The Lowest Price Ebb of the Year Marks the Event Which Opens Tomorrow

The kind of furniture that the average man is proud to have in his own home is the kind of furniture that you may expect to find in this half-yearly Furniture Sale—at savings of ten to fifty cents on the dollar.

Furniture of the better grades have already advanced 5 to 15 per cent, and further advances will undoubtedly be made within a very short time, on account of the increased costs of labor and material. So the logical time to buy furniture is when furniture is at its lowest cost ebb. The advantageous time to buy dependable furniture, then, is right now.

The February sale offers you our entire regular stock of staple pieces, together with hundreds of new arrivals, at prices that have been brought down to an irreducible minimum.

Dives, Pomeroy & Stewart—Second Floor.

Just as it took the foresight and courage of Alexander Cassat, of Pennsylvania to achieve the extension of one of the world's greatest railroads into New York City, so did it take the ability of M. J. Whittall of Massachusetts to preserve the traditions of Oriental art in loom made American rugs.

Rugs of the Oriental type are prized by wealthy homemakers on account of their artistic beauty, and it has only been since the development of the science of rug weaving that it has been possible to own at small cost a true copy of the most expensive Persian antiques.

A Whittall Exhibition Rug Loom, The Only One in Existence, Is Being Publicly Operated in the Store This Week

The educational value which surrounds this special exhibit is so apparent that it will be to your own personal advantage to attend.
