MINERS CONSIDER OFFICER'S REPORT

Much Work Before New Wage Scale Comes Up; Convention Expensive

Indianapolis, Ind., Jan. 28.—Delegates to the United Mine Workers' convention to-day continued consideration of the report of the committee on officers' reports, which has approved all the acts of President John P. White and endorsed all the recommendations he has made. So far President White has had to battle to obtain approval of the important matters touched upon in his report. He won the contest on his nonsuspension policy and succeeded in winning the approval of the convention in the matter of the management of the Colorado strike.

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this to-night, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fufffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Advertisement.
