still moving in the direction of higher prices. The incessant demand for material booked and the repeated efforts of the steel makers for the large volumes for export give some indications of the promise of 1916."

"Generous railroad buying is not expected in the immediate future. Earnings of railroads must be swelled to the levels of ten years ago, it is held, before their pet bridge jobs and cars in quantities will be considered. Raw material prices going into these products are high but artificial competition exists so that the high prices of the finished bridge work of 1906, for example, have not yet been reached. It is to be remembered that haulage of freight for export, now a feature is not done at domestic rates."

"An enormous demand for machine tools from abroad is developing. There is one inquiry from Russia for no less than 3265 machines. Domestic demand is becoming strong and some of the best makers of the world are being sought for in the United States."

"Wages to Lark Superior Iron-pumers are to be advanced very generally on February 1, an average of 10 per cent. This is in addition to the recent restoration of 10 per cent, cut made at the time of the depression of something over a year ago."

FAIR DEFENDANT TOO TRIUMPHANT

[Continued From First Page.]

qually speaking, Erma not only brazenly exhibited her power, but "rubbed it in."

Touched in legal phraseology, that expressed the views of Additional Law Judge S. J. M. McCarrell in an opinion handed down to-day relative to the recent restoration of the jury.

The trial excited a whole lot of interest a year ago. Mrs. Murphy contended that Erma had so alienated her spouse's love for her that he paid little or no attention to his family.

What Influenced the Jury

The jury returned a verdict in Mrs. Murphy's favor during the trial for \$2,458. Whereupon the latter asked for a new trial.

Judge McCarrell declared the sum was a trifle unusual. However, he thought Mrs. Murphy's action was influenced by the defendant and her manner on the stand indicated her lack of any proper application of the rights and duties of the marriage relations," said the court, "and her disposition to annoy and humiliate the plaintiff by publicly manifesting her influence over the plaintiff's husband."

Judge McCarrell, however, will allow a retrial under certain conditions. If Mrs. Murphy will refund \$958 of the verdict so that she may retain only \$1,500 instead of \$2,458 in the matter for a new trial will not be considered. If Mrs. Murphy fails to comply with this suggestion the retrial will be permitted.

The Bakery Problem

In another opinion Judge McCarrell continues permanent the injunction Joe Buccl obtained some time ago against Jimmie Pavone restraining the latter from operating a bakery at the Bradley corner near Palmyra. Buccl bought a baking business from Pavone without the understanding that the latter wouldn't go into business again.

The court also overruled the city's request for a new trial in the suit of Lulu and W. H. O'Brien against the municipality. Mrs. O'Brien was injured by falling into a hole in Court Street several days ago. This Mrs. O'Brien contended, was caused by the unsatisfactory condition of the paving. A jury awarded a verdict in the plaintiff's favor.

The Life Tenant's Problem

The court in another opinion decided that a "life estate" of life interest in a property does not necessarily carry with it the full title to the property, and that the property cannot be sold by the life tenant. The question was raised in an equity proceeding in which Morris and Michael M. Stoner were bequeathed certain properties only as "life tenants."

Has Faith In Remedy

Mrs. H. S. Carlson of Wakefield, Nebr., testifies to the relief she experienced from the use of Fruitoia and Traxo:

"I used Fruitoia and Traxo with very good results. Having passed almost a cupful of gall-stones with the first bottle. My skin is clear now, and I have a good appetite. I have lots of faith in Fruitoia and Traxo."

Fruitoia is a powerful lubricant for the intestinal organs, softening the hardened particles that cause so much suffering and expelling the congested waste in an easy, natural manner. A single dose is usually sufficient to clearly indicate its efficiency. Traxo is a splendid tonic-alterative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation.

For the convenience of the public, arrangements have been made to supply Fruitoia and Traxo through representative druggists. In Harrisburg they can be obtained at Gorges, the druggist, P. R. H. Station.

NATIONAL TRADE COUNCIL MEETING

Commercial Preparedness of America Is Keynote of Foreign Commercial Body

New Orleans, La., Jan. 27.—The National Foreign Trade Council opened here to-day its third annual foreign convention with several hundred delegates, composed of manufacturers, bankers, merchants, farmers, railroad and steamship men, in attendance and a program of addresses with the commercial preparedness of America as their keynote.

Governor Hall, of Louisiana; Mayor Behrman, of New Orleans; Alva B. Johnson, president of the Baldwin Locomotive Works; James A. Farrell, president of the United States Steel Corporation; Percival Farquhar, president of the Brazil Railway Company; E. J. Berwin, coal operator, and John Clausen, San Francisco banker, were in the list of speakers.

A corps of foreign trade experts were on hand to advise the delegates on details of foreign selling, investments and allied subjects.

That the new doctrine of pan-Americanism demands concentration of United States foreign investment in the securities of the United States, and that the necessities of financing European purchases of munitions in the United States after American securities are returned will require sale to this country of some of Europe's holdings of South American securities, was the conclusion reached by Percival Farquhar, of New York, president of the Brazil Railway Company, in an address on the subject of "Investment in South America."

Quality vs Strength

ALL Havana does not necessarily mean a strong, heavy smoke. Many smokers think so until they get acquainted with

M O J A

when they suddenly discover that an all Havana cigar may mean more quality than strength.

And quality will satisfy where strong tobacco will not.
