

## LYNCH SAVES AT LEAST \$5,000 IN STREET REPAIRS

Annual Report to Council Shows Liberal Estimate Is Not Above \$10,000

### \$15,000 UNDER CONTRACT

Harrisburg Now Boasts of Nearly 75 Miles of Paved Highways

Harrisburg now has 74.83 miles of paved streets. That significant high-light in the city's progress stands out pre-eminently in the comprehensive report for the year ending December 31, 1915, which was submitted to City Council this morning by Commissioner W. H. Lynch, superintendent of streets and public improvements.

One other item also stands out with especial prominence. According to Commissioner Lynch's report the city expended \$19,939.23 for repairing and maintaining its paved streets.

**Street Repairs Cost \$10,000**  
Of this sum \$12,694.15 was paid into the city by the Harrisburg Railways company, the Harrisburg Gas company and other individuals or corporations for "private cuts," which left a balance of \$6,995.08. This represents the city's actual outlay for repairing its asphalt streets. Added to this the interest on the repair plant loan and deducting a liberal amount for depreciation of the plant—say \$3,000 all told—would run the city's actual cost of keeping its streets in repair during 1915 to approximately \$10,000. And making the best records in safety, accident prevention and industrial hygiene were announced yesterday by Arthur Williams, president of the American Association of Street and Railway Builders.

The gold medal goes to the Cincinnati, New Orleans and Texas Pacific Railway, with the Grand Rapids and Northern Railway receiving honorable mention. The silver replica will be given to the Scioto division of the Norfolk and Western Railway.

The bronze replica, awarded to a railroad employee who has individually achieved something notable for safety, was won by a Chicago and Eastern Illinois Railroad switchman, whose identity will be made known when he appears in person to receive the medal.

## RAILROAD RUMBLES TEACH BIBBLES BY MAIL

Correspondence Feature at P. R. R. Y. M. C. A. Proves Big Success

Railroaders under treatment at the State Tuberculosis Sanatorium at Hamburg, are a part of the Bible study class of the local P. R. R. Y. M. C. A. They receive instructions and examinations through correspondence, and will graduate with members of the local class in May.

Directors of the local association will to-night learn of the success of this new feature from Frank H. Deary, general secretary. Ira P. Dean is the head of the Bible study branch of the P. R. R. Y. M. C. A., and prepares the questions for the members. Each week a series of studies are sent to the patients, fourteen in number, at Hamburg. To date, the correspondence pupils have shown remarkable advancement.

The interesting statistics and information will be given the directors to-night in the general secretary's monthly report. He will also arrange for the sending of a large delegation to the State Y. M. C. A. convention at Reading the week of February 19.

Relief Will Come to Congestions in Rutherford Yards; Record Sunday

Officials of the Harrisburg division of the Philadelphia and Reading Railway, because of embargo removals, look for further relief from freight congestions at Rutherford and along the division. It was said to-day that several hundred cars of grain and other freight, held upon orders, are stored at Rutherford and along the division. The movement of this freight will keep the crews busy.

On Sunday the Rutherford yards were well cleaned out of all freight on which no embargo had been placed. A total of 4,000 cars were moved. On the Reading division, 17,000 cars were handled, mostly anthracite coal. This record movement, it is said, cleared sidings for embargo freight which was moved further east, and will enable more prompt delivery to eastern points.

**Red wine** were brain-builders and health-givers. He contended that all the notable achievements of the world were performed by people who ate meat and who drank pure red wine. He was strongly opposed to alcoholic beverages. This man, too, fell by his malady, but all united in the opinion that the trouble originated in the digestive system. His system had become poisoned in some way.

He, too, failed to realize that he had brought this upon himself by his unwise indulgence in meat and wine. He believed himself a victim of overwork.

## TWO IN FIVE ARE CHURCH MEMBERS

Gains Made Last Year Slightly Smaller Than Those of the Year Previous

Two out of every five persons in the United States are members of some religious organization. Of the 100,000,000 inhabitants of the country 39,375,271 can be included as church members of some sort. These are figures compiled by the Year Book of the Federal Council of Churches of Christ in America. Dr. H. K. Carroll, statistical expert of the Council of Churches, is the man who conducted the investigation.

The gains made in membership by religious bodies throughout the year showed a slight falling off as compared with the same period a year ago. Last year's increase was 442,193. The year before the increase was 779,276. The Roman Catholic population is given as 16,509,000, with a deduction of 15 per cent for children not old enough to be counted as members.

A discrepancy exists in the figures given out for membership in the Lutheran church as compared with the Lutherans' own figures. According to the year book of the council, there was a loss of 10,708 members. On the other hand, the Lutherans' own year book reports a gain of 62,100 throughout the United States. Protestant Sunday schools throughout the country have an enrollment of 16,000,000, with 1,500,000 officers.

The results of the tabulation are as follows:

Religious Body	Membership	Gain
Baptists (colored)	2,018,968	10,774
Baptists (white)	771,362	16,774
Disciples of Christ	1,363,100	.....
Friends	120,712	.....
Methodist Protestant	201,100	20,728
Lutherans	2,434,186	10,786
United Presbyterians	153,651	5,431
Presbyterians (South)	332,339	21,737
Reformed (Dutch Branch)	126,847	3,704
Reformed (German)	126,847	3,704
Unitarians	70,542	.....
Reformed (German)	320,459	7,779
United Brethren	350,273	39,781
Universalists	55,000	3,000

## Death of Miss Anna Weir After a Long Illness

MISS ANNA C. WEIR

Miss Anna C. Weir, one of the most beloved and widely-known women of the city, passed quietly away this morning at 1 o'clock at her residence, 1604 North Second street, after an illness of nine and one-half months, aged 77 years. She is survived by one sister, Miss Sibyl M. Weir, of this city. The funeral arrangements have not been completed, but will be announced to-morrow.

Miss Weir was born in Harrisburg February 26, 1839, the daughter of John Andrew Weir and his wife, Katharine Wiestling Weir. She has spent her entire life here and has been identified with all the interests of the city she loved.

Coming of a family long interested in work of the Market Square Presbyterian church, especially that of the Sunday school "Miss Anna" early took her place as a teacher and in 1911 was presented with a gold medal by the Pennsylvania Sabbath School association on the completion of her 50th year of active Sunday school service.

Last February, Market Square Sunday school gave Miss Weir a similar medal for her excellent work of 54 years, on her retirement. She was the successful superintendent of the Junior department for thirty years and at the 90th anniversary of the school was elected "Superintendent Emerita" as an appreciation of her services.

As president of the Woman's Foreign Missionary Society Miss Weir gave of her best to further that work and it was only when serious illness came that she gave it up. In all church interests, in the Civic Club, various industrial associations, the W. C. A., the Y. M. C. A., and the Wednesday Club, "Miss Anna" could be counted on for moral and financial support, and she was missed sadly among the poor of the city to whom she gave liberally at all times.

**HEAD NURSE QUILTS**  
Miss Annie D. Gemmill, supervisor of nurses at the Harrisburg Hospital for a number of years and assistant superintendent of the institution, yesterday tendered her resignation to the board of managers, to become effective March 1. She will leave in March for Omaha, Neb.

## STEVENS MEN ASK MORE ROOM

Class Rapidly Growing; Committees For 1916 Are Appointed

At a meeting last night of the Men's Bible Class of the B. F. Stevens Memorial Church a resolution was passed requesting the board of trustees to provide larger quarters. The request was given unanimous endorsement.

The resolution was prepared by John P. Olmsted and in the preamble refers to the present cramped quarters of the class. The trustees are asked to provide in their plans for the enlargement of the church a special room for this class, which is rapidly increasing in membership.

The recently elected president, George W. Bogar, presided over last night's meeting. The annual report was presented by officials and committees. C. Howard Reel, accompanied on the piano by Howard P. Bronson, sang a solo, and after singing by the class refreshments were served. The following committees were announced:

Membership—A. Bruce Banks, chairman, John M. Ensminger, Grant Ramsey, George E. Seerist, Theo. M. Sechler and Thomas B. Leeds.

Social—Arthur W. Holman, chairman, Clarence S. Shuck, Robert Champion, David C. Gowals, J. Frank Saussman, Grant Ramsey, Theo. M. Sechler, John A. Geiger, Chester Champion, George W. Bogar, Carl Heefner and Ralph M. Wolfe.

Relief—Lewis J. Schaeffer, chairman, George E. Seerist, J. H. Steele, Robert Champion, Harvey A. Ritter, M. Eves, O. G. Fry, J. A. Werl, P. J. Martin, John M. Ensminger and William Sutton.

Devotional—J. Harris Bell, chairman, Dr. C. A. Smucker, Professor E. E. Knudsen, J. W. Hays, E. E. Knudsen, H. G. Pedlow and Lewis H. Wible.

**ENGLAND DENIES MORE FOR PEACE**

land apparently was not directed at London, the comment that has come from the British government is that the course of the raiders was more to the north, possibly taking in the great manufacturing center of Manchester, and apparently being intended to seek out and damage the great munition factories. No details of the damage done have been received.

**80,000 Turks Locked In**  
What is believed to have been an attempt at a third air raid on Paris within three days was foiled by the lookouts on the French front, according to Paris advices.

Naval and air activities overshadow for the moment in the interest of land operations, regarding which important new developments are being reported for the most part. The Caucasus campaign is a fruitful field just now for interesting reports and the situation at Erzerum is, according to one of these reports more serious for the Turks than previous advices have indicated. There are said to be 80,000 men under Field Marshal Von Der Goltz locked up in the city with only two weeks' provisions on hand.

**Charles E. Pass Joins Forces of Schmidt; Was 25 Years With F. & M.**

Charles E. Pass, who is connected with the sales department of the Harrisburg Foundry and Machine Works, has been identified with the Foundry and Machine Works for twenty-five years.

Previous to taking up his new duties he will visit large baking plants in Chicago, St. Louis, Milwaukee and other cities.

Mr. Pass is one of the best-known men in Dauphin county, having been prominent in civic affairs for years. He is also prominently identified with the Improved Order of Red Men in Pennsylvania.

**Hair Curled This Way Looks Naturally Wavy**

To-night, after you have brushed out your hair, dip a clean tooth brush into some plain hair cream and draw it through the hair strand by strand. This is by far the best thing you can use if you want your hair to appear naturally wavy and curly, glossy and beautiful. When you behold yourself in the mirror to-morrow morning, you will vow never to go back to the dry, lifeless, vitalizing curling iron. Liquid silmerline is the hair's natural enemy, and it will discolored the hair, and produce any harmful effect whatever. A few ounces, which of course can be had at any drug store will last for weeks.—Advertisement.

**Says Rheumatics Should Not Drink Whisky**

Overheats the Blood and Increases Inflammation in Joints and Muscles. Don't drink whisky or any alcoholic beverage unless you want to increase the agony of rheumatism. Keep your feet dry, wear woolen underwear, and drink plenty of water; lemonade is better. This treatment helps, but if you really want to get rid of rheumatism with its painful distress, twisted and swollen joints and perpetual agony, take one-half teaspoonful of Rheuma once a day.

Rheuma conquers rheumatism
